SCOODLE

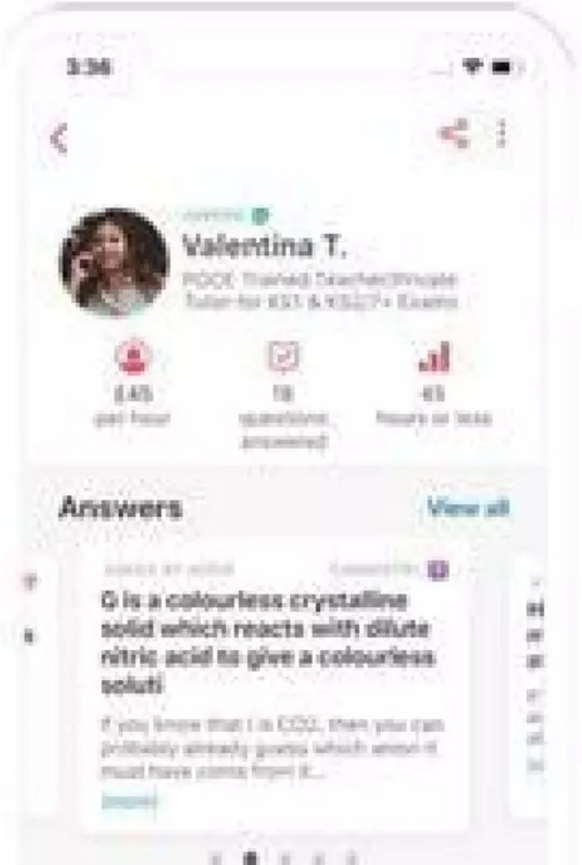

We're building a "twitch for educators"

How it works for educators

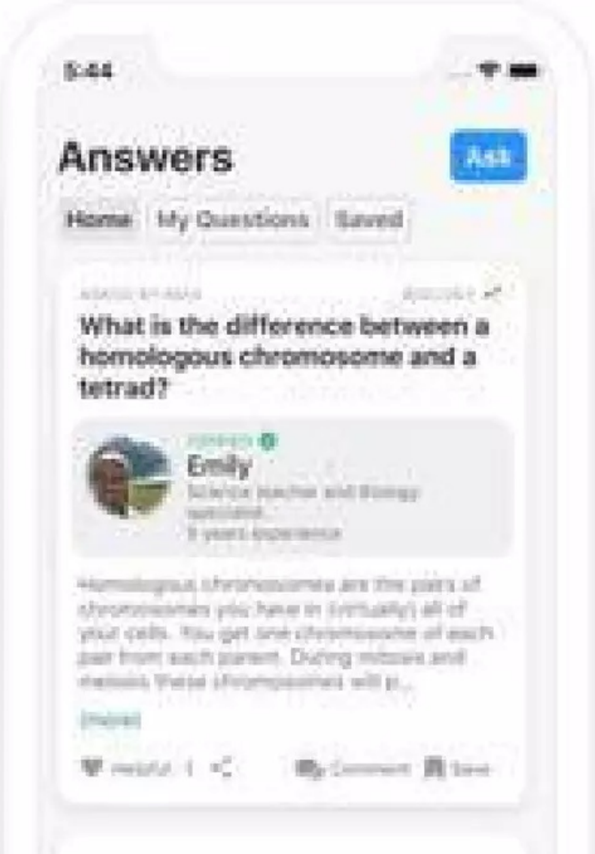

1 Make a profile

Educators share their bio, education history and ID to get verified on Scoodle.

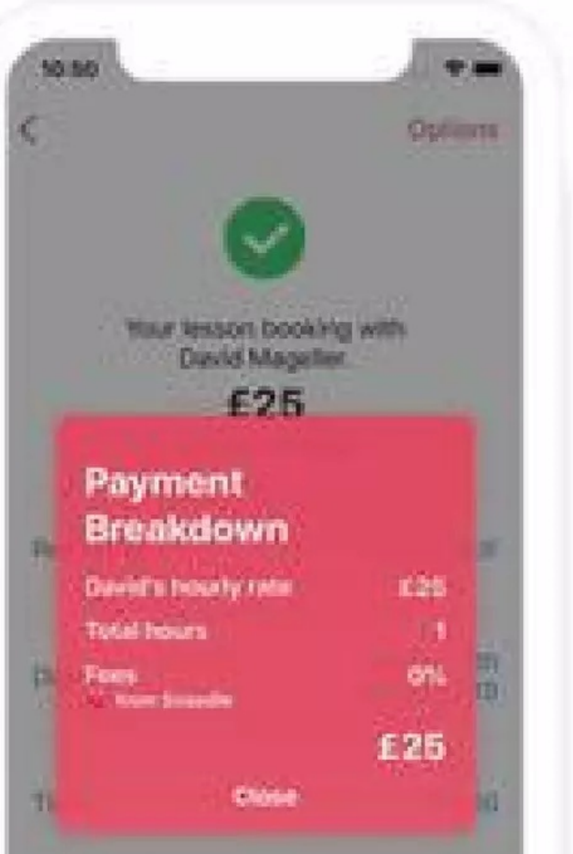

2 Share content

Educators grow their brand by sharing answers, essays and resources. They are discovered by 1000s of students.

