

Enterprise Object Storage

Infinite Scalability, Infinite Possibilities

Market Opportunity

Enormous data volume growth, particularly unstructured data

Source: IDC (Global data production) and Cisco (Global data traffic)

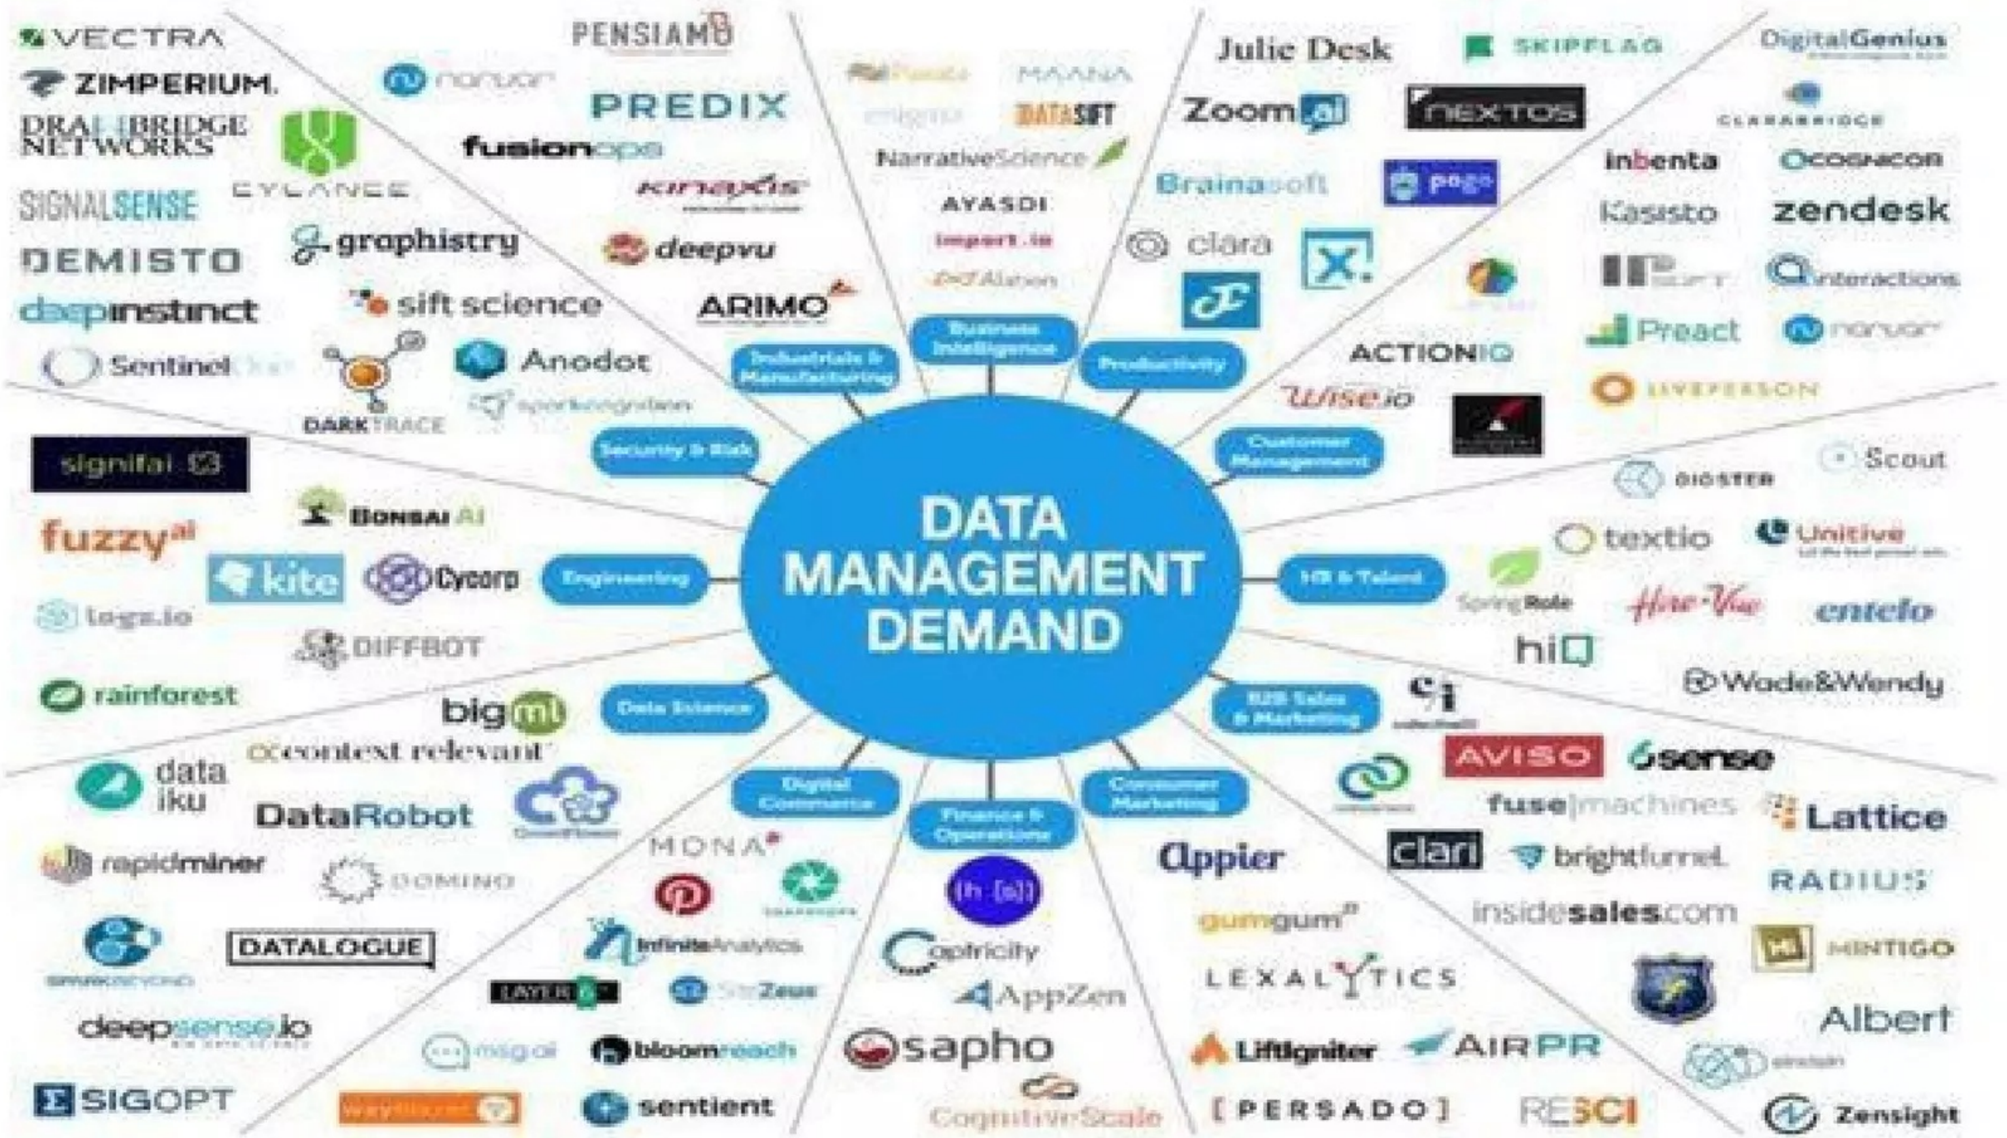

Widening gap between data size and bandwidth:

- Cost and time restrictions limit data mobility
- Data remain where it is created

