Hey Jane

Abortion on your own terms

HeyJane

2022

1 in 4 women will have an abortion, but getting care is incomparably difficult

Extreme barriers

90% of counties don't have a clinic

Unparalleled stigma

84% of clinics report harassment

Limited support

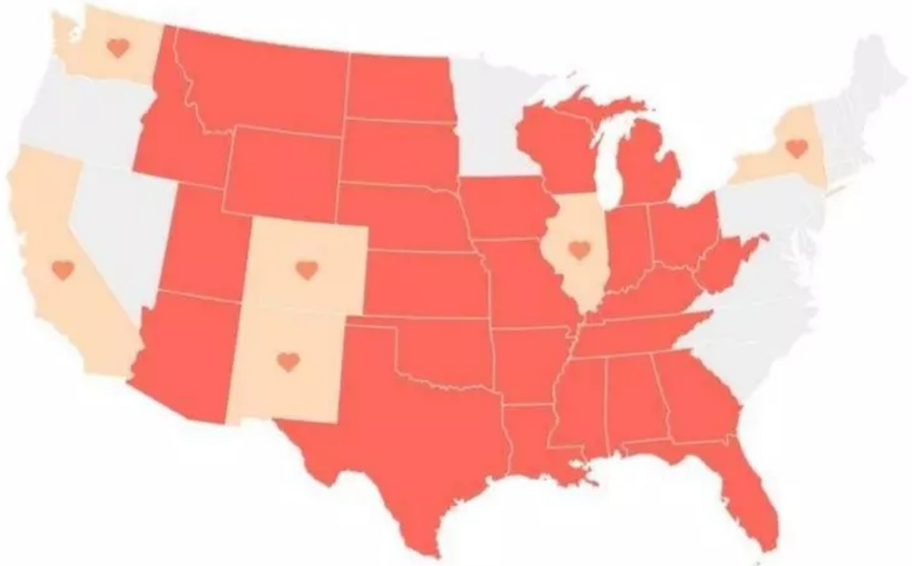

⅔ of women wouldn't talk to closest friends

*Many people who don't identify as women have abortions too. Hey Jane provides quality care across the gender spectrum.

With Roe v Wade under threat this year, the already dire state of access will likely worsen dramatically

If the U.S. Supreme Court overturns or guts Roe v. Wade, 26 states are certain or likely to ban abortion

May ban abortion

Hey Jane providing care

Widespread bans

26 states are certain or likely to ban abortion completely if Roe is overturned

Longer travel distances

Millions of people will now need to travel across state lines for abortion care

Strained clinic capacity

Clinics in “friendly states” will see demand increase up to 3000% from cross-state patients

But there is a bright spot: Due to recent regulatory shifts, telemedicine abortion is now legal in most states

"F.D.A. Will Permanently Allow Abortion Pills by Mail"

The New York Times

"Majority of US abortion in 2020 were medication abortions, analysis finds"

The Guardian

"A safe and simple abortion option becomes more readily available"

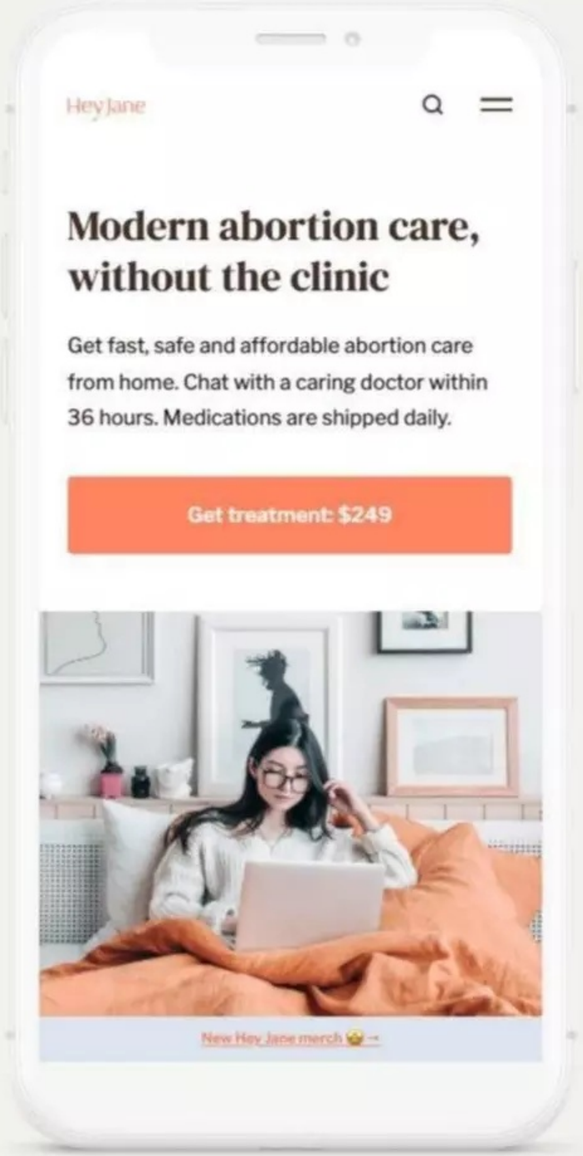

The Economist

Hey Jane is complete abortion care, without the clinic

Innovative access through telemedicine + FDA-approved "abortion pills"

- Mifepristone **FDA-approved since** 2000
- **FDA-approved for telemedicine since** 2021
- **98% effective at** ending unintended pregnancies up to 10 weeks (~85% total volume)
- **Extremely safe**, with a lower adverse reaction rate (0.1%) than Tylenol

