HIVEBUY

The ease of spending

Hivebuy creates efficiency and ongoing transparency for all order processes and associated costs

Indirect procurement accounts for 10-28% of company revenue.

This impact is often missed, mainly due to one reason:

The expenses are hardly monitored.

STATUS QUO

How do SMEs do indirect procurement today?

-Hardware -Software -Office supplies -Trainings -Subscriptions -Consultancy & other services...

INTRANSPARENT

NO PROCESS

EXPENSIVE

APPROVALS TAKE TOO LONG

NO NEGOTIATION POSSIBILITIES

NO BUDGET MONITORING

INVOICE CHECK IS A NIGHTMARE

INEFFECTIVE

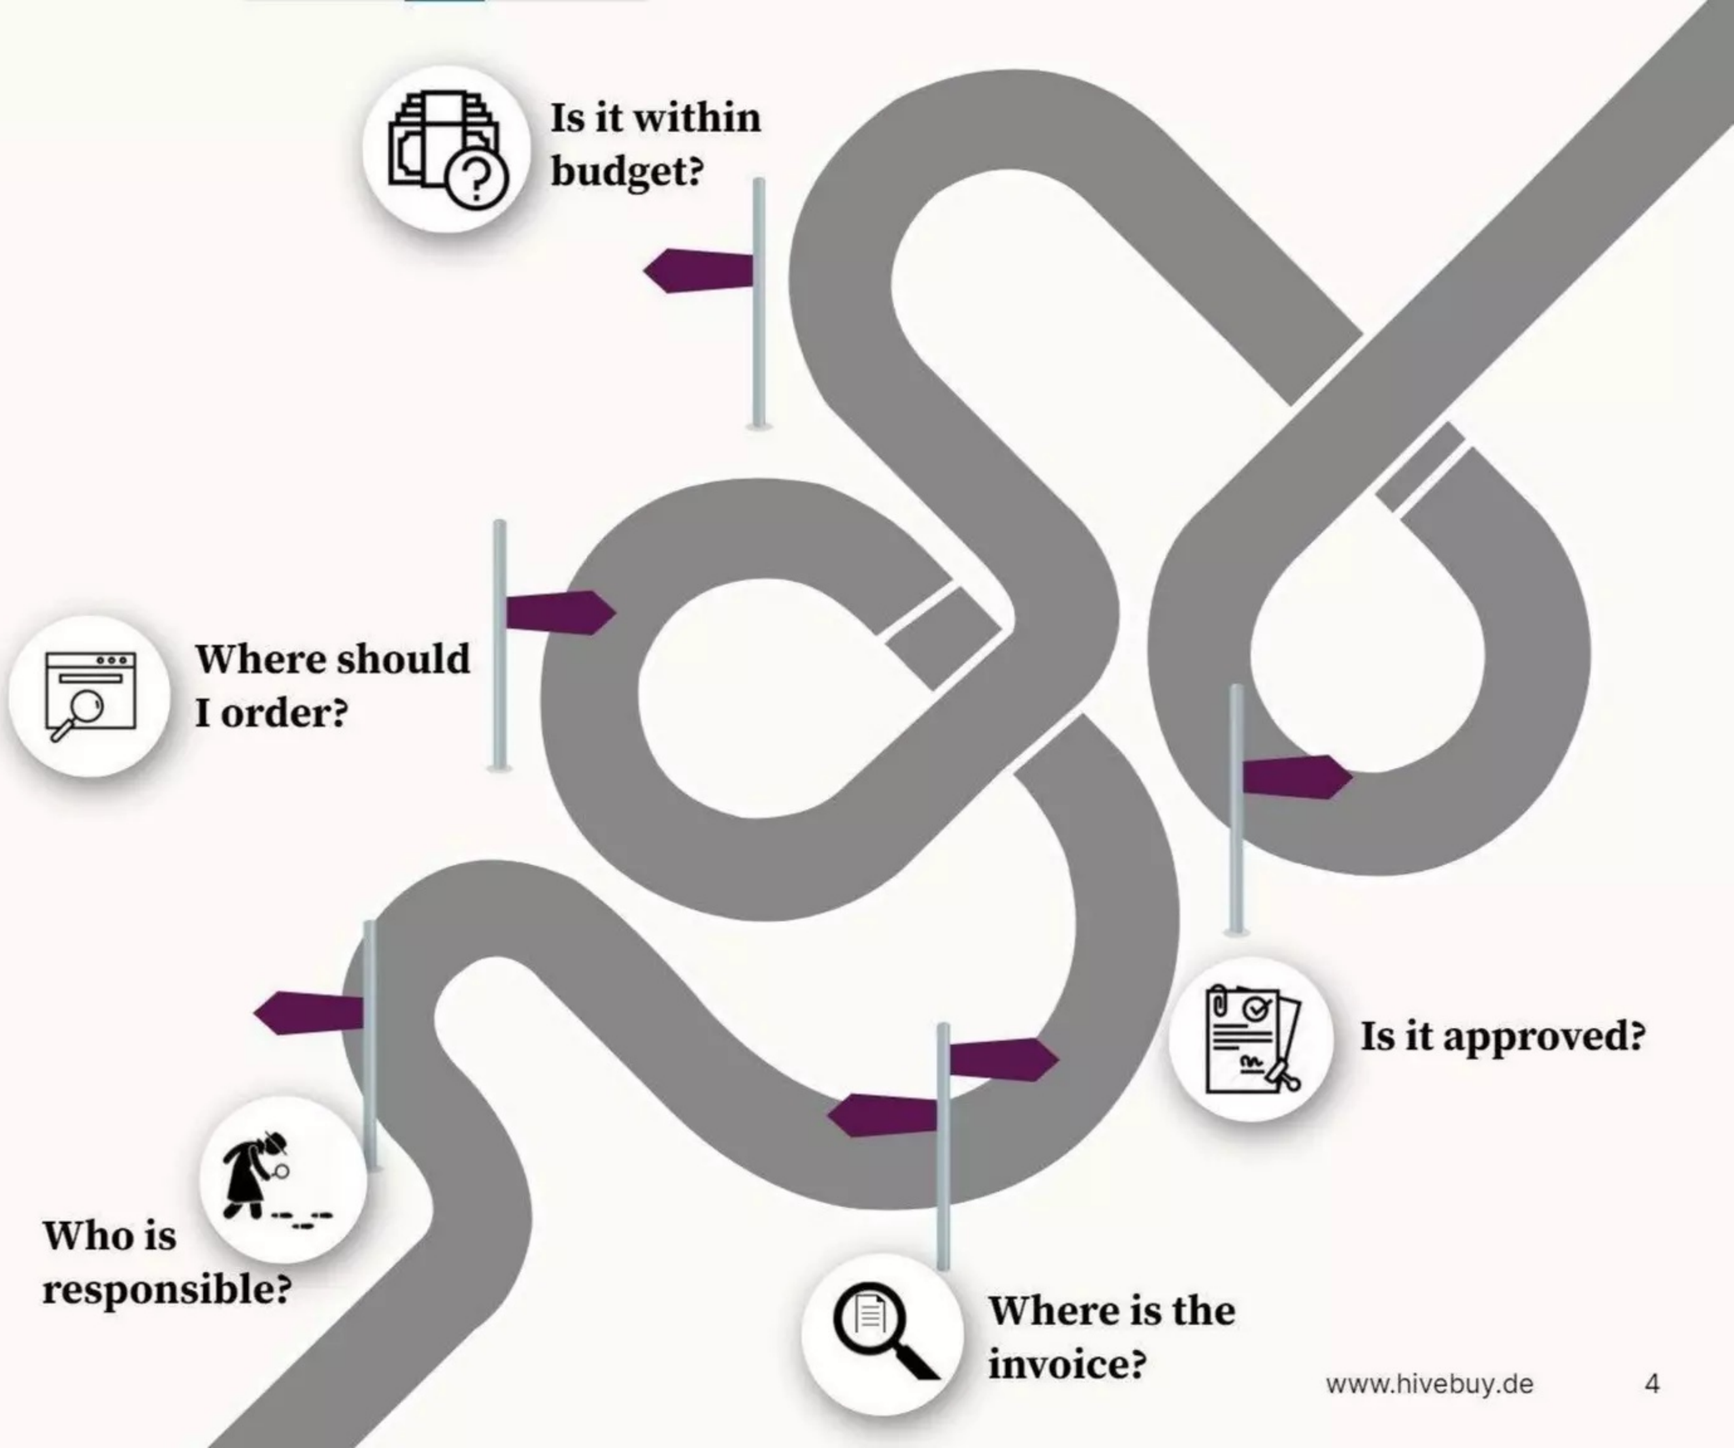

LACK OF COMPLIANCE

NO SUPPLIER CONTRACT MONITORING

LONG TIME DEDICATED TO JUST LOOK FOR INVOICES

There is no really transparent & ideal solution made for and with SMEs

"Until now..."