3 Make money

Students can then book lessons, with 100% of the earnings going to the Educators. They can also earn royalties with content.

“Everybody has something they want to learn, and something they can teach.” (Reminds me of Jelly so I invested.) Check it out: scoodle.co.uk
9:28 PM - 14 Jan 2019

LinkedIn created a professional identity. Facebook created a social identity.

Scoodle will create the teaching identity.

"Through Scoodle, every teacher will have a brand. Teachers will become the Kim Kardashians of education."

Ismail Jeilani

Cofounder at Scoodle

What makes us different?

0% Commission

Scoodle is the first platform to remove booking fees. If a Educator charges £30 per hour, they keep the full £30. **This means almost zero leakage.**

Profiles

Every educator has a profile that lists their content and performance. We index that data via SEO to increase their discovery.

TeachRank

We're building a multi-component algorithm driven by machine learning to **help students get the right answers & resources quickly.**

Q&A

Educators can answer questions to increase their bookings. **Imagine stack overflow, but being able to hire the developers after getting an answer.**

Why now?

Coronavirus

Online learning has gone from a luxury to a necessity in weeks.

Revenue and MAUs have both increased, with minimal increase in marketing spend.

Falling CPMs

As marketing spend falls globally, Scoodle is well placed to capitalise on falling CPMs across ad networks.

Our CPMs are 3x less, from £1.50 to £0.50.

Hiring

As a growing business in an area that has not been as impacted by Covid-19, top talent is more attracted to Scoodle.

We've confirmed 2 FTE since March 2020, and *we're actively hiring.*

Growth Strategy

Digital Marketing

Student CAC: £0.70 to £0.90
Educator CAC: £2.30 to £3.20
Referral uplift: 20% (every 10 downloads gives us 2 'free' users).

SEO

We index thousands of answers and resources on Scoodle, whilst indexing Educator full names - just like LinkedIn.

