THE FLIGHT SHARING PLATFORM
MAKING PRIVATE AVIATION
ACCESSIBLE TO EVERYBODY

The private aviation sector is still "stuck in the 90's"...

Why?

1

It is **not leveraging the internet** to grow

2

It is **misperceived** as reserved to only the wealthy elite

3

It is **difficult to book flights** as it goes through brokers

...in a world where technologies evolve very fast bringing new opportunities

Internet community based start-ups have shown their power and haven't stopped improving

Air mobility has seen great breakthroughs in the past 2 years with drones and new propulsion systems

We are combining the best of both worlds to be the next revolution in transport.

Aviation

Good experience
New propulsion
Electric aviation
Fast
Comfortable
Drones

Internet

Mass market
Low prices
Pricing algorithm
Smart matching
Process automation

By creating a central player in private aviation to connect all aviation suppliers with passengers

With a product based on 3 pillars

1

Largest flight offering

2

The easiest fully integrated UX

3

Transparency, trust and safety

1 Largest flight offering

People are looking for brands they can find everywhere with a broad choice of offers and availabilities

A community of 17,000 pilots

3 countries and more coming

500+ cities covered

2 The easiest fully integrated UX

People want a process where they can do it all in one place and receive immediate answers and confirmations.

Flight browsing

Online payment

Flight confirmation

Integrated messenger system

User rating

3 Transparency, trust & safety

People want to receive all information transparently and have a high safety standard.

All information displayed on the flight page and pilot profile

All pilots documents are checked on a regular basis to stay in the community and they are vetted

Certified by the EASA and approved by all national regulators in Europe, UK & Switzerland