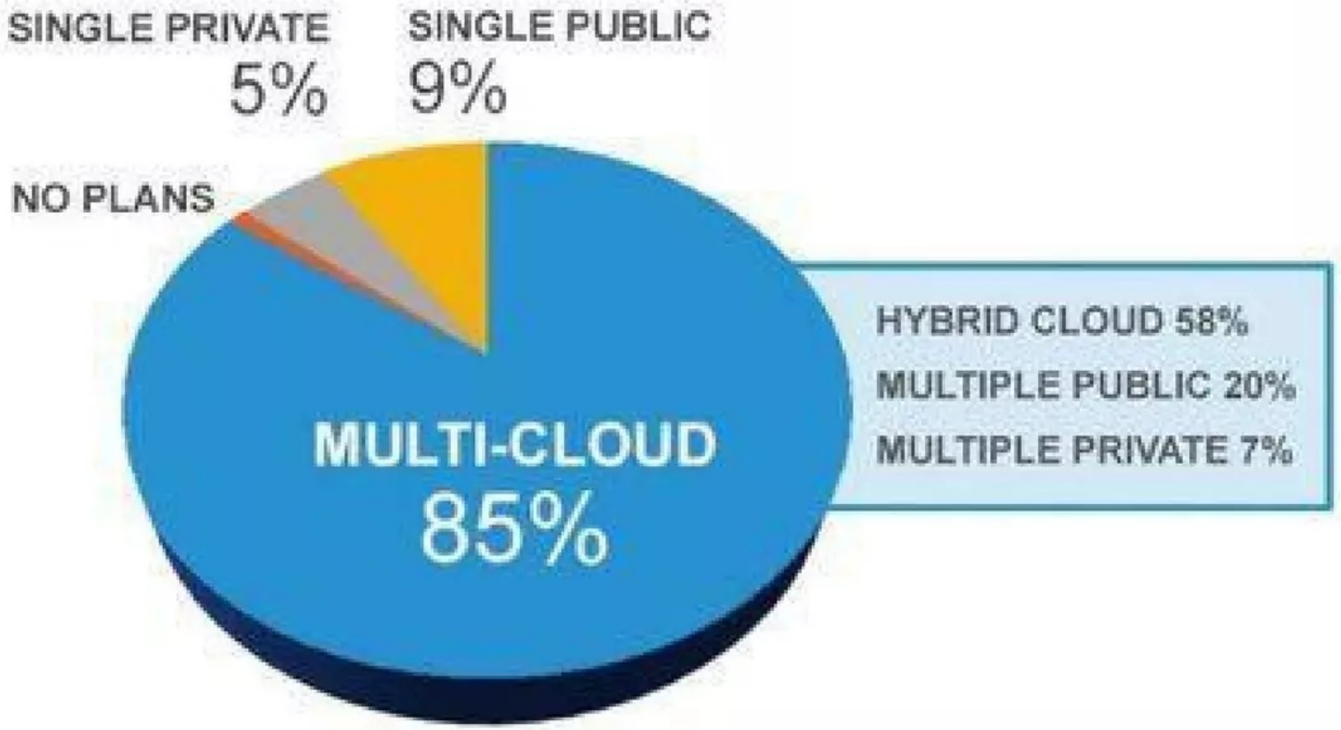

Data growth continue On-Premises, at Edge

- Regulations / compliance
- Cloud access charges
- IoT data creation at edge

AI / ML drive more capacity data management needs

Enterprise Users Require a Multi-Cloud Strategy

Based on survey of IT Professionals in Enterprises
>1000 employees

Multi-Cloud strategies drive Cloudian growth

- Enterprises demand technology options
- Over half of deployments are public cloud + on prem
- In multi-public cloud deployments, Cloudian enables data & application mobility

Large addressable market – Cloudian TAM: $19B

Where We Fit

Primary Use Cases

- Media/Entertainment
- Backup/Archive
- Bio/Research Data
- Storage-as-a-Service
- Surveillance
- IoT, AI, ML

Highly Differentiated: 90% win ratio

Full Compatibility with S3 API

Policy-based Data Protection

Policy-based Tiering

Multi-tenancy, QoS, Billing

Customer-First GTM Strategy: Only One First Impression

Phase 1: Product Excellence
- 100% focused on initial Japan Telcos
- Result: best product with 90% win ratio

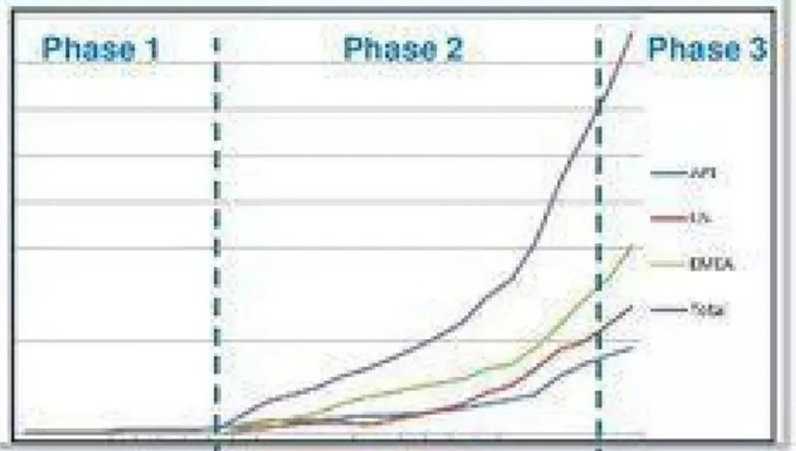

Phase 2: Repeatability
- Leads → Wins → Expansions
- Repeatable use cases
- Appliances: Easy fulfillment, mgmt, support

Phase 3: Scale
- Strategic Partners: Cisco, HPE, Lenovo

Customer Acquisition Accelerating

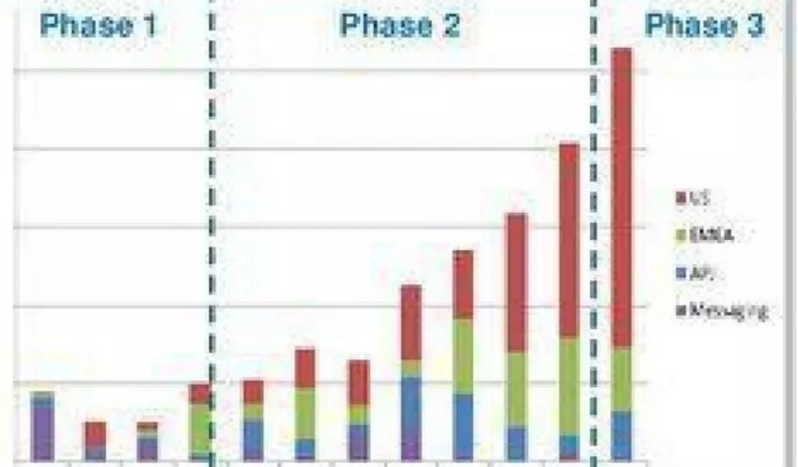

80% Customer Growth over Past Year

Pace of Bookings Continues to Increase

~ 2x Revenue Growth over Past Year

Six-year history: Zero customer churn to competitors
