# Customer reviews

Excellent service, and really lovely people. Completely understanding of small or start up businesses, and a willingness/ability to be flexible. I'm very happy.

Excellent value at an affordable monthly cost. I have not needed use the services. But it's good to know I have the insurance there to allow me to get on with my work.

Flexible, simple, easy, immediate. As a busy freelancer I need flexibility to potentially change the policy month by month - very handy and a feature I didn't find with other providers.