EASA

All flights re-insured by Allianz

Allianz

And the right team to build this product

Bertrand Joab-Cornu

COO

Emeric de Waziers

CEO

Lars Klein

CTO

Philipp Rösler
Former Vice-Chancellor of Germany

Felix Haas
Serial Entrepreneur, founder of Bits & Pretzels

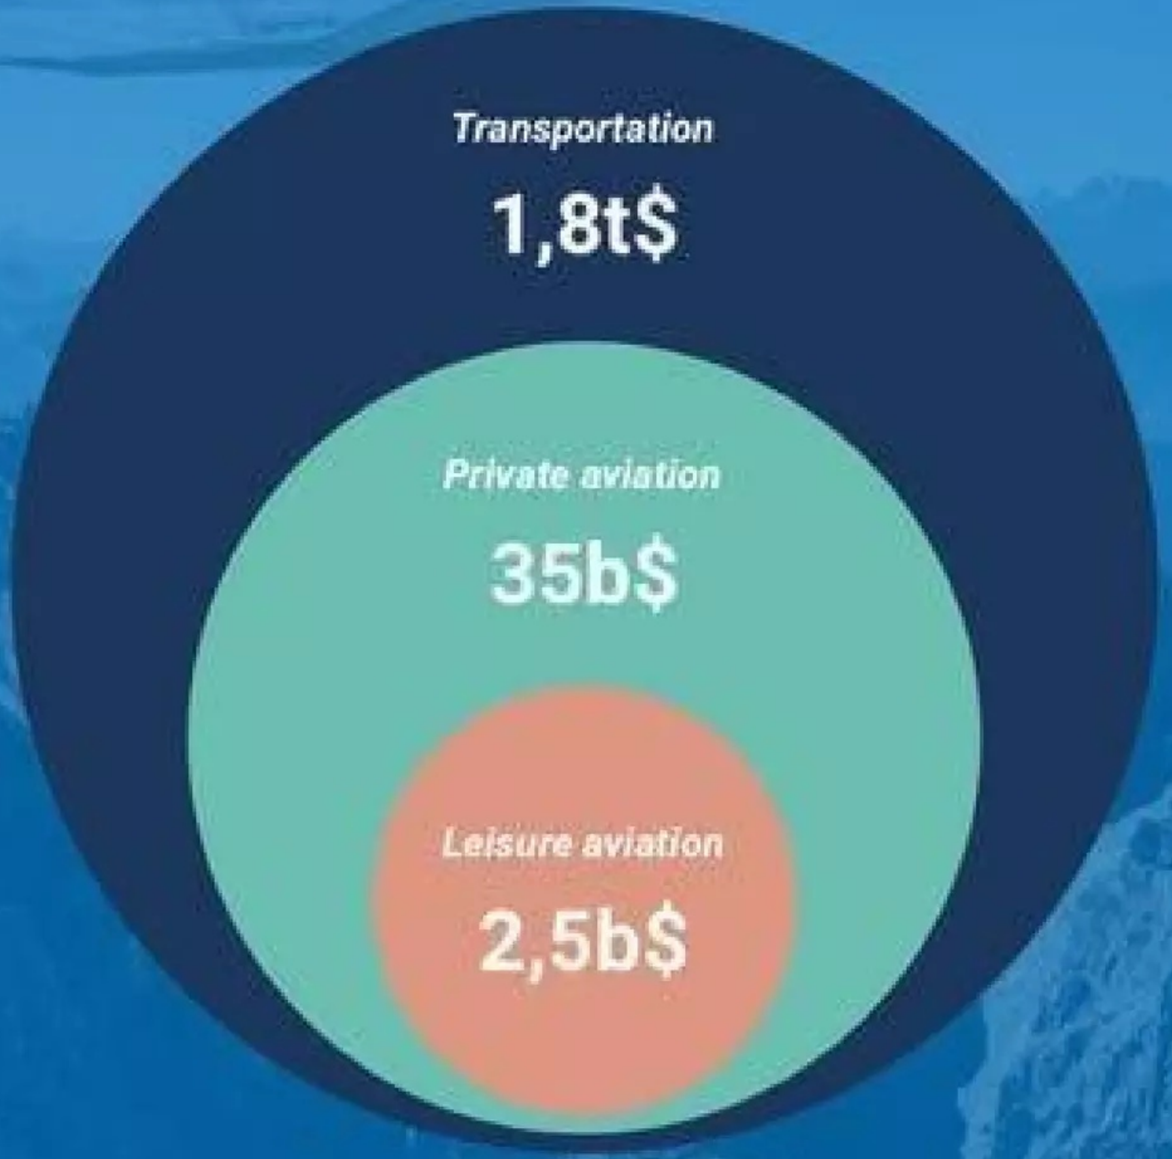

Thibaud Elzière
Founder of Fotolia, eFounders

Stéphane Mayer
CEO of Nexter

Leading the change in a huge market

With a plan in several steps

1

2016 - 2020

THE LEISURE MARKETPLACE

A marketplace connecting pilots and passengers to share the cost of a flight

Cost sharing model

- ✓ Build a trusted company name
- ✓ Educate the market
- ✓ Establish strong bonds with regulators
- ✓ Grow the biggest aviation community

2

2020 - 2022

THE COMMERCIAL MODEL

Get the plane to go wherever you want as easily as ordering a taxi ride

Commercial service

- Be the middle man between all aviation operators and the public
- Optimise all operations in private aviation
- Leverage new technologies

3

2023 - 20XX

Integrate new private aviation suppliers such as EVTOL, Drones...

Over the last 4 years, we have succeeded
in our first step with Private pilots by
becoming the Market leader.

We have:

