Investor Deck

Ted Elliott, February 2021

COPADO

Copado is Global

Company

Founded in 2013
Investors Include:

- Insight Partners
- Lead Edge Venture Capital
- Salesforce Ventures
- CapGemini ISAI Ventures
- Perpetual Investors

COPADO

Our Mission:
Make Release Days Obsolete
COPADO

Our Challenge:
Enterprise Software is Complicated
COPADO

The Pace of Enterprise Transformations Are Accelerating

Single Cloud App

Integrated Multi-Apps

3rd Wave Digital Customer Experiences

"Every company right now is facing an imperative — to go digital, fast. Salesforce Hyperforce is a quantum leap forward in how Salesforce can accelerate our global customers' digital transformations and empower them to grow, fast and at scale, on our trusted platform."

Bret Taylor, President and COO, Salesforce

Gartner

"The demands of the digital era force enterprises to transform their business models more often and more quickly. This can only be done by embracing a **third wave of enterprise agility**"

COPADO

5 Reasons Digital Transformations Take Longer to Deliver Value

Today, software delivery performance is the #1 indicator of a company's ability to deliver results.

TRANSFORMATION
VISION

100+ Days
GO-LIVE GAP

Lack of Value Delivery Process

- No Value-Driven Planning
- No Version Control
- No Automated Testing
- Min Security and Compliance
- Lack of Delivery Analytics

BUSINESS
VALUE

Harvard Business Review

"Only 10% of CIOs say they are very successful at rapid software deployment"

COPADO

What does rapid delivery look like?

42X
more stories delivered each quarter

13X
more releases

#1
Highest performing development team at Linde

"The Salesforce CoE has set the benchmark for DevOps across Linde."
— Timo Schmitt, Head of Salesforce Platform, Linde

2016
Linde implements Copado: 3x increase in releases (quarterly → monthly)

2017
Quality Gates Implemented: Governance enforced through automated checks.

2018
Linde achieves CI/CD: Daily production releases enabled

2020
Continuous Improvement: Copado DevOps 360 provides the visibility and data needed to proactively plan and test process improvements.