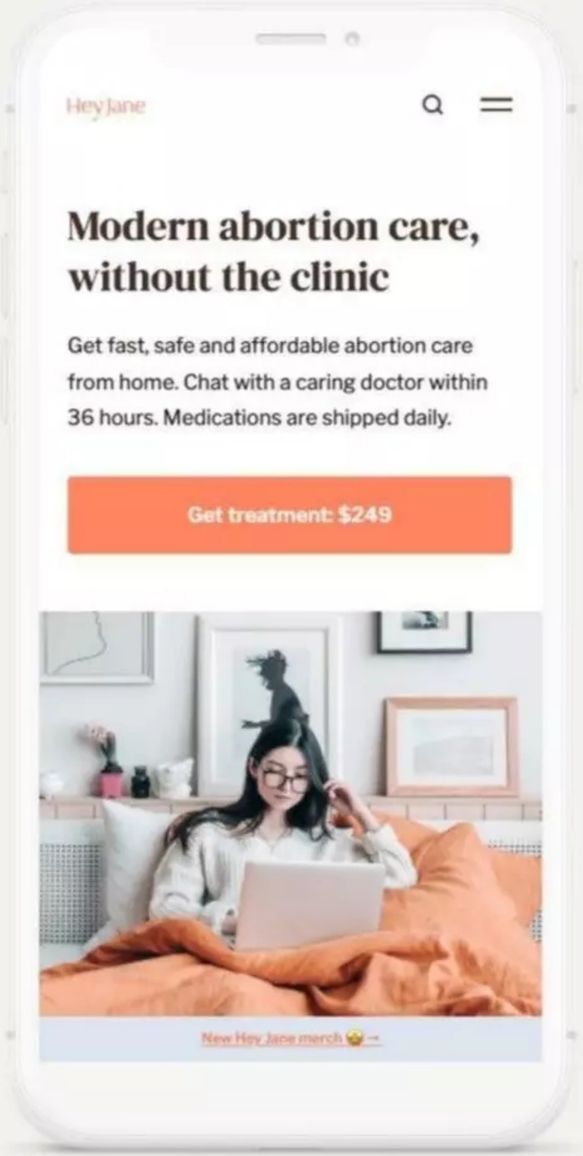

How Hey Jane works

1 Consult
Answer a few questions to confirm medical eligibility with an experienced clinician

2 Care at home
FDA-approved meds, mailed overnight in discreet packaging

3 Connect
On-demand clinical and emotional support from our team + access to private online community

What makes Hey Jane unique

- Undergo treatment wherever you feel most comfortable (supports cross-state care)
- Take medication when it works for you, not during a scheduled appointment
- 24/7 support
- First private online community for verified abortion patients

Our Complete Care model allows us to offer exceptional support

Physical

Convenient and discreet virtual consults with our caring clinical team

Emotional

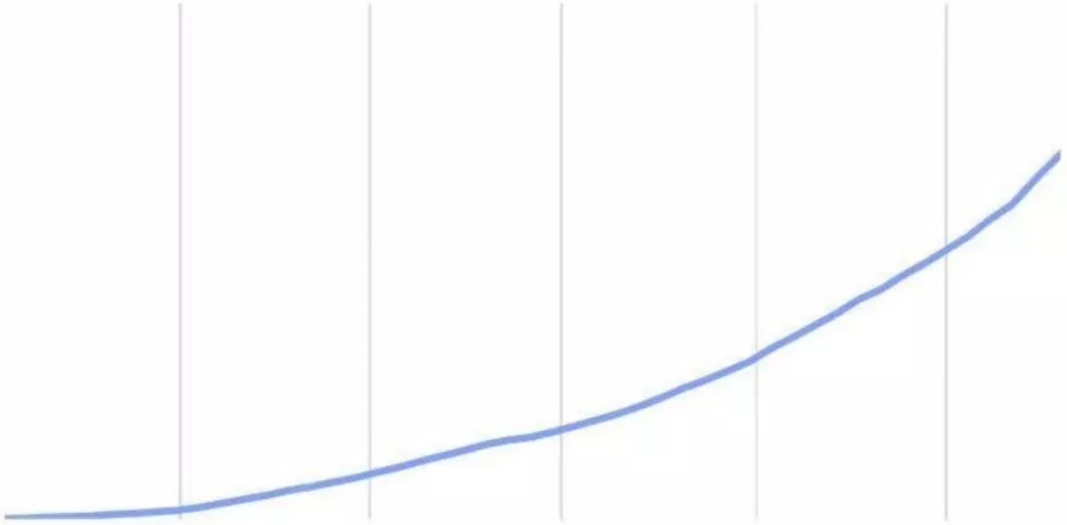

Access to trained, empathetic counselors

Social

Connection to online community of peers going through same experiences, in real time

Since launching in January 2021, we've grown quickly and earned strong trust from our patients

Hey Jane, in our own patients' words

"I came into Hey Jane just expecting to order a pill, but my experience was so much more than a purchase."

"This service is literally life-changing. I was super-stressed and had no idea what to do since I work full-time—I don't have time to see a doctor in-person. So much weight has been lifted off my shoulders."

"Abortion is not an easy thing to talk about, even with friends and family, and it was really nice to have the Hey Jane people there for me. I felt no judgment or fear of sharing even really intimate info. "

"I just want to say 'thank you' for your wonderful support and access to great healthcare. Everything went beyond smoothly."

We'll soon expand our Complete Care model into other underserved treatments

$1.4 trillion

Women's healthcare spend

$8b *Abortion + birth control*	$7.5b 🔒	$150b 🔒
$7b 🔒	$4b 🔒	$10b 🔒
