Unflow

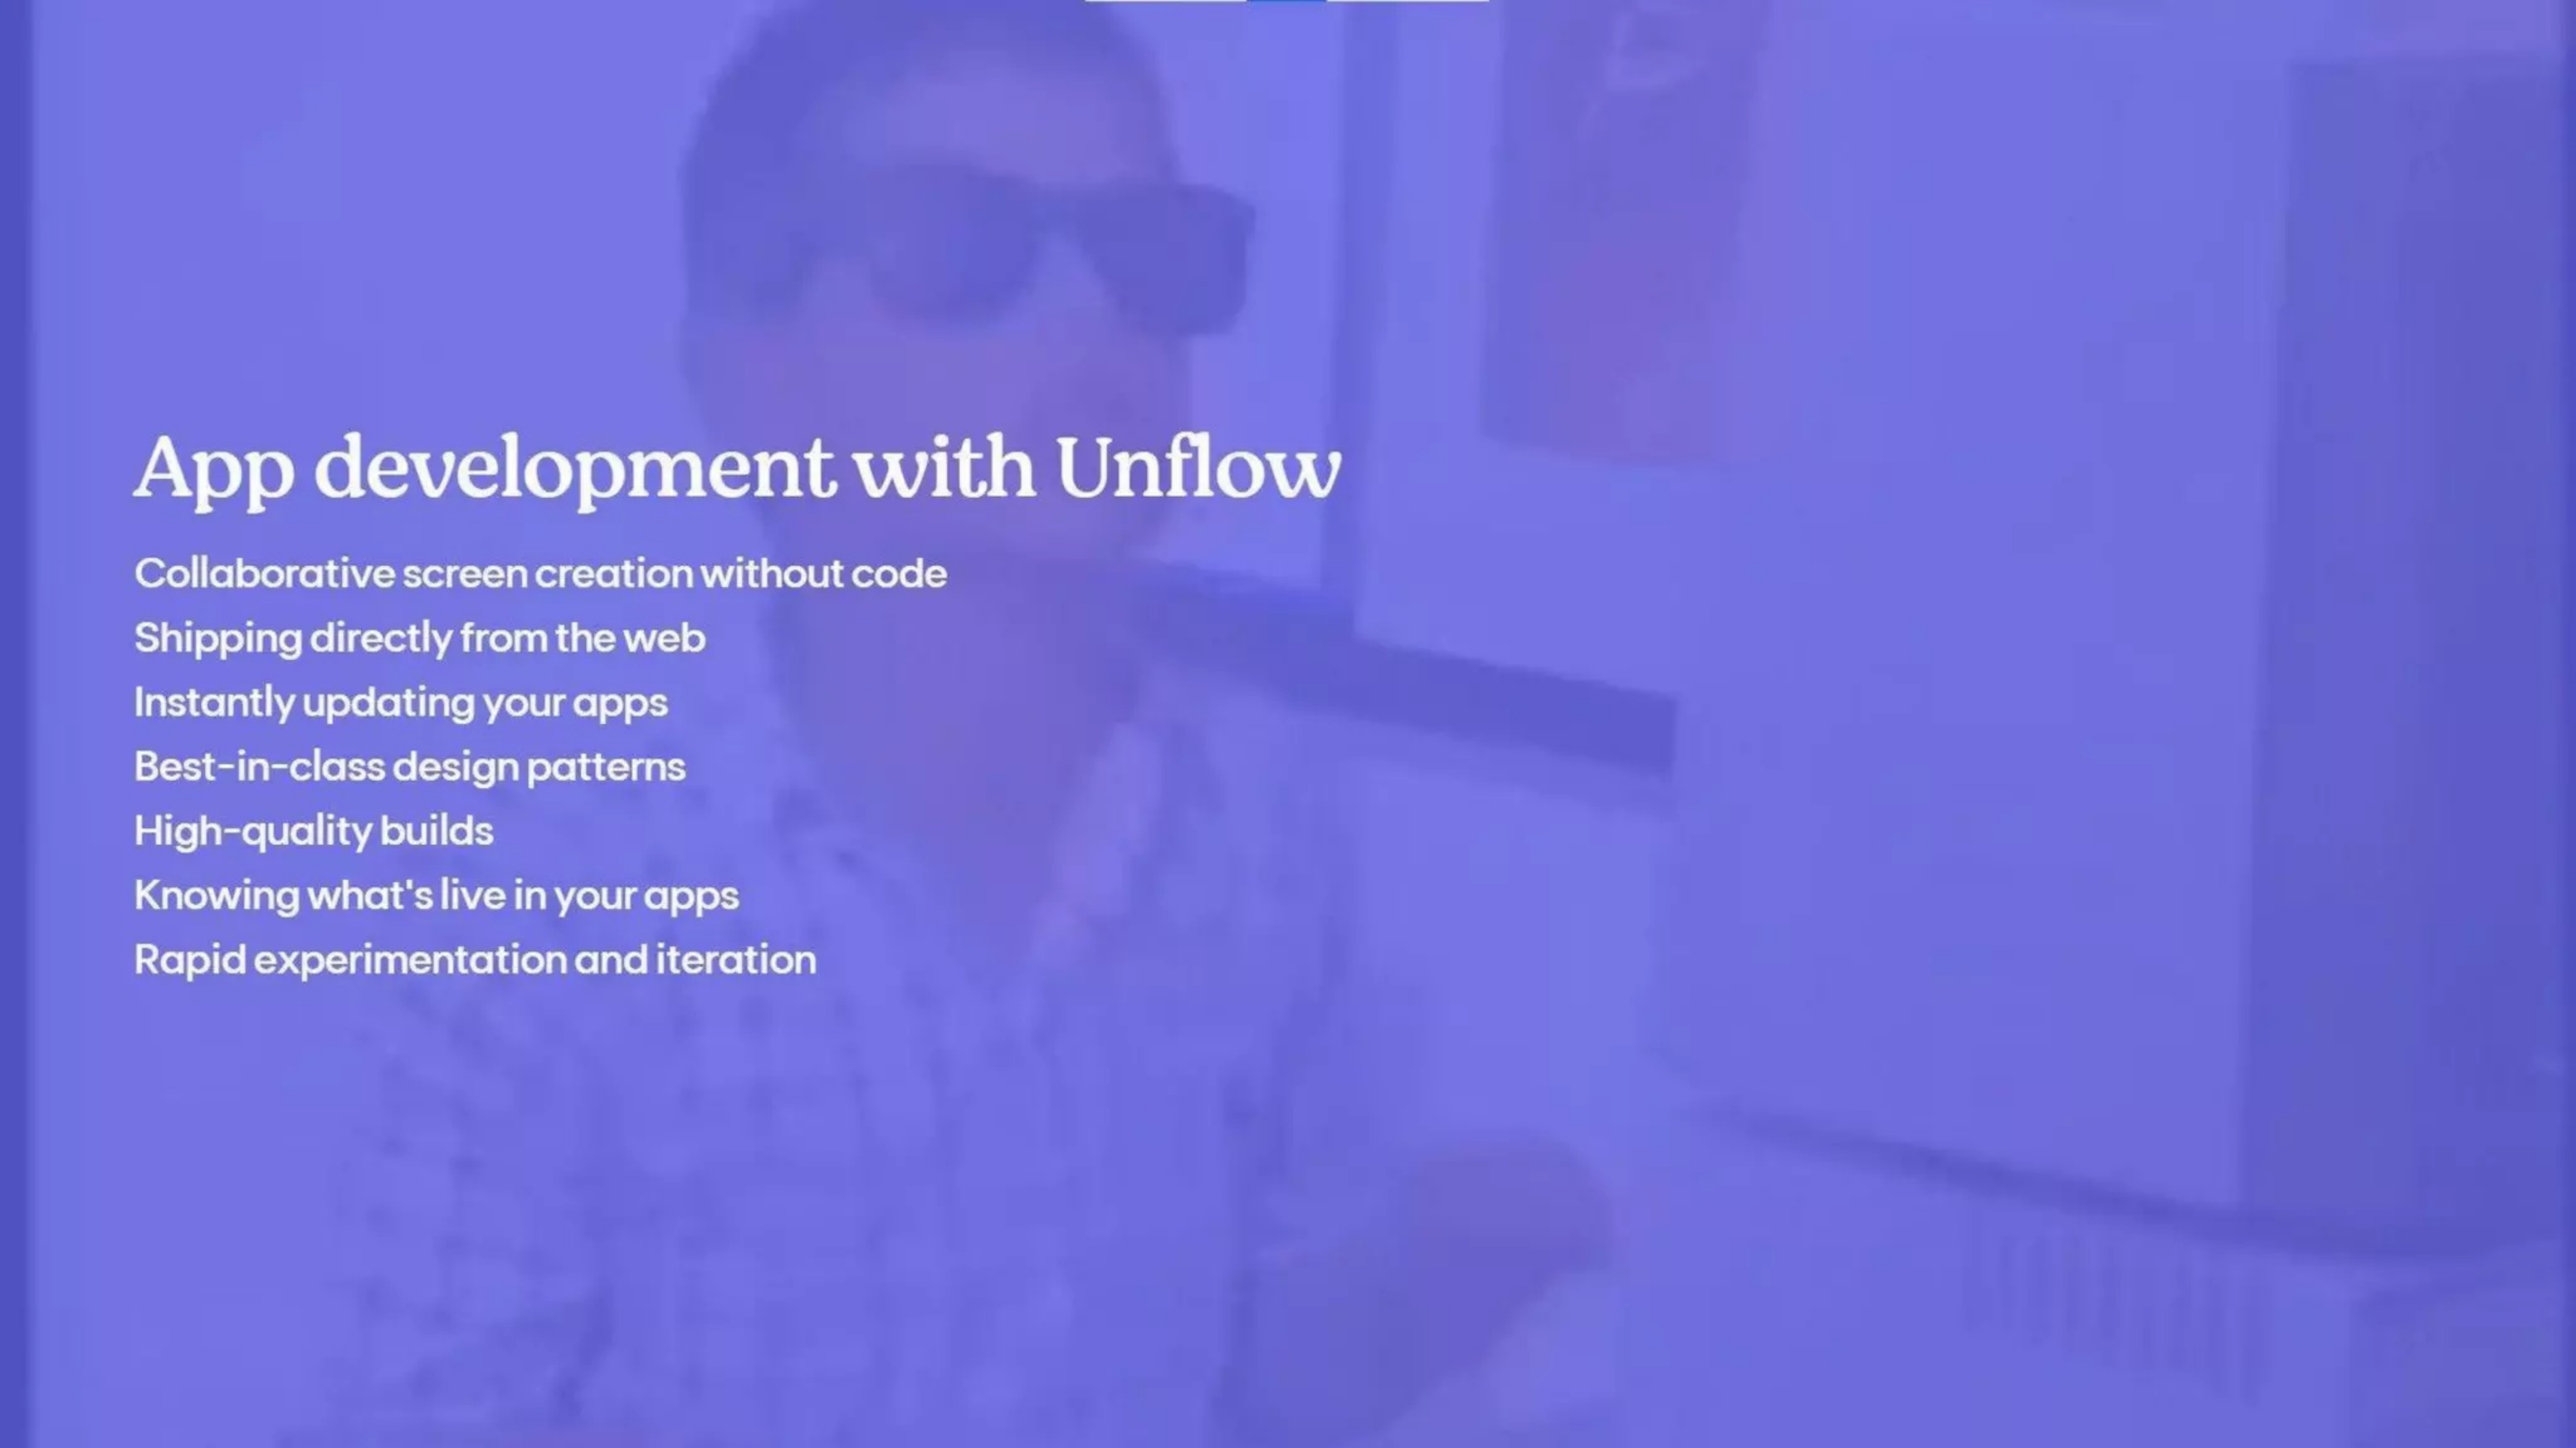

# Mobile app experiences, made without code.

# App development today

Asking designers to create screens
Begging engineers to build screens
Waiting for engineering bandwidth
Testing / QA
Waiting on App Store / Play Store release cycles
Not knowing what's live
Broken, difficult, time-consuming workflows