A community of more than **300,000 members**

Live in **3 countries**

Monthly **GMV of 450k€**

Platform **certified by the EASA**

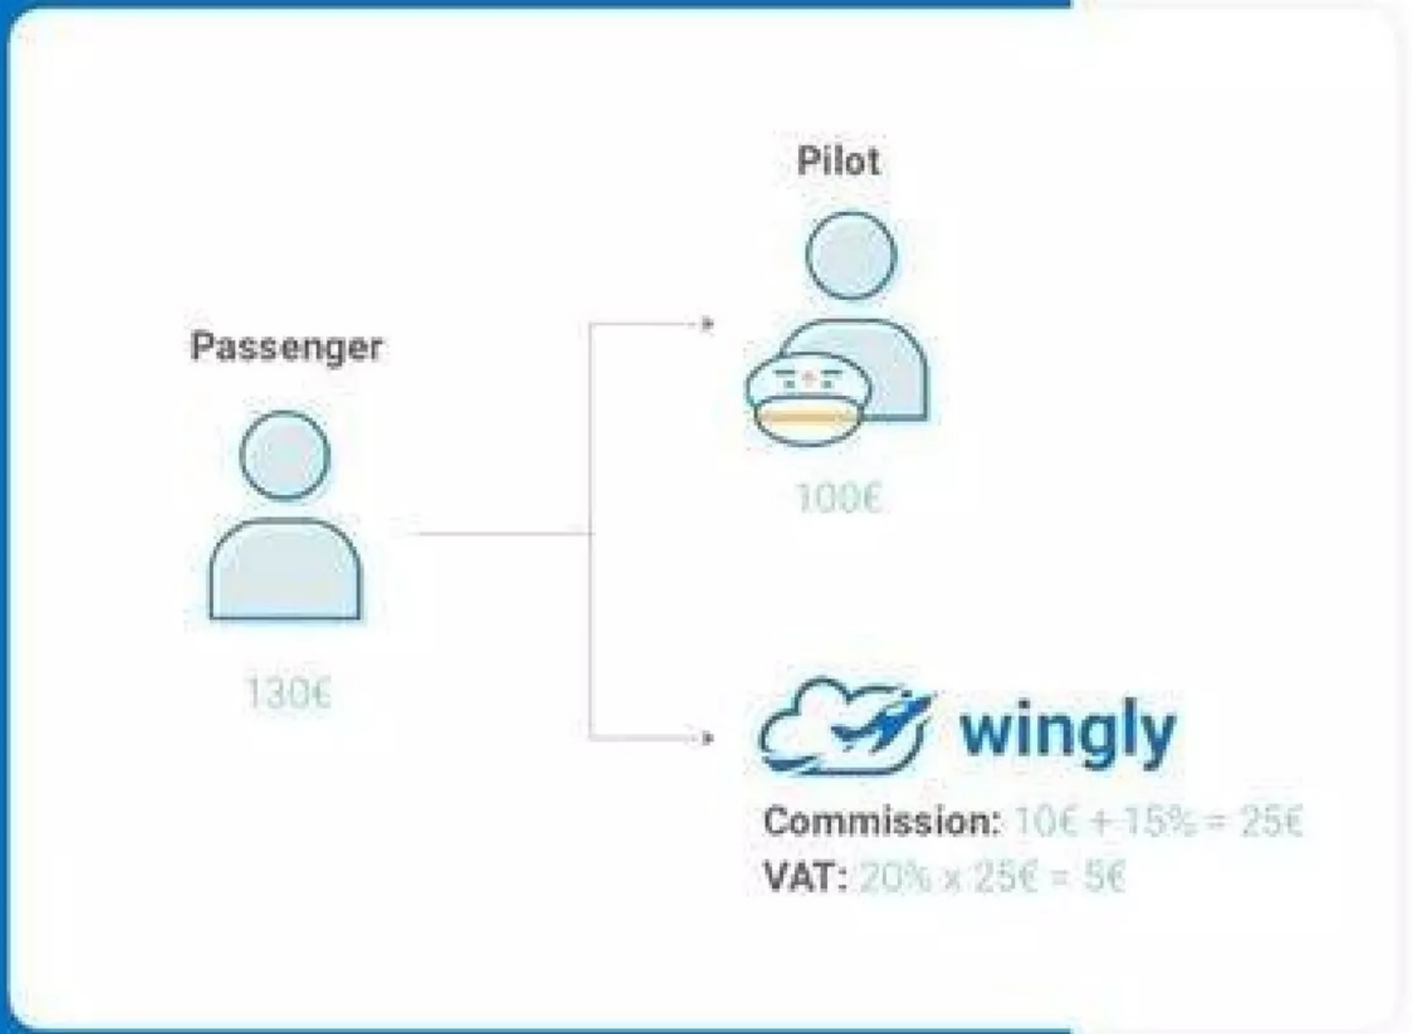

