SUPERCOFFEE SUPER *Creamer* SUPER *espresso*

Founded by three-brothers, each a collegiate student-athlete, when their Youngest Brother, Jordan, was falling asleep in class after 5am basketball practice.

Tired of unhealthy drinks, he wanted more from his day.

Crafted out of necessity, KITU Life is for those who refuse to settle for mainstream coffees and energy drinks loaded with sugar.

Our initial product line is better-for-you bottled coffees, with other product like Super Creamer and Super Espresso hitting shelves in 2019.

Originally created by tired college students for tired college students, KITU Life built its consumer following by targeting sales on college and corporate campuses.
