IDENTITY-BASED PRODUCT DISCOVERY

April 2021

GIST

The next revolution in consumer commerce is emerging

DIGITALIZATION → SOCIALIZATION

RETAIL

- ⊕ Shared experience
- ⊕ Tangible products
- ⊕ Multi-sensory inputs
- ⊖ Higher friction
- ⊖ Location-based
- ⊖ Inventory risks

ECOMMERCE

- ⊕ Fast
- ⊕ Convenient
- ⊕ Larger inventory
- ⊖ Solo experience
- ⊖ Limited evaluatory inputs
- ⊖ Limited discovery

SOCIAL COMMERCE

The shared experience and trust of retail

The speed and convenience of ecommerce

WE BELIEVE IDENTITY
IS THE NEXT DRIVER
OF COMMERCE

Increased importance of trusted and relevant reviews

3.

Highly fractured market with verticalized ecosystems

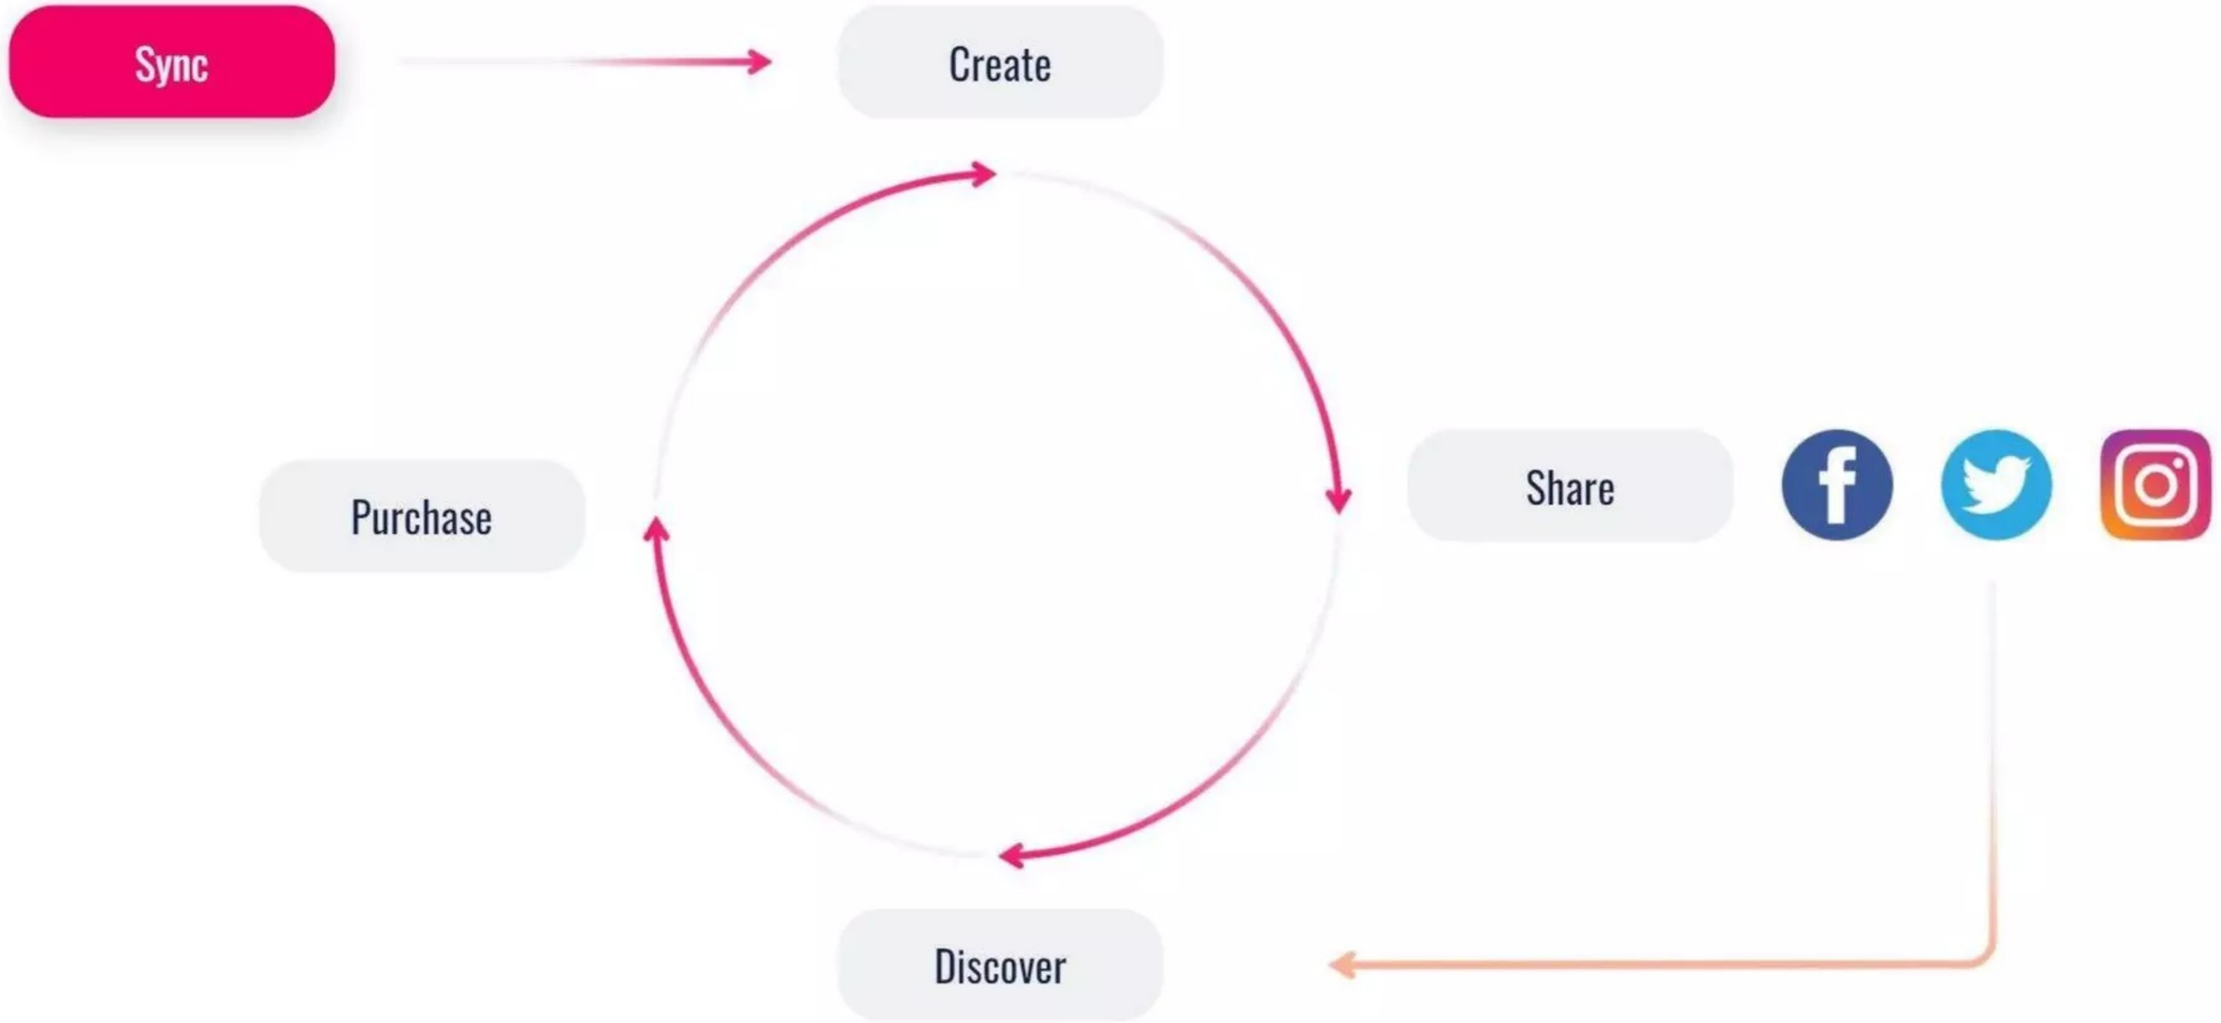

Increased need for horizontal product discovery

WE'VE IDENTIFIED

WHY PEOPLE LOVE GIST

GIST

Creating a natural flywheel

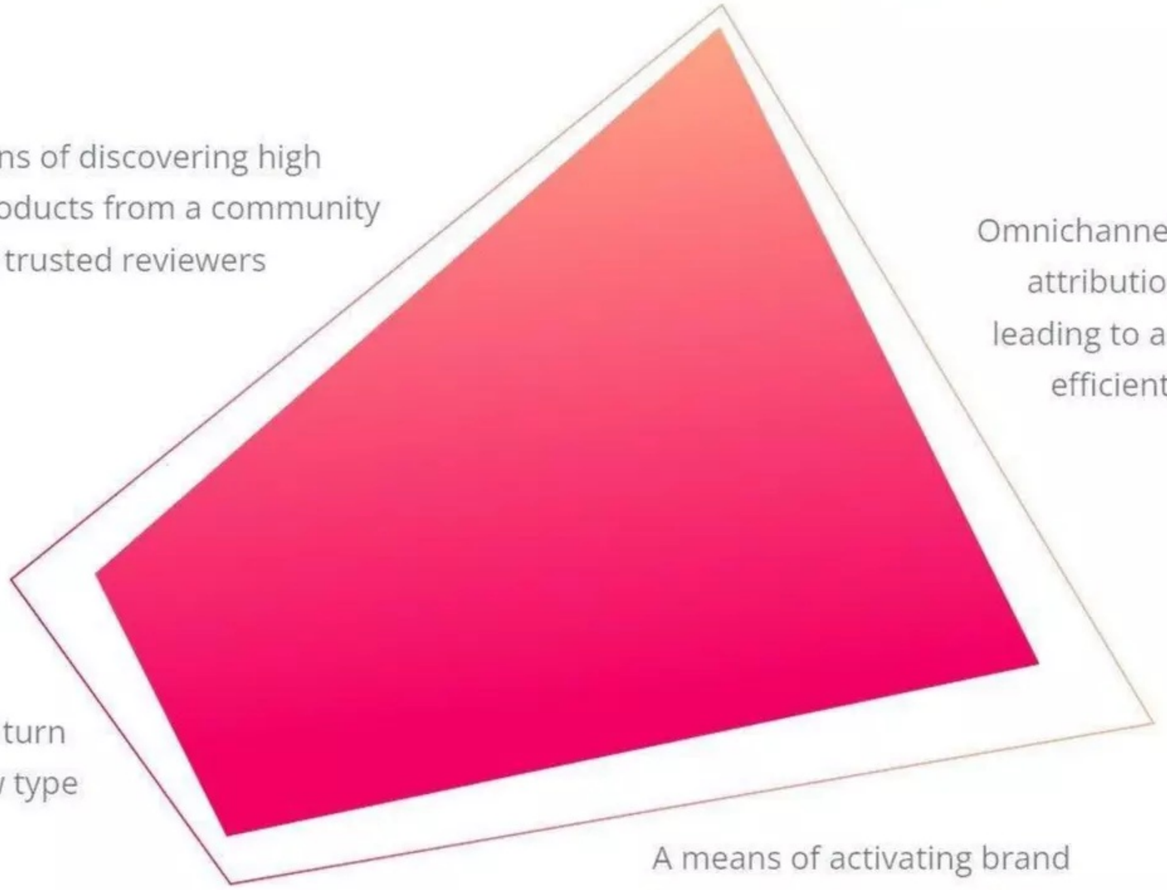

Symbiotic value propositions

CONSUMPTION

A means of discovering high quality products from a community of trusted reviewers

Omnichannel purchasing data with attribution like never before leading to a lower CAC and more efficient marketing spend

USERS

A platform and toolkit that turn existing behavior into a new type of content creation

BRANDS

A means of activating brand champions and reaching high-intent purchasers like never before

CREATION

Go-to-market and user acquisition

Users' social media channels

GIST enables users to share a new type of content across their social media accounts.

This kind of off-platform distribution builds brand awareness and brings new users onto the GIST platform.

D2C brand partnership

Brands are happy to share their user lists with GIST as it provides new amplification and insight opportunities.

These collaborations help bring existing brand evangelists to the GIST platform.