Referral Scheme

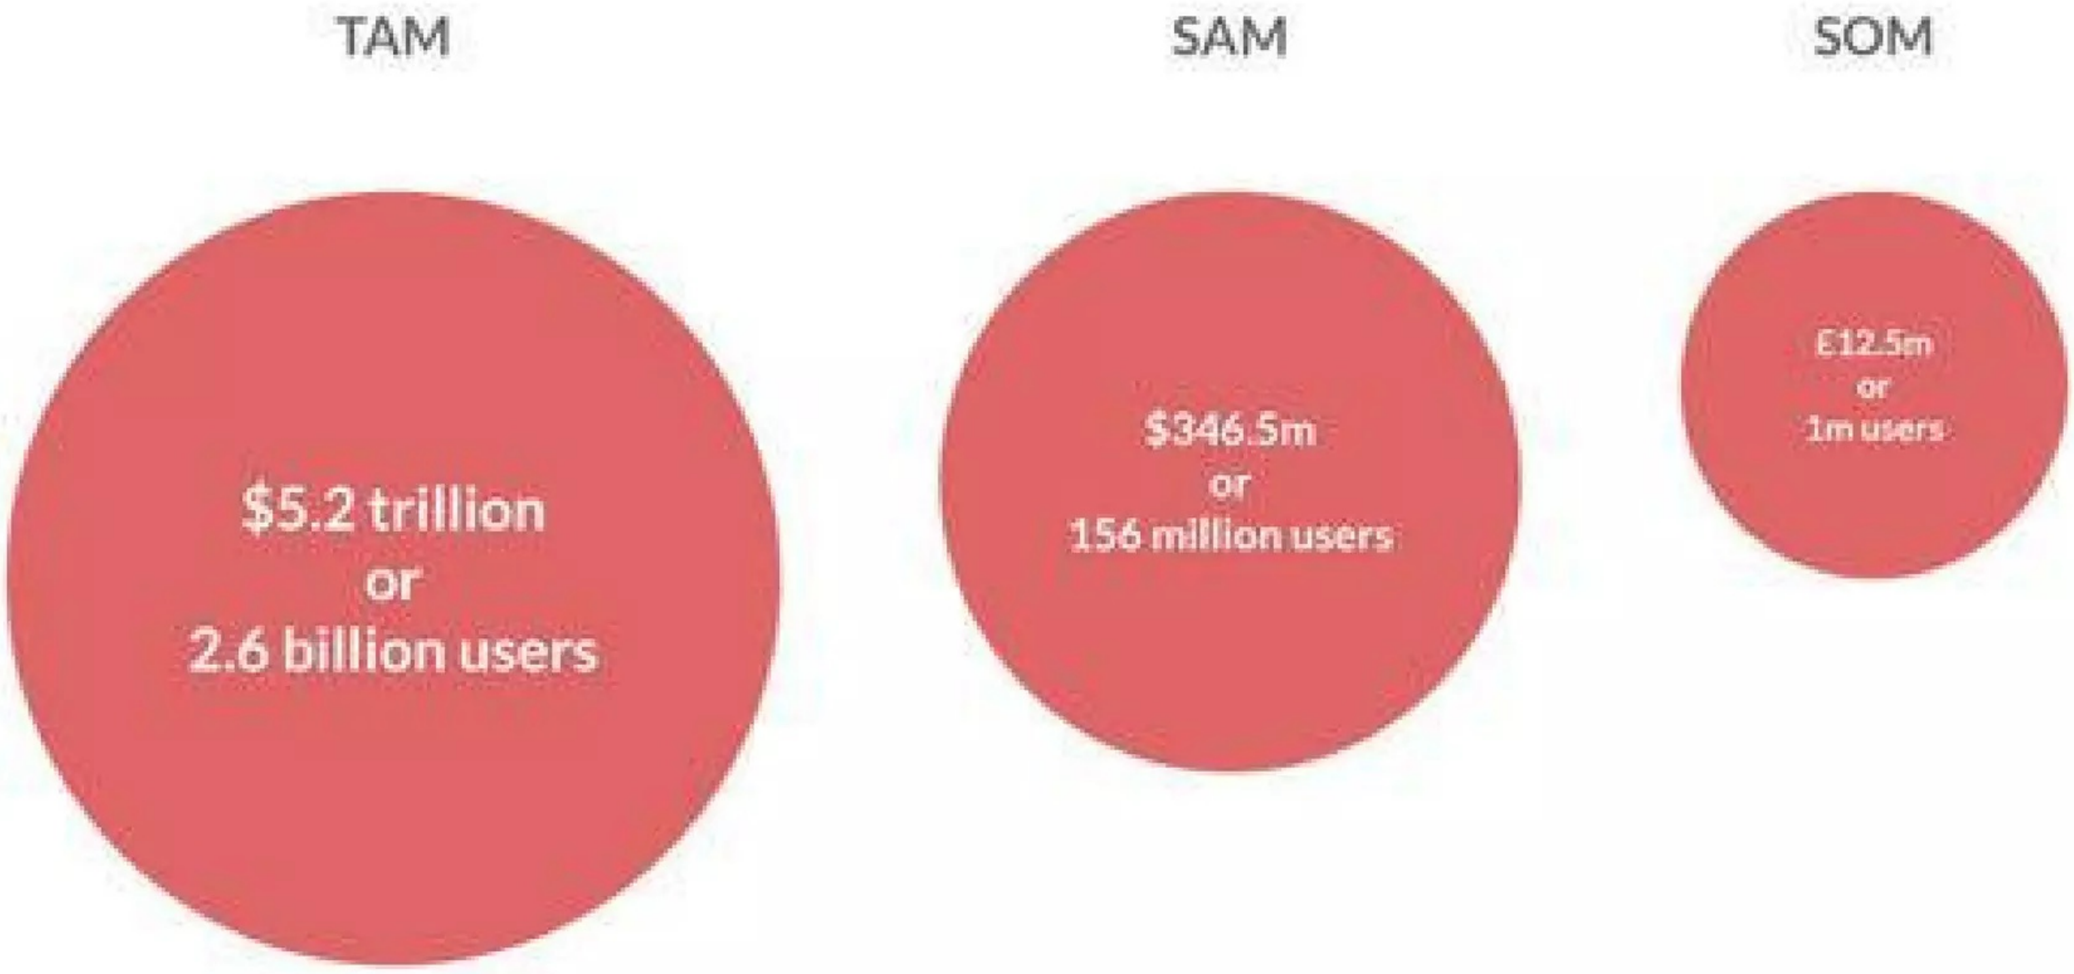

Product driven referral schemes and brand ambassadors at schools and universities.

User Growth