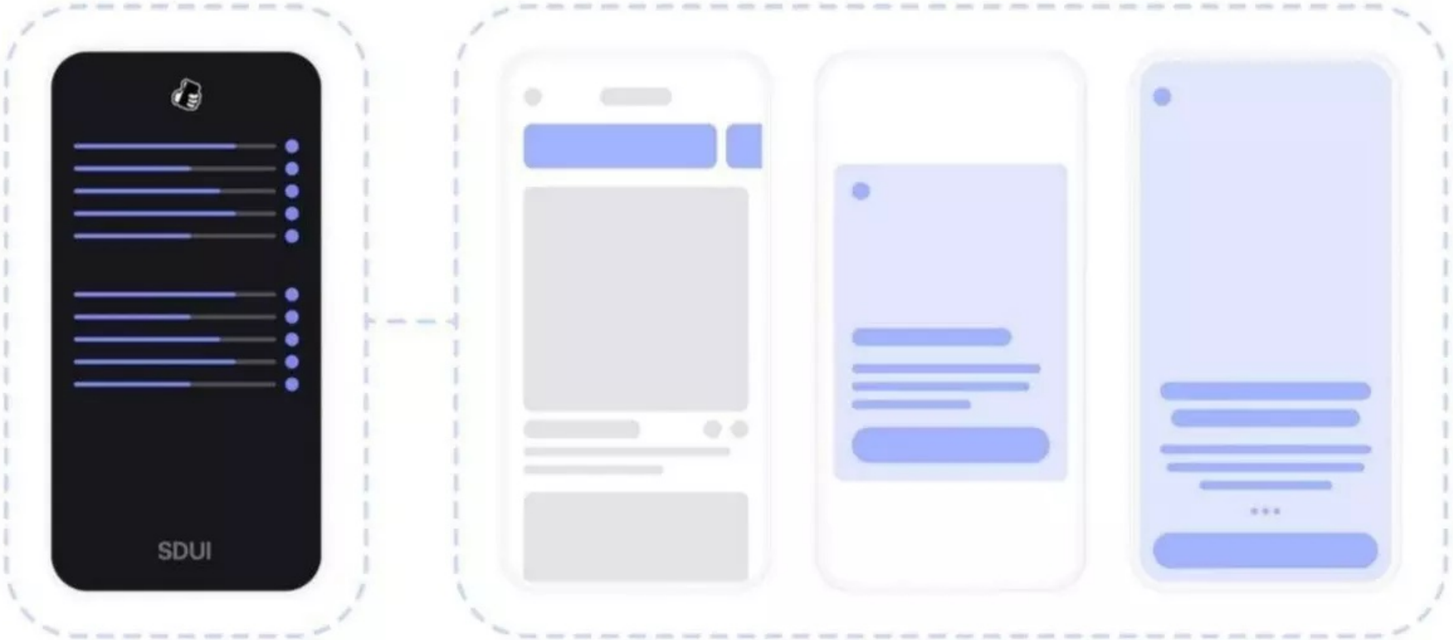

# App development with Unflow

Collaborative screen creation without code
Shipping directly from the web
Instantly updating your apps
Best-in-class design patterns
High-quality builds
Knowing what's live in your apps
Rapid experimentation and iteration

# Server driven UI

When the Unflow SDK is installed in mobile apps, it allows them to render UI based on data sent from a web server. It's a method pioneered by the likes of Airbnb and Lyft.

## Instroducing Audio Rooms

We all know video calls can get tiring, so we've introduced a new form of room, just for audio. Share stories, music, or just listen to ambient sound while working from home.

## Dog 101 for parents and children

Eoghan Reid

The numbers of dogs in the UK have soared since lockdown, and now it is estimated that there are 12.5 million dogs in the country, with a third of all households owning at least one.

This means that all children will come into contact with dogs at some time – whether at home, when visiting friends and family, or just when out and about.

Whether as dog lovers we like it or not, dogs are a hazard – and they are especially so for children. They have teeth, claws, a mind of

# Our investors

We're backed by some of the incredible investors behind mobile apps like Calm, Wise, and Revolut.

# Our team

We're a small but ambitious team. We've led and delivered best-in-class products at multiple startups and high-growth environments like Intercom, Monzo, and Xero.

# Questions?

**How does it work?**
Unflow provides a collaborative editor where marketing teams can design and deliver engaging in-app content to their users instantly. With our SDK, there is no need to involve engineering or wait on app store release cycles to deliver content.

**When can I try it?**
Today! Pop us an email at team@unflow.com for get early access