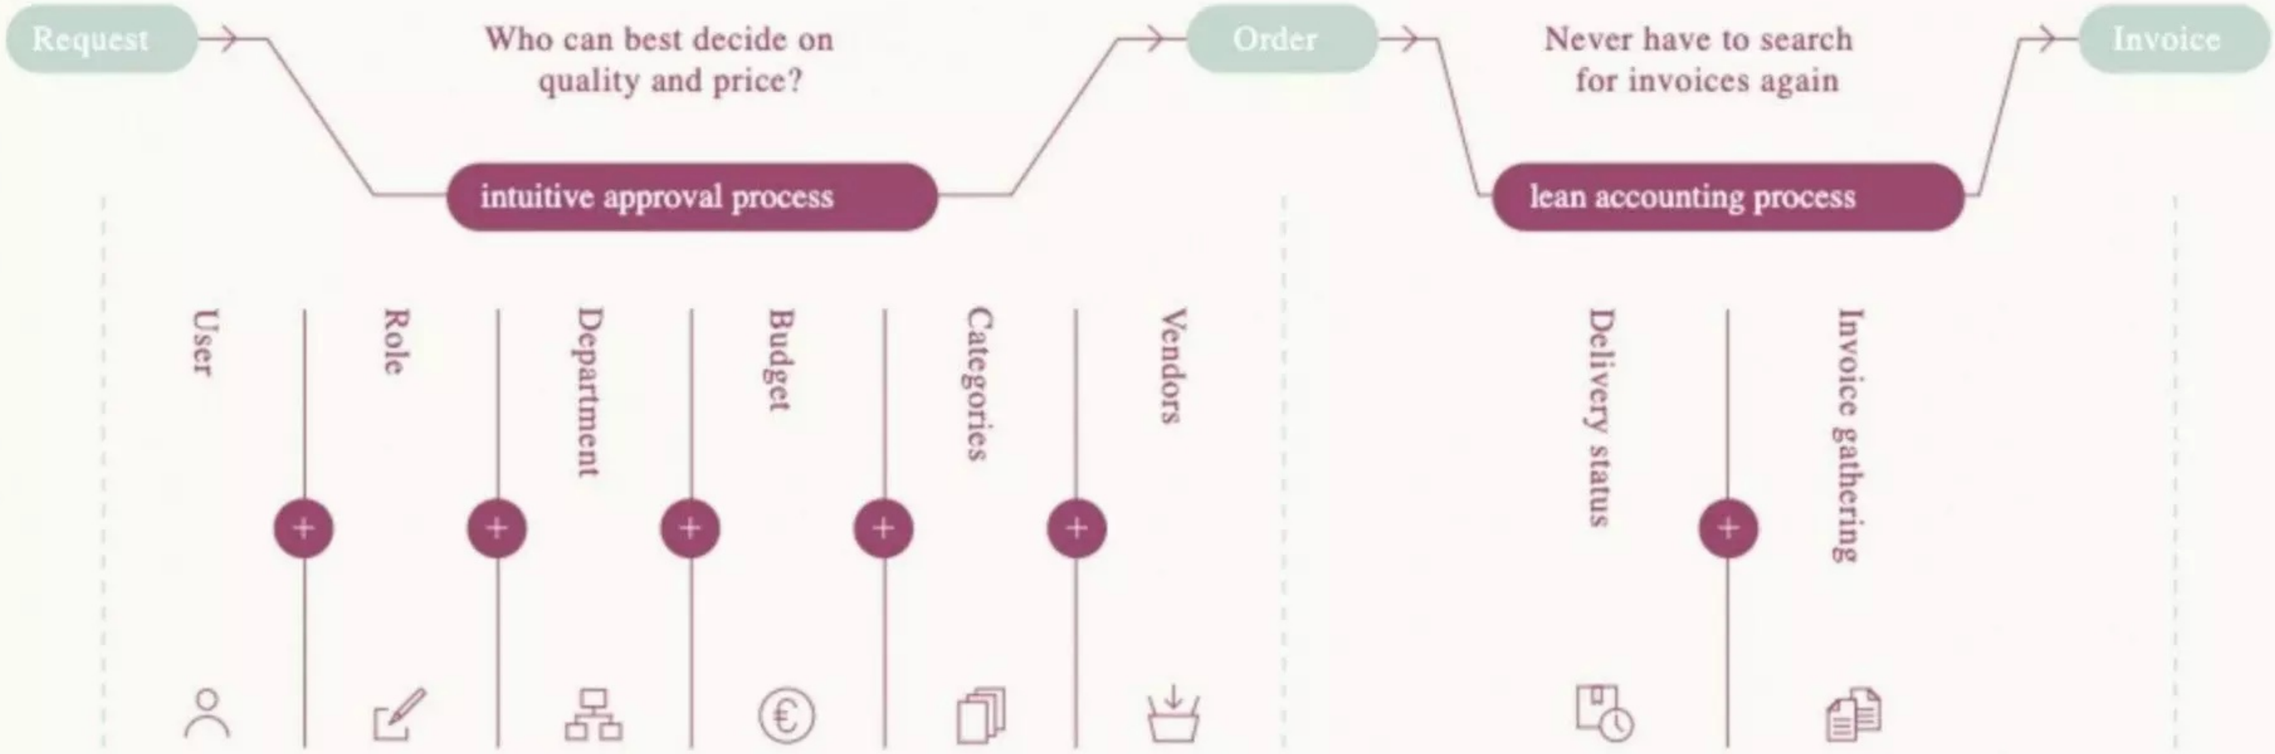

SOLUTION

Digitize all your indirect procurement processes with an intuitive solution made for SMEs. With Hivebuy.

- ✓ Easy approval processes for indirect procurement (software, hardware, services, trainings, subscriptions...)
- ✓ Reduce the amount of tools
- ✓ Budgets always under control
- ✓ Monitor & structure expenses and open invoices
- ✓ Import & match invoices to your accounting system automatically

