What’s the big picture?

Any fintech needs to offer investment products soon

Negative interest rates

- Banks are facing penalty charges holding cash
- Users put pressure on apps to make use of their cash

Millennials wealth is rising

- By 2030, millenials will hold $20T in wealth
- They expect a seamless user experience and sustainable investments

Margin pressure

- Regulatory costs have increased approximately 800% over the last 10 years
- Securities brokerage is an attractive way to increase the CLV per customers

We become their leading Brokerage-as-a-Service partner
