Endorsements from Partner School Districts

"**SFUSD** is excited to work with KangaDo to promote school pools throughout our District. We appreciate the way KangaDo worked with us to ensure the their product met our district's needs. The app makes it easy for parents to set up walking school buses, bike trains, and traditional carpools. By facilitating connections between parents we hope to reduce congestion and pollution around schools, encourage our families to choose active forms of transportation, and build community on campus."

"The parents in our school district find the KangaDo mobile app convenient. We are happy with how the app manages parent privacy and makes our families comfortable with searching for carpools."
- **Menlo Park City School District**

A few "Real Life" Requests from users in the App
