

Limitless

The GigCX platform

Expert powered automation

We work with some of the world's largest brands to deliver AI powered, crowdsourced customer service

Private & Confidential

Our story

As a founding team we have over 70 years experience in Customer Service. We used to run one of Europe's largest customer service operations. We worked for some of the best brands, including Unilever, Microsoft, Sky and Vodafone. Our call centres employed over 2,000 people across Europe. It was low margin, OK quality, and hard to delight customers, with a race to the bottom on costs.

We sold our company to the Hinduja Group and decided that there had to be a better way to deliver amazing Customer Service going forwards. We came up with the idea for Limitless in 2016, **combining a qualified gig workforce, with AI**. We were compelled to quit our well-paid jobs and started our adventure with Limitless!

Roger Beadle

Introducing GigCX

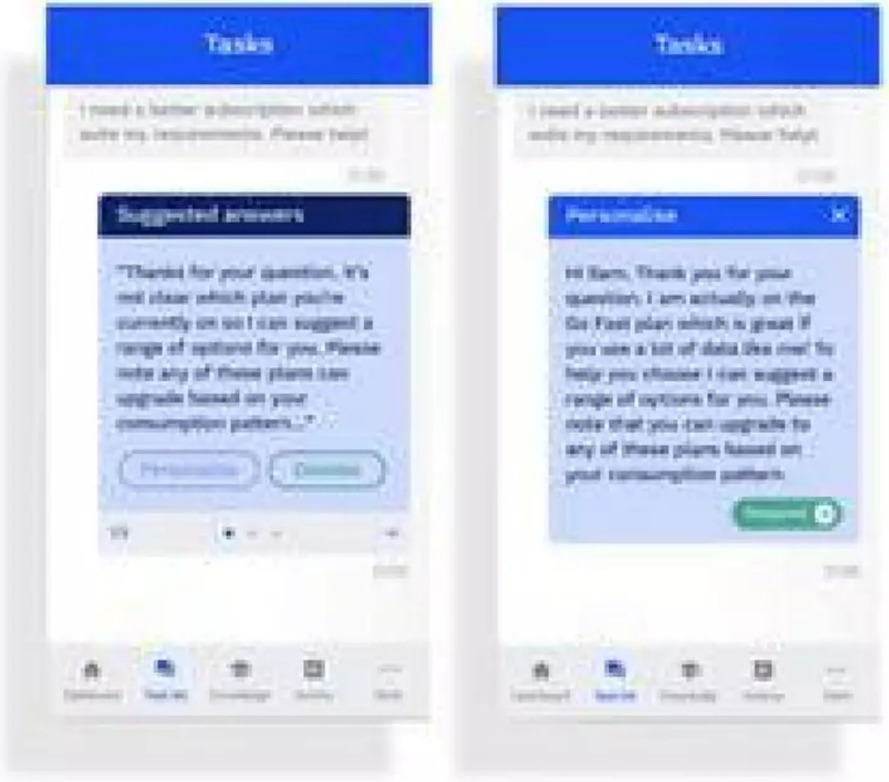

Our multi award winning SmartCrowd platform connects customers with qualified Experts who can help them on-demand anywhere in the world

The platform enables businesses to:

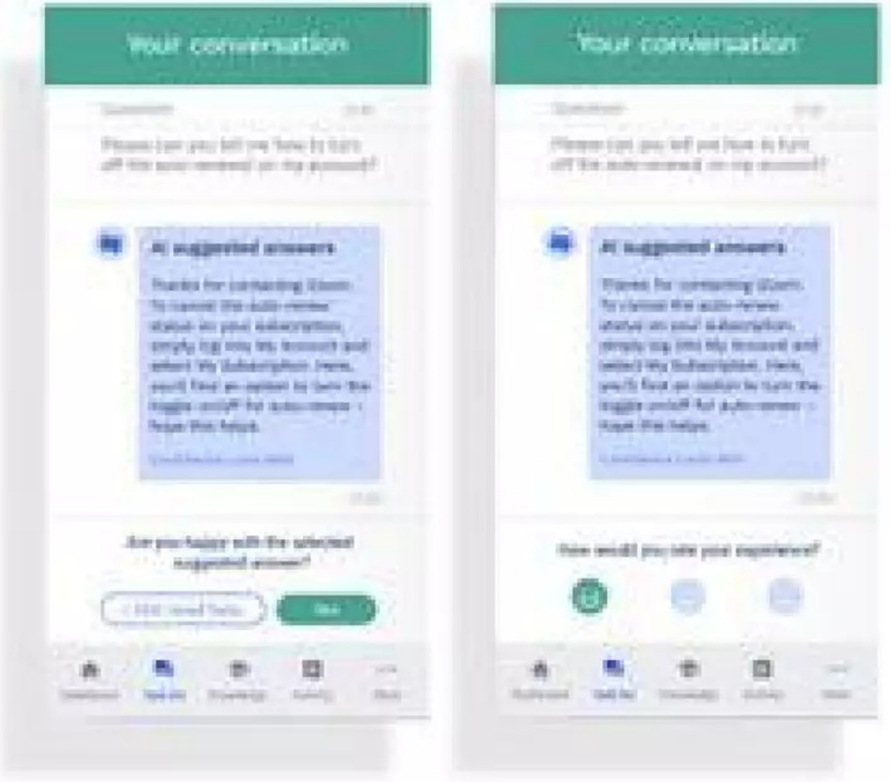

1. Quickly create crowds of Expert product users
2. Route & distribute support tickets to Experts
3. Manage ticket completion & quality control
4. Train AI algorithms to automate simple queries
5. Reward Experts for successfully resolving tickets

Experts train our AI algorithms to enable us to automate low value enquiries

Step 1 - SmartAssist suggests responses to Experts, who select the best match to personalise and train the AI

Step 2 - SmartAnswer provides better automated responses to customers in the voice of the Experts

We are handling tickets from around the world

The platform is proven to work across the world and new languages and countries can be added in days

Global coverage

Live in 22 countries with 9 more coming online in H1-20

■ Live countries ■ Live in H1-2020

Regional revenue split

Revenue in the US and RoW

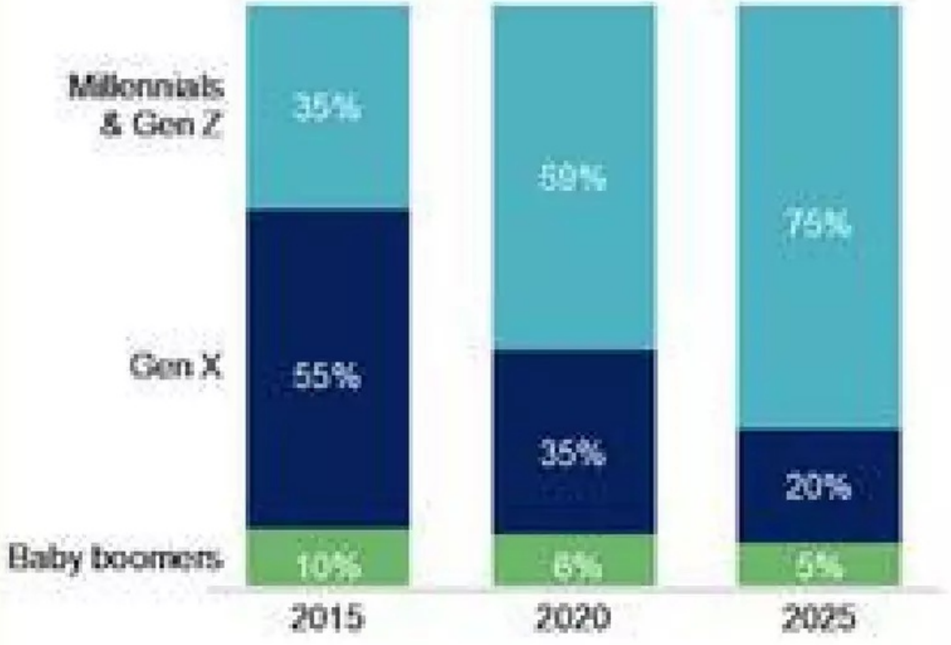

Change is being driven by a generational shift in labour pool and workplace culture

This shift is creating a compelling reason for companies to buy our platform now

Demographic shift

Enterprise Customer Support Market Today

Limitless

A large market with few providers, little differentiation and a poor reputation

Enterprises currently provide remote customer service via:

- Call centers (in-house & outsourced)
- Self-service
  - Bots
  - Virtual Assistants
  - Knowledge bases apps & online
- Community forums

We have a clear sales and product strategy to capture market share

Limitless

Strong focus on target markets in US and Europe through direct sales followed by introduction of channel partners

Target Markets

Technology
Marketplaces
New Media

2019-2020

Initial market penetration strategy

Direct Sales & Client Success

2020-2021

Channel Partners

BPO Service & CX
Tech Partners

Expansion

Autonomous Product for Mass market

2021-2023

Private & Confidential

Recurring monthly revenues come from huge annual ticket volumes

We have a proven pricing model that is preferred by customers and is aligned to our cost base

Contracting Approach

Subscription Model

To access the platform clients sign up to an **annual subscription**

Pricing Approach

Per Resolved Ticket

Clients agree to a **minimum revenue commitment** or pays for credits in advance