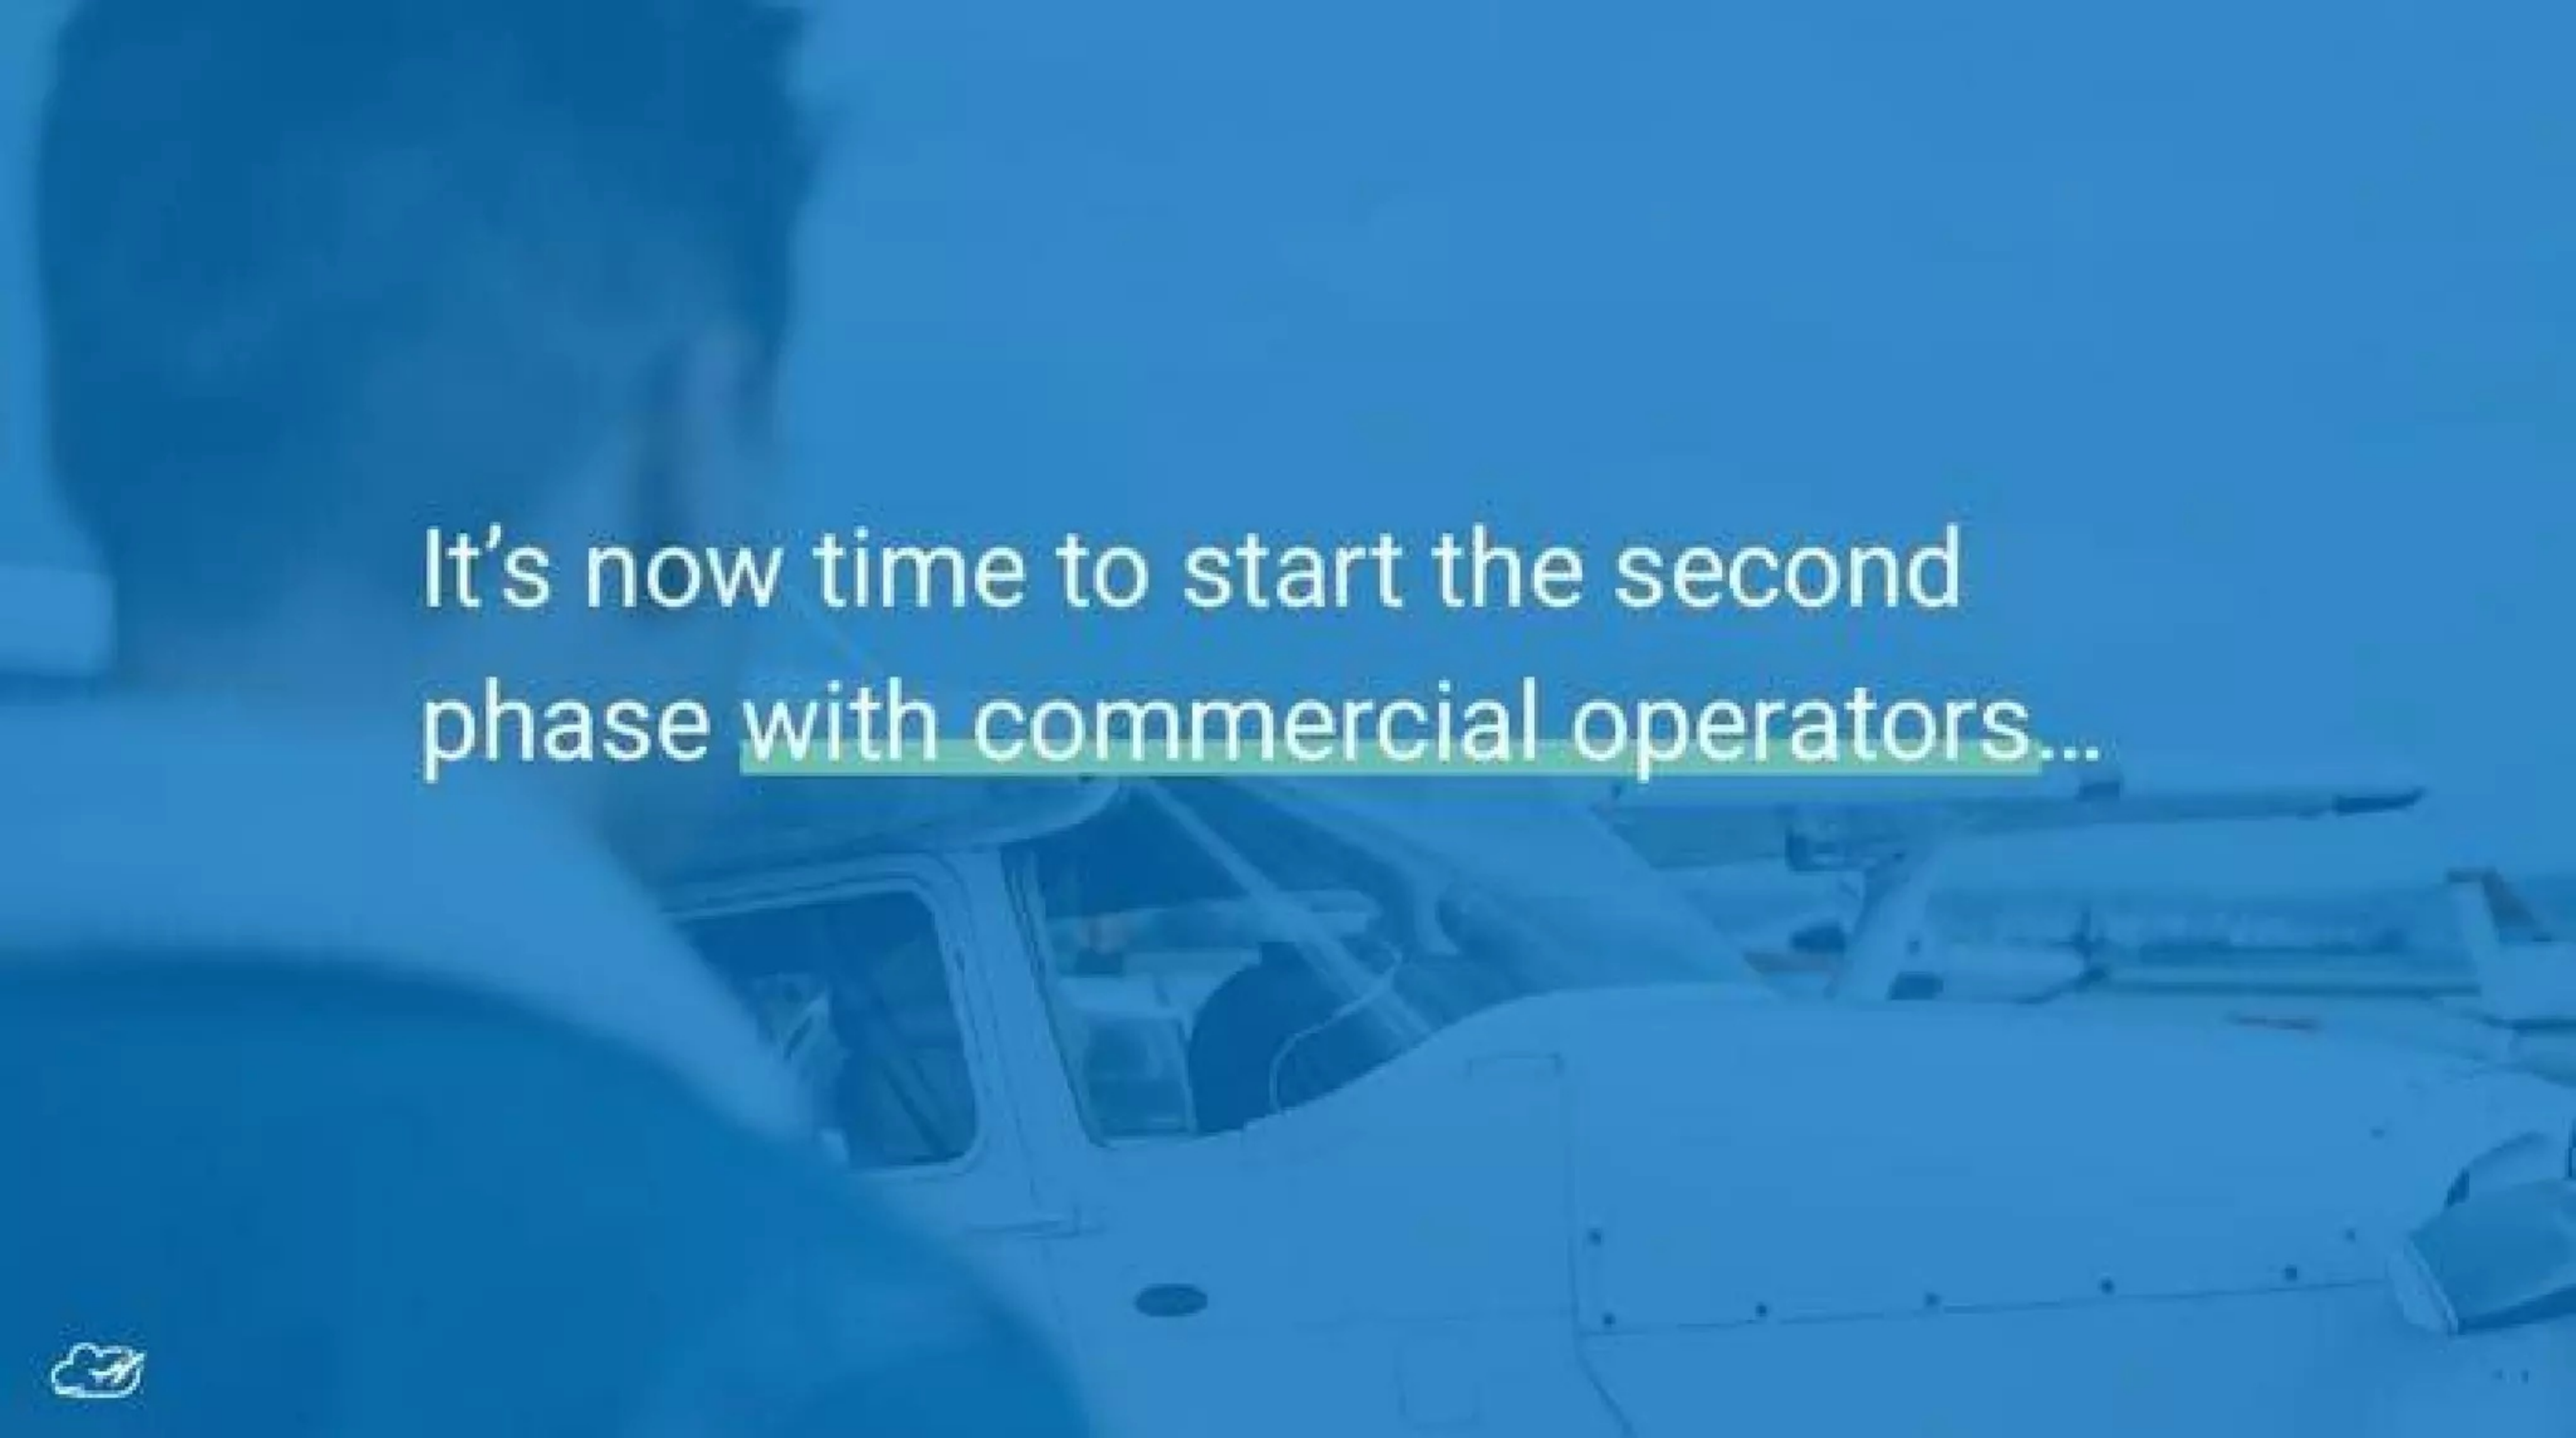

A team of **22 people of 11 nationalities**

Great NPS score of **89 for passengers** & **75 for pilots**

On which we earn profit through commission

It’s now time to start the second
phase with commercial operators...

...and a **€3m round** to develop our new verticals in Europe and accelerate the existing ones.

Use of Proceeds

- Product and engineering investment
- Scale acquisition and expansion in actual markets as well as new ones
- Launch of the transportation model
