SYMEND: THE SCIENCE OF ENGAGEMENT ™

Using behavioral science and data-driven insights to empower customers to resolve past due bills before they reach collections

FEBRUARY 2021

After all the behavioral science,
predictive analytics and AI, you'll be equipped
with a very powerful solution:
empathy.
SYMEND
The science of engagement™

SYMEND

The science of engagement™

sym·met·ri·cal

refers to a sense of harmonious and beautiful proportion and balance

mend·ing

to improve or strengthen something, such as a relationship

What We Do

Symend's digital engagement platform uses behavioral science and data-driven insights to empower customers to resolve past due bills.

Why It Matters

Symend reduces write-offs, lowers OPEX, improves customer retention and strengthens recession response capabilities.

The Bottom Line

Symend generates a 5x to 15x in-year ROI for its large enterprise clients.

A TEAM BUILT TO SUCCEED

THE PROBLEM

CURRENT COLLECTION PROCESS

SYMEND

"One Size Fits All"

Days					
1-30	31 - 60	61 - 90	91 - 120	121 - 180	> 180
Voicemail & Message on Statement	Voicemails & Form Letter A	Voicemails & Form Letter B	Form Letters C, D, E	Third Party Consignment	Account Charged Off
Internal (1st Party)				3rd Party (Collection Agencies)	

Limitations:

- Little-to-no digital outreach
- Limited Segmentation (High risk, med. risk, low risk)
- Bulk scorings systems
- Static data warehousing

COLLECTIONS NEEDS TO EVOLVE

SYMEND

EVERY CUSTOMER IS UNIQUE

Loyal customer with good payment history forgets to make a payment

Customer who occasionally gets behind on bills, but is quick on payments

Customer with high-levels of debt and poor payment history

Customer struggling to make ends meet and a high risk of bankruptcy

EVERY CUSTOMER RECEIVES THE SAME OUTREACHES AND TREATMENT PLAN

STANDARD MESSAGES LEAD TO DISENGAGED AND DISSATISFIED CUSTOMERS

Methods using risk-based segmentation and generic outreach disregard the unique needs of the customer