✓ Save time & money

Hivebuy orchestrates ordering processes from purchase decision to invoice

HOW IT WORKS

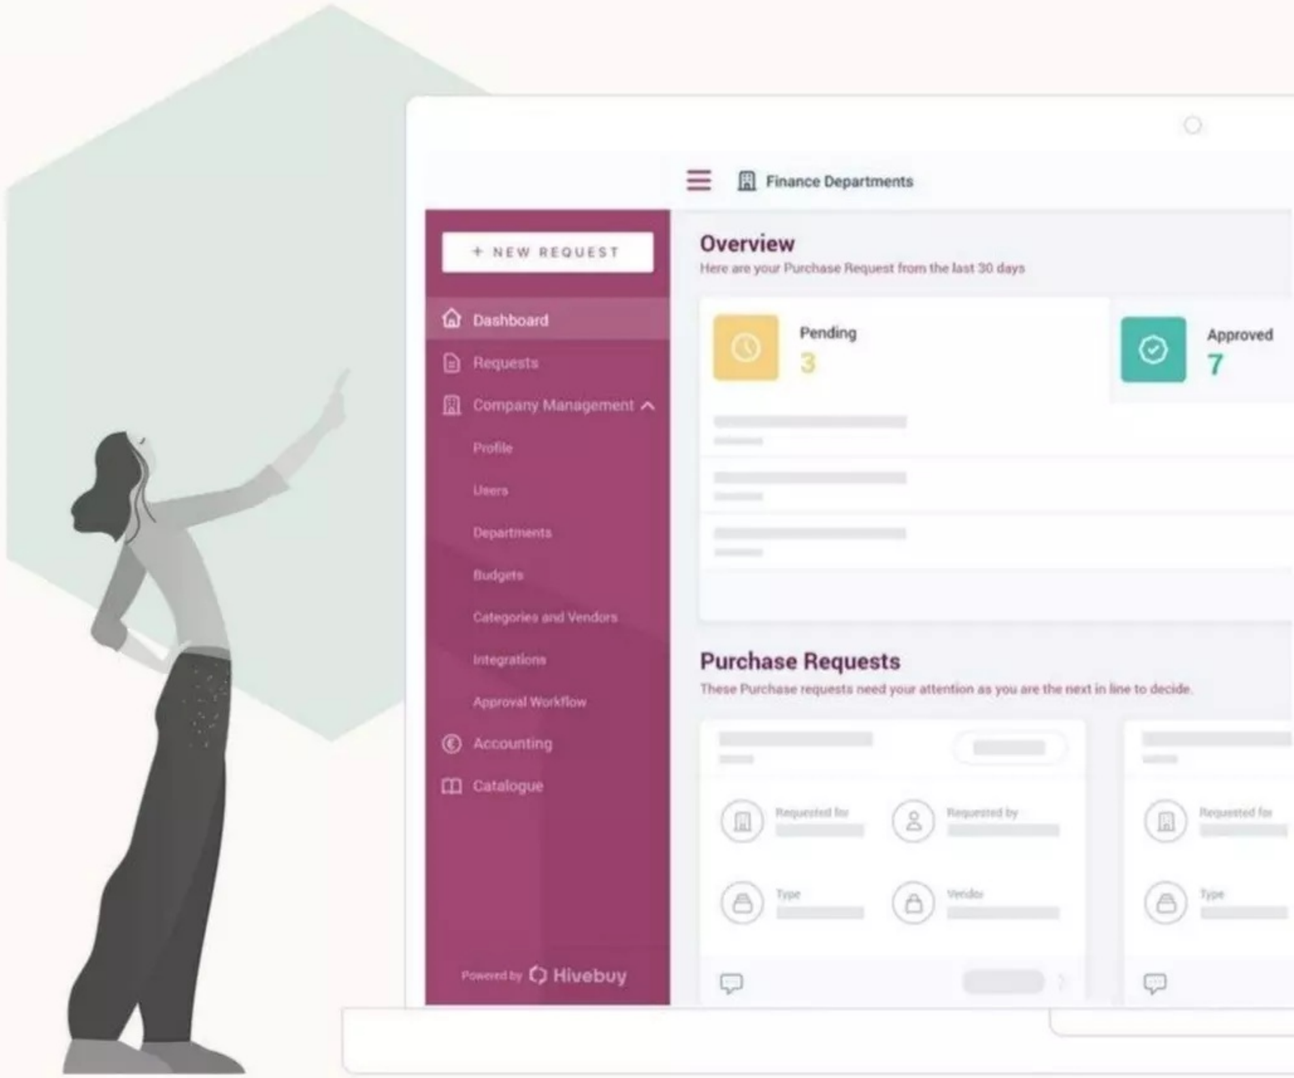

Easy, intuitive and transparent

Uncomplicated and fast setup of the approval process

Teams and role assignments enable rapid buy-in across all departments

Huge time and cost savings through transparency and clear communication channels

Sounds good? The best thing is to request the free demo access today, we will advise you without obligation!

By digitalising existing internal decision processes and integrating all stakeholders, existing merchants, and current communication channels, Hivebuy creates efficiency and ongoing transparency for all order processes and associated costs without requiring a long setup process.
