Voi Technology

Voi is providing micro mobility all over Europe

August 2018
Pilot in Stockholm, Sweden

October 2020
Leader in European micromobility

Launched in 12 markets

5m+ users
30M+ rides

40+ cities

~$0 CAC

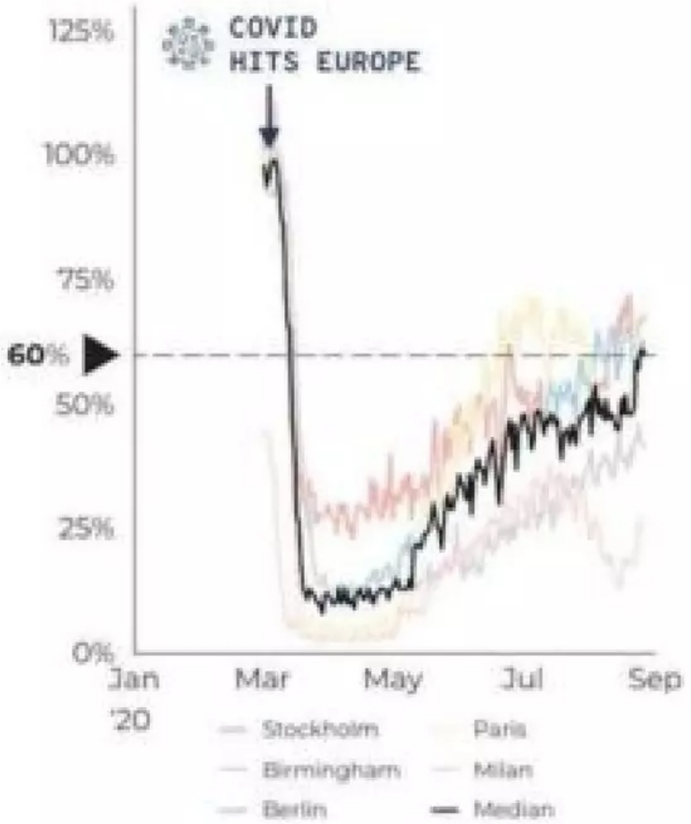

Leading community with policymakers and partners

Extreme cost efficiency focus

After Covid bump, growth has picked up rapidly and Voi reached profitability

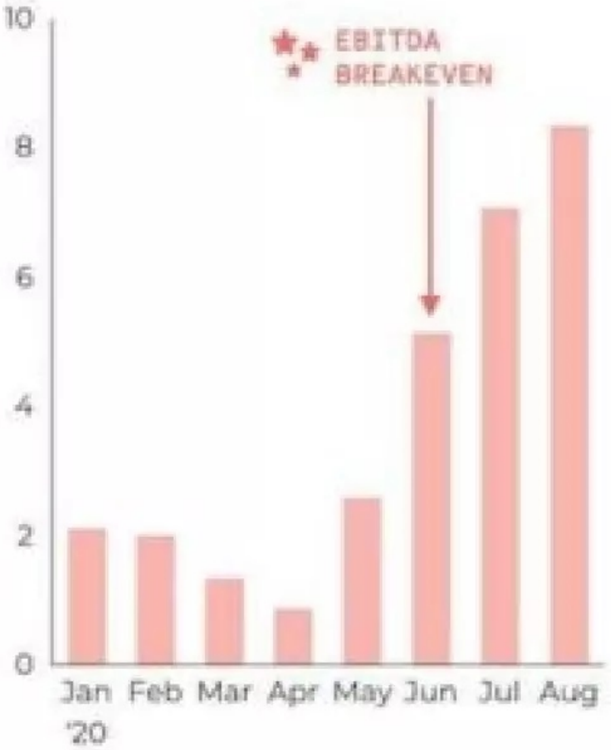

STILL ONLY 60% OF NORMAL TRANSPORTS

% of normal mobility volume[1]

STRONG REVENUE & MARGIN RECOVERY

MEUR gross charges

Strong fundamental tailwinds
- Anti-car agenda
- Urbanization
- Time saving

Covid accelerators
- Preference for personal mobility
- Public transport overloaded

