Why is this Needed?

40% of the LGBTQ+ community has
had a negative experience

This results in greater care avoidance.
3 – 4x higher than non-LGBTQ+ patients

LGBTQ+ members are ***already at risk***
for a range of health issues

Bottom Line: ***People*** are not getting the care they need

Member Testimonials

IH Member, Northeast

"Thank you so much! You have been such a help in all this, and it is genuinely life changing."

"It's amazingly hard sometimes to find doctors and staff that are inclusive and have knowledge on the subject. I've spent hours and days before searching for new doctors, and you made everything incredibly easy. Thank you so much!"

IH Member, Southwest

IH Member, South

"I've never felt comfortable sharing my sexual orientation with my doctor out of fear of discrimination, now I can comfortably do that, because you found me an OBGYN I know will treat me with dignity and respect. Thank you!"

Preliminary Survey Results

Requests from Respondents:

"It would be nice to be able to ask questions about your health online, it can be easier to bring up a health issue when you **don't think you will be judged.**"

"We need assistance with Rx Coverage. **Is there an LGBTQ advocate** internally we may confide in for assistance when having issues with insurance? **I can't bring this up with my manager.**"

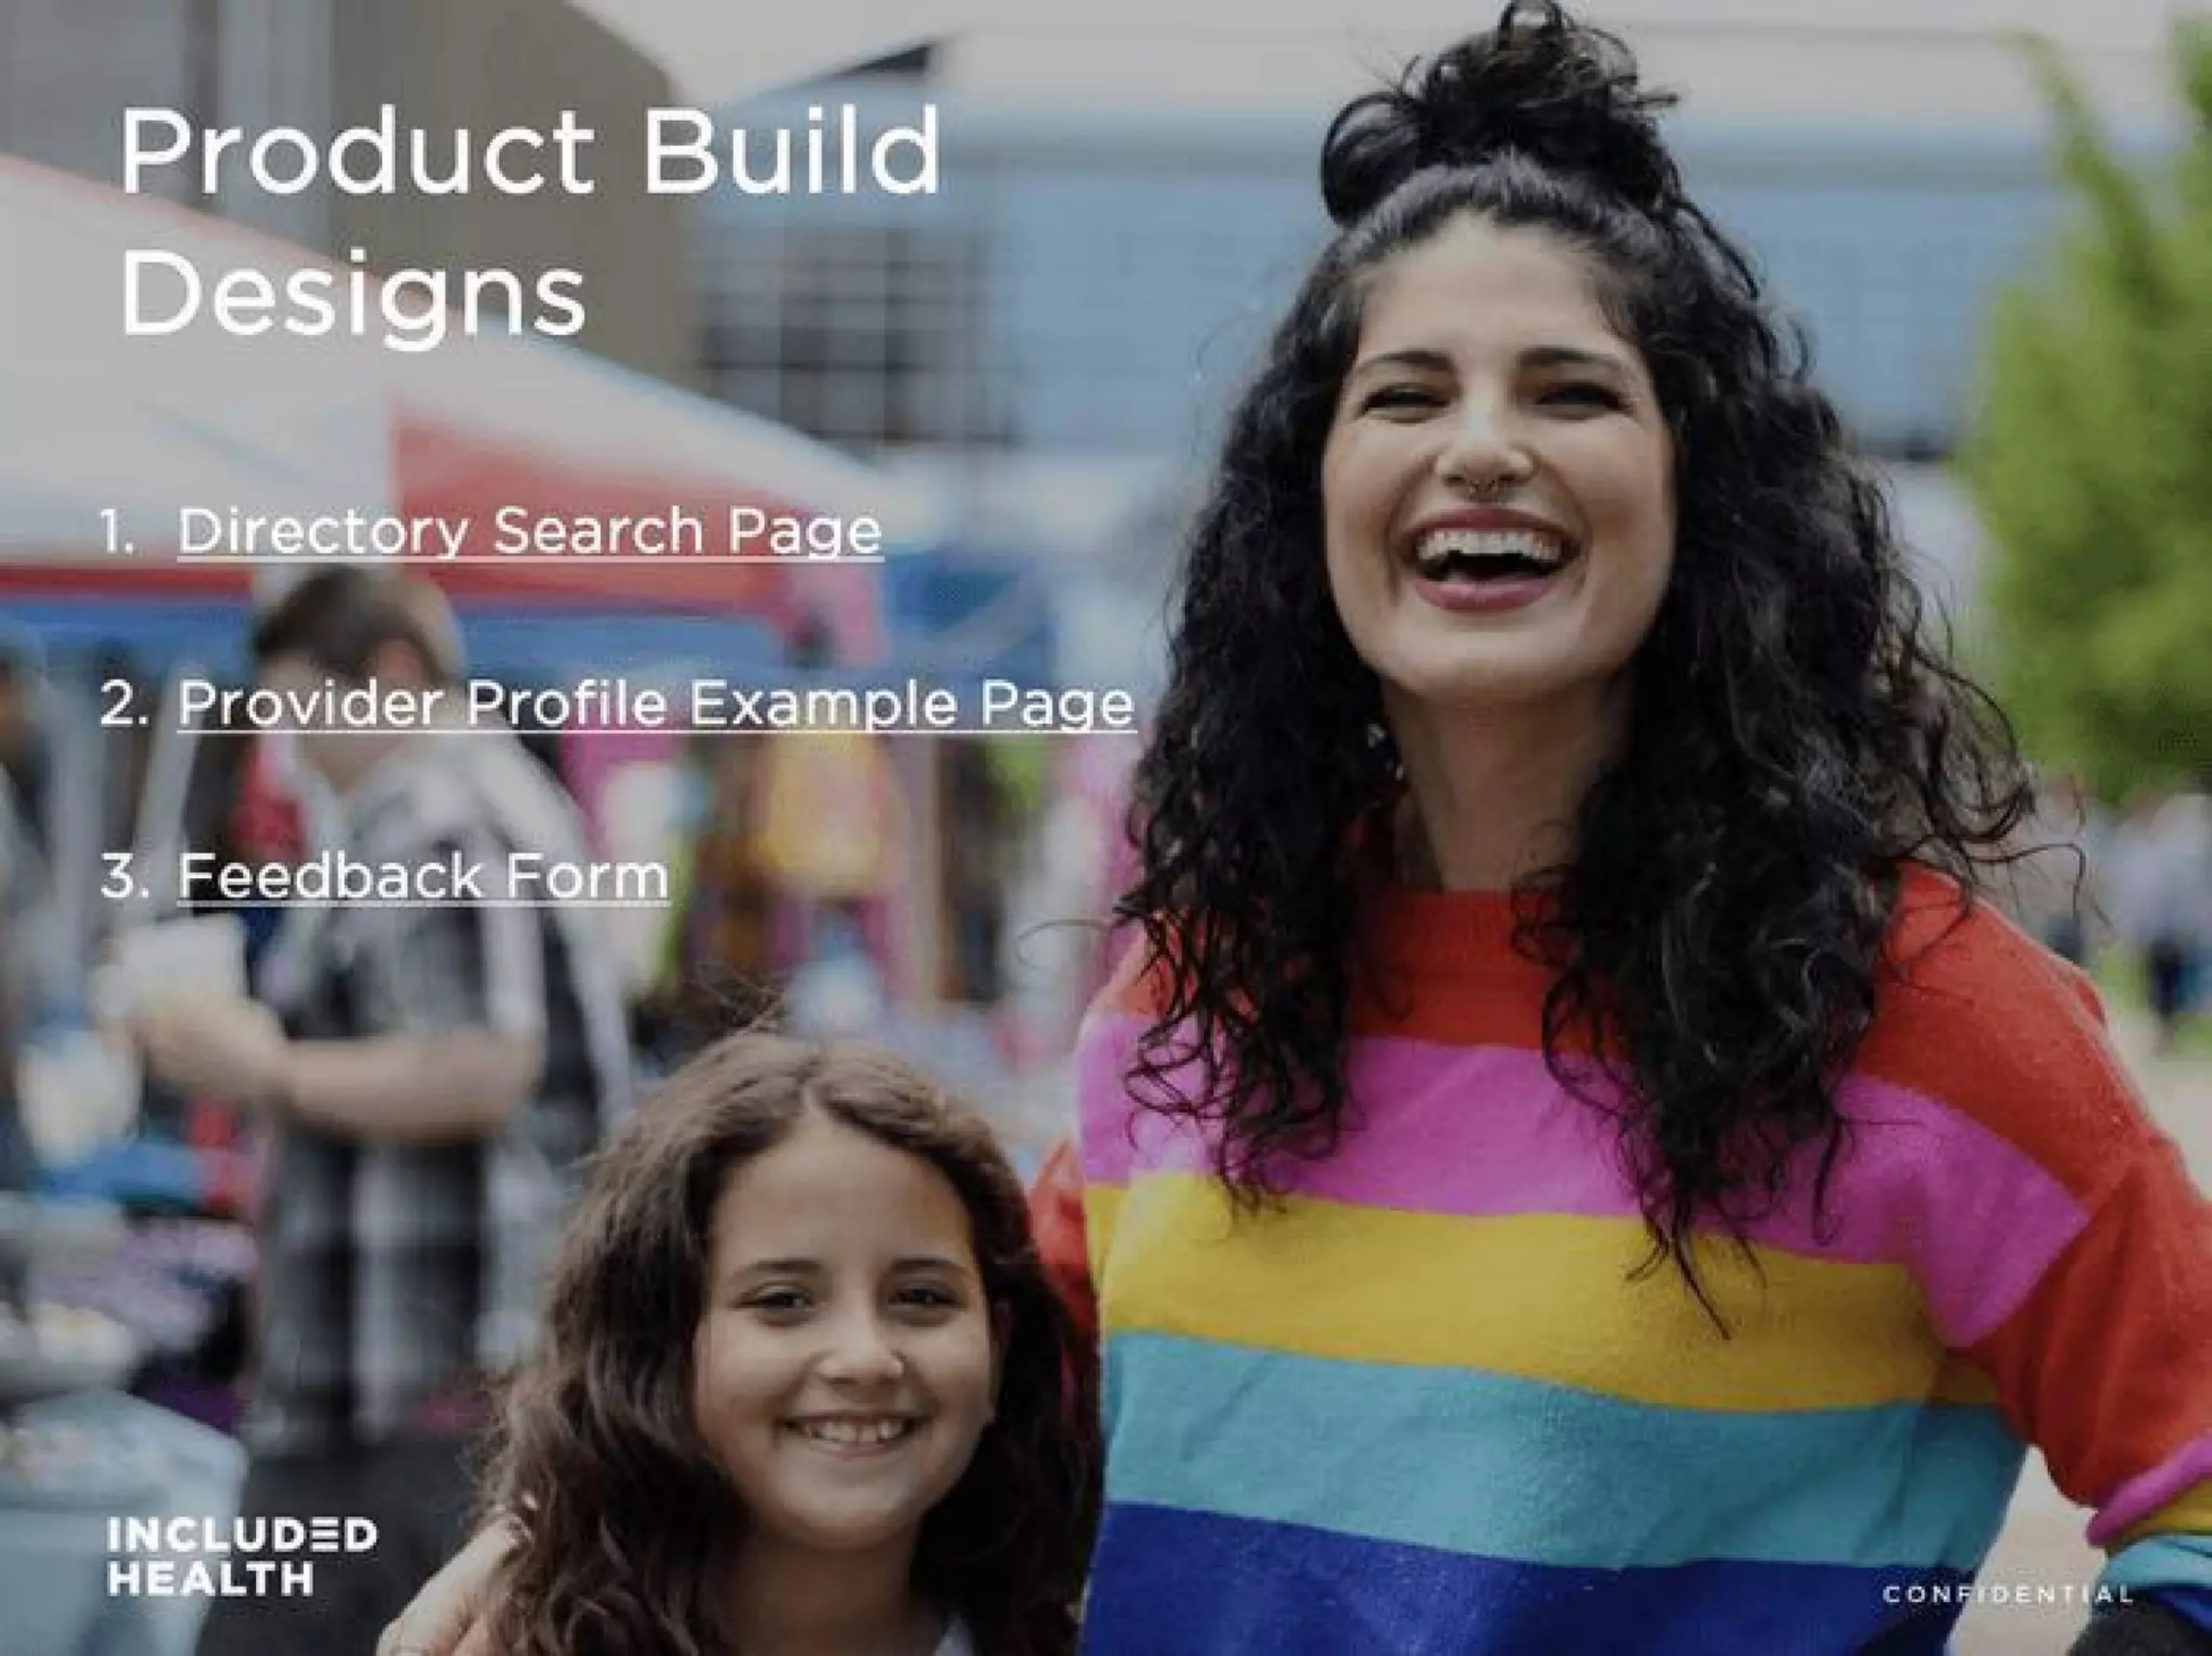

"It's nerve wracking not knowing who you can trust."

"It would be helpful if there were a single point of contact or an expert we could contact, whom we could ask advice on **which doctors within our region specialize in specific health needs.**"

"**I love the idea of an LGBTQ friendly directory.** Oftentimes, I find all of my doctors through word of mouth of friends so this would be a great asset - especially in communities that do not have as much access to information about LGBT friendly doctors outside of major metropolitan areas."