We're making cities a better place through sustainable mobility

SINCE DAY 1 WE HAVE BEEN COMMITTED TO SUSTAINABLE GROWTH

#1
reason for working at Voi

Purpose and making an impact on society
- Being on the right side of history
- Growth journey with a cause

<20g
CO_2/km
emission per

Life cycle analysis: Scooters as good as public transport
- Continuous improvements in lifetime and recycling
- Electric light vehicles and swappable batteries

Supporting UN's 17 goals for 2030

SUSTAINABLE DEVELOPMENT GOALS

CITIES PAIN POINTS ARE MITIGATED AND RESOLVED

Parking and visual clutter
- Infrastructure, geofences and incentives

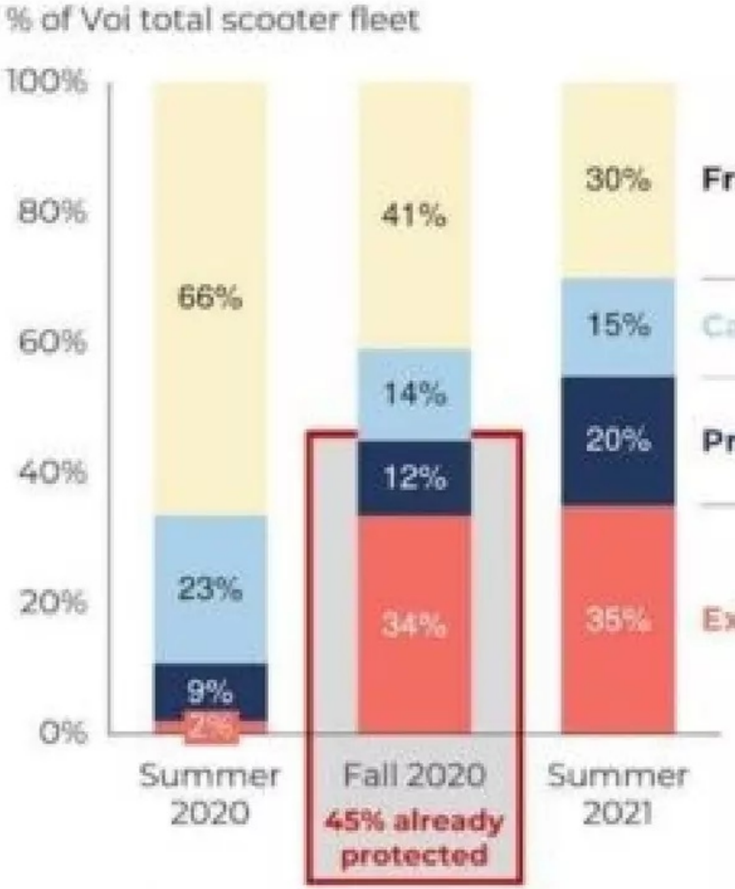

Safety
- Education, safer newer generation vehicles and software vehicles

WHY NOW & WHY VOI?

1. Winning with cities -> Licenses
2. Unit economics / efficiency -> Fleet Efficiency
3. Winning the minds of users -> NPS & # of rides
4. Changing the financial model -> Access to scale debt

Soon half of Voi's business and growing is now in protected or exclusive market share

VOI REVENUE QUALITY IS ALREADY THE HIGHEST IN THE MARKET AND SET TO IMPROVE FURTHER AS MORE MARKETS TENDER

Free establishment

Capped # scooter markets
- Big German cities

Protected market share license

Growing rapidly
- More and more cities realizing benefits of order

Exclusive license

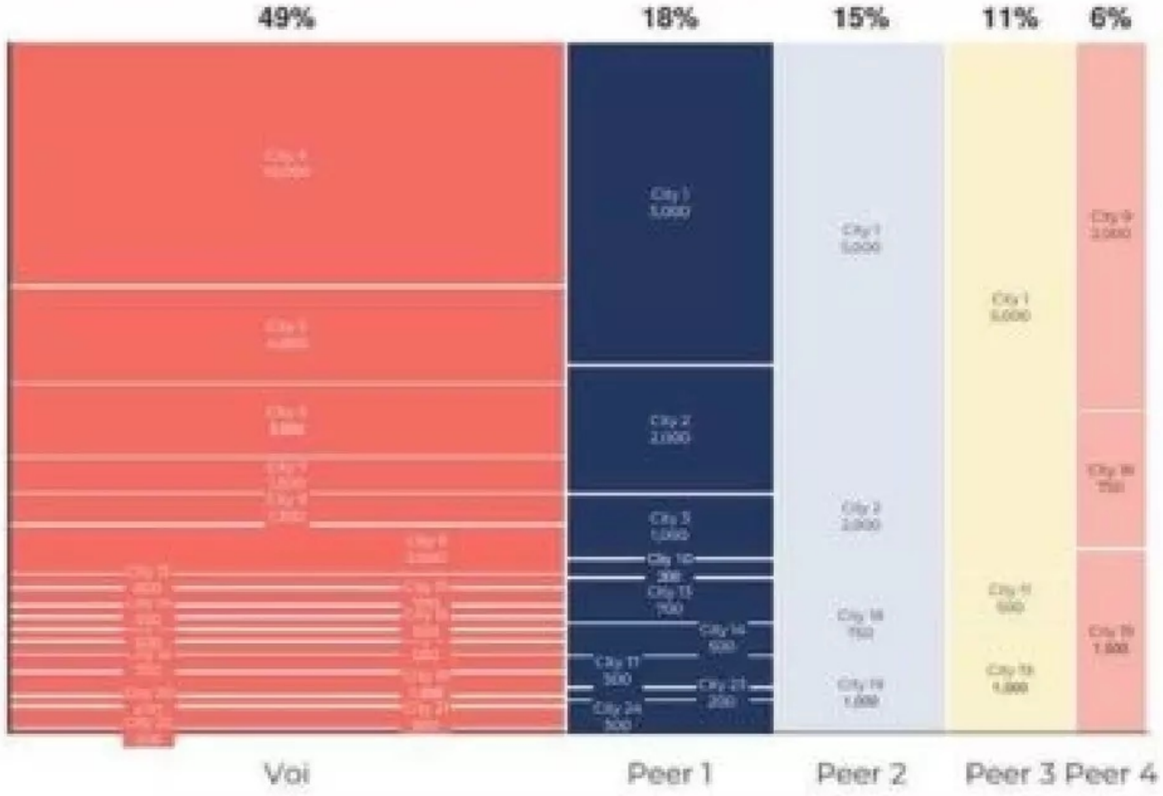

Growing very rapidly
- UK cities - Voi recipe for success exclusive despite multiple operators possible

Source: Voi fleet sizes and public tender results

We have won ~50% of all licensed market share in Europe and will go for clean sweep

VOI IS THE CLEAR LEADER IN NUMBER OF WON SCOOTER LICENSES

Share of total scooters in protected or exclusive European markets

Voi has continuously won licenses in all major geographies
- UK, France, Denmark, Norway, Germany and Italy success stories

European players favored in license outcomes with ~80% wins
- Stronger focus on sustainability and responsible operations
- Clean track record (Voi in particular)
- Higher localization of business model

Voi also successful in bikes and multimodal licenses
- UK licenses involving trials of e-bikes and e-mopeds
- Won several bike and multimodal system license

Source: Public tender results Note: Nordics, DACH, France, Italy and UK included

Voi recipe for big, exclusive licenses is successful, solving of key city pain points

VOI IS PROACTIVELY SOLVING THE KEY CONCERNS OF POLITICIANS AND WINNING TENDERS AS RESULT

Parking infrastructure and technology
- Decluttering the city
- Racks, education and parking zones

Robust hardware and software
- <1 meter location accuracy
- No broken scooters policy
- Leading reliability and quality

Safety & sustainability
- 5-6 yrs scooter lifetime - 8x from first generation
- Better brakes, suspension and stability
- Driver license verification, helmet detection, slow zones and online driving school
- Lifecycle emissions as low as public transport

WE HAVE THE CLEAR #1 TRACK RECORD OF WINNING TENDERS