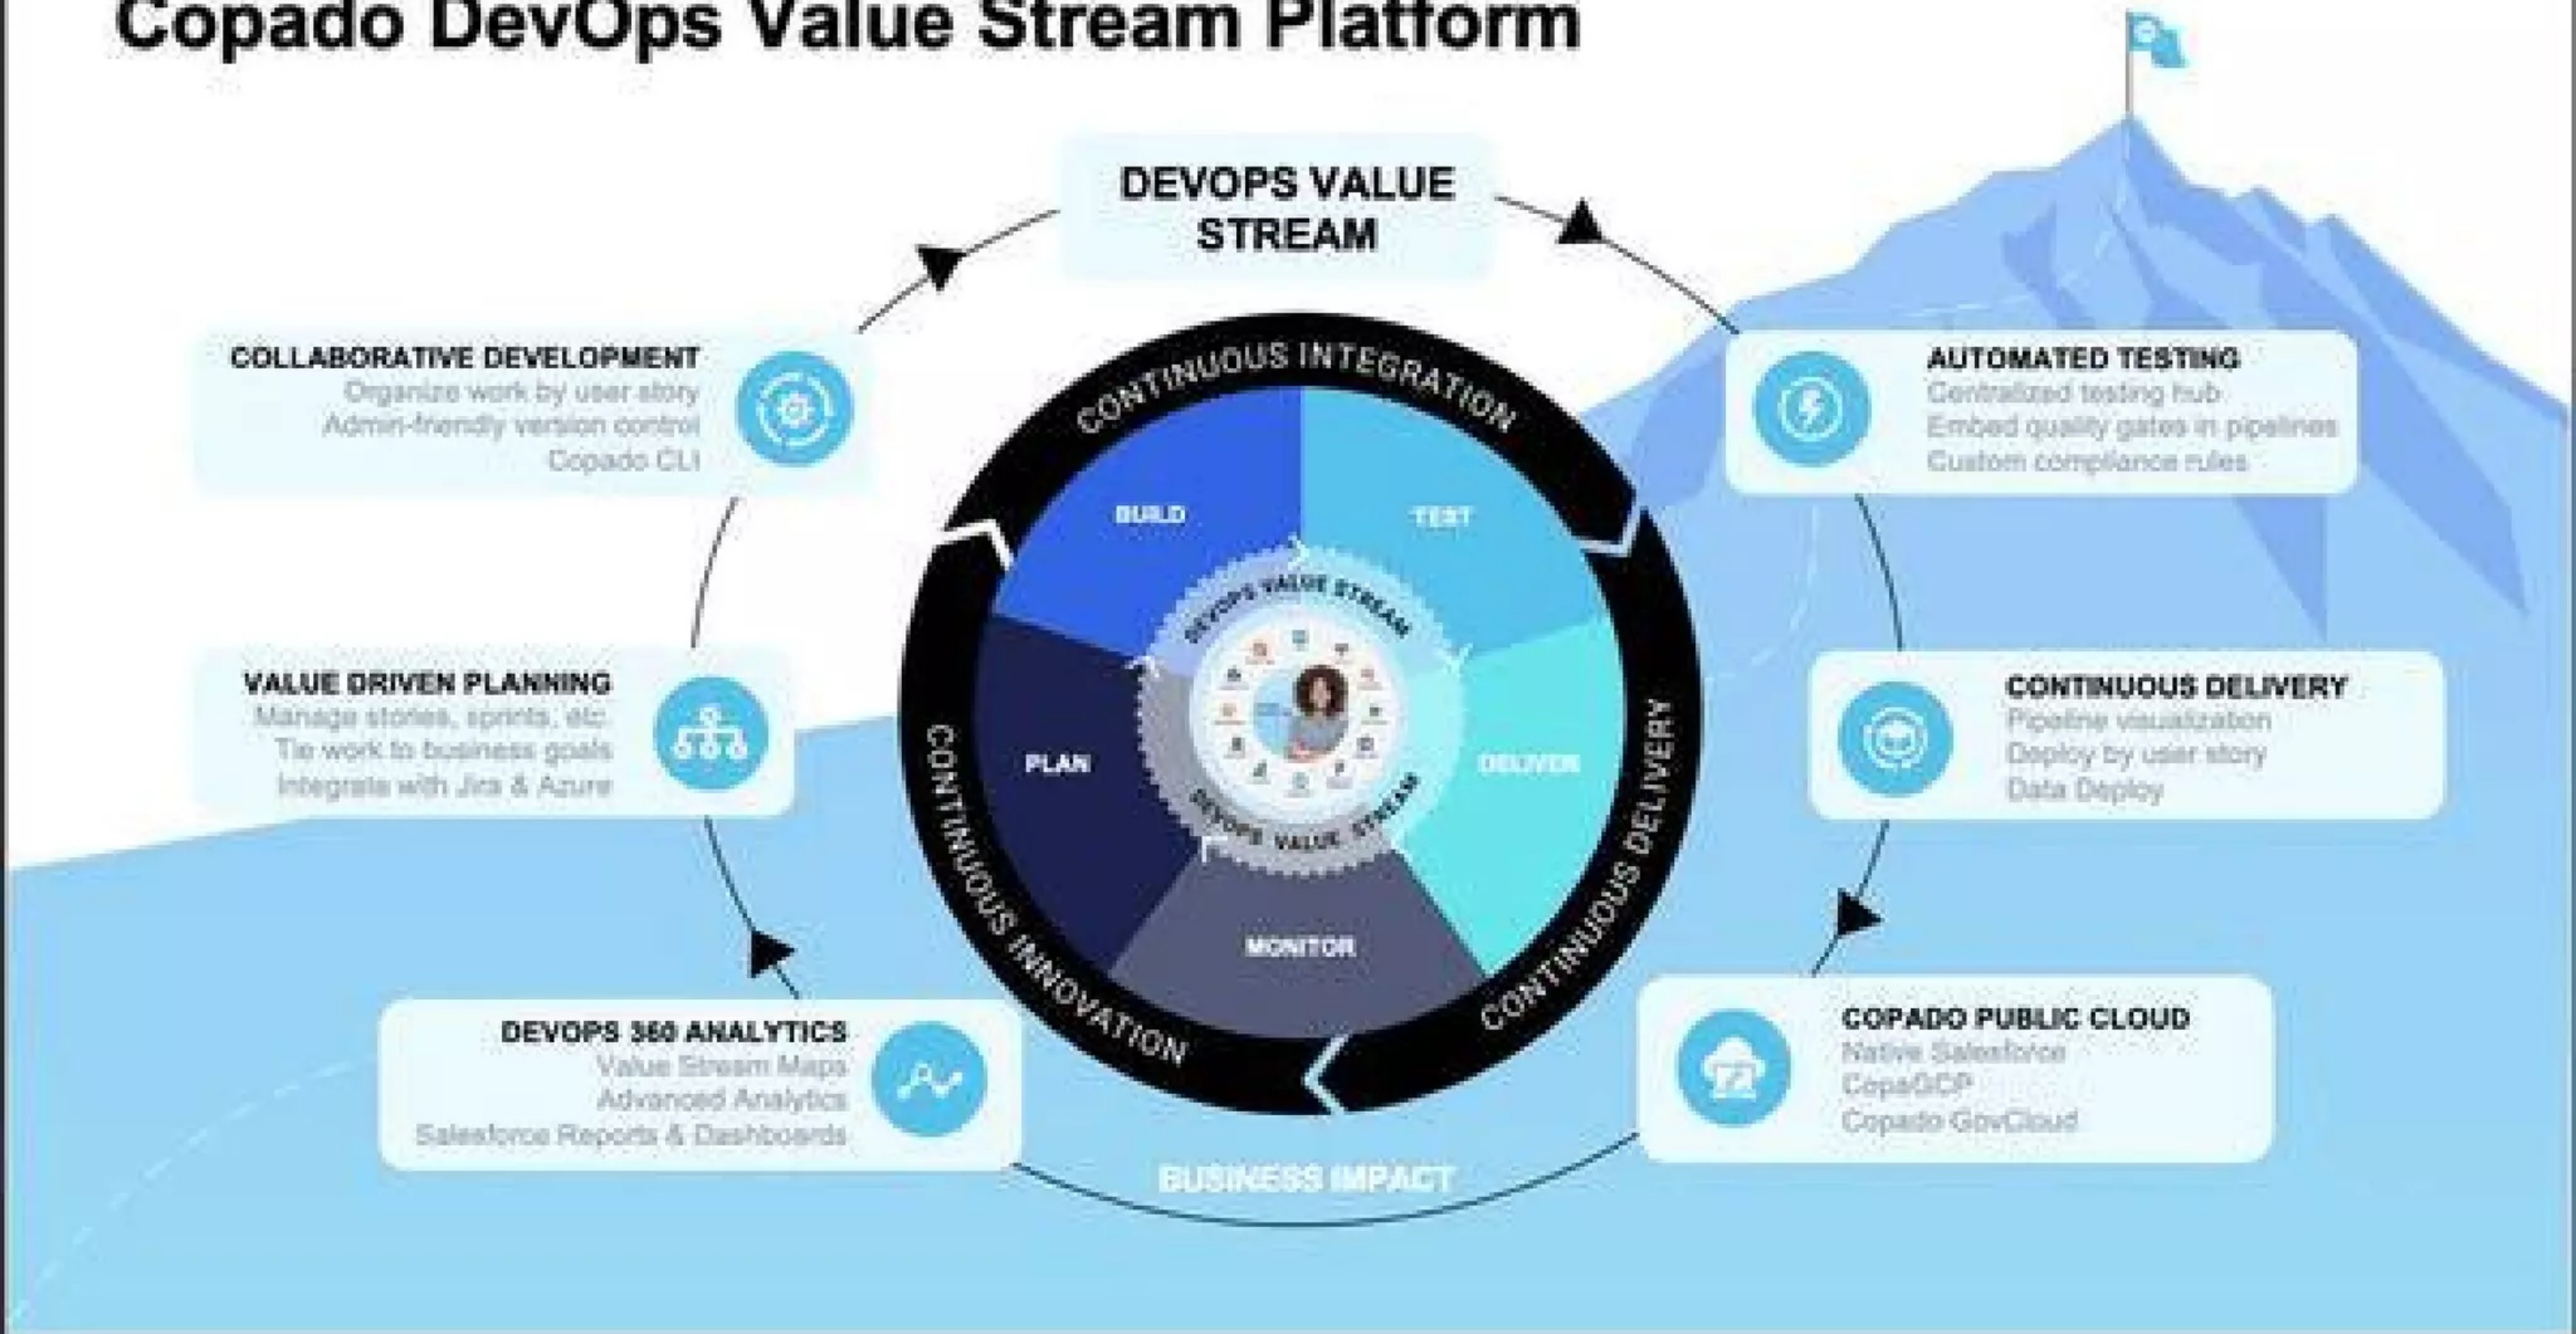

2017
Continuous delivery transformation plan: Copado hosts 3-day intensive workshop to create a rapid delivery roadmap

2017
DevOps strategy goes next level: OOTB Azure integration facilitates a streamlined, collaborative, and transparent release process.

2019
42X More Innovation: Linde increased user stories released per quarter from 8-12 to 500.

COPA Values

Our values are a necessity to execute our business plan. Every engagement with our customers is an opportunity to win a chance to propose an additional solution to the buyer.

We only get an invitation for a new opportunity if we overdeliver on the last dance.

COPADO

Building Custom DevOps is Expensive and Risky

Fully Integrated DevOps Platforms Are Replacing Fragile and Fragmented Custom Tools

Expensive To Build

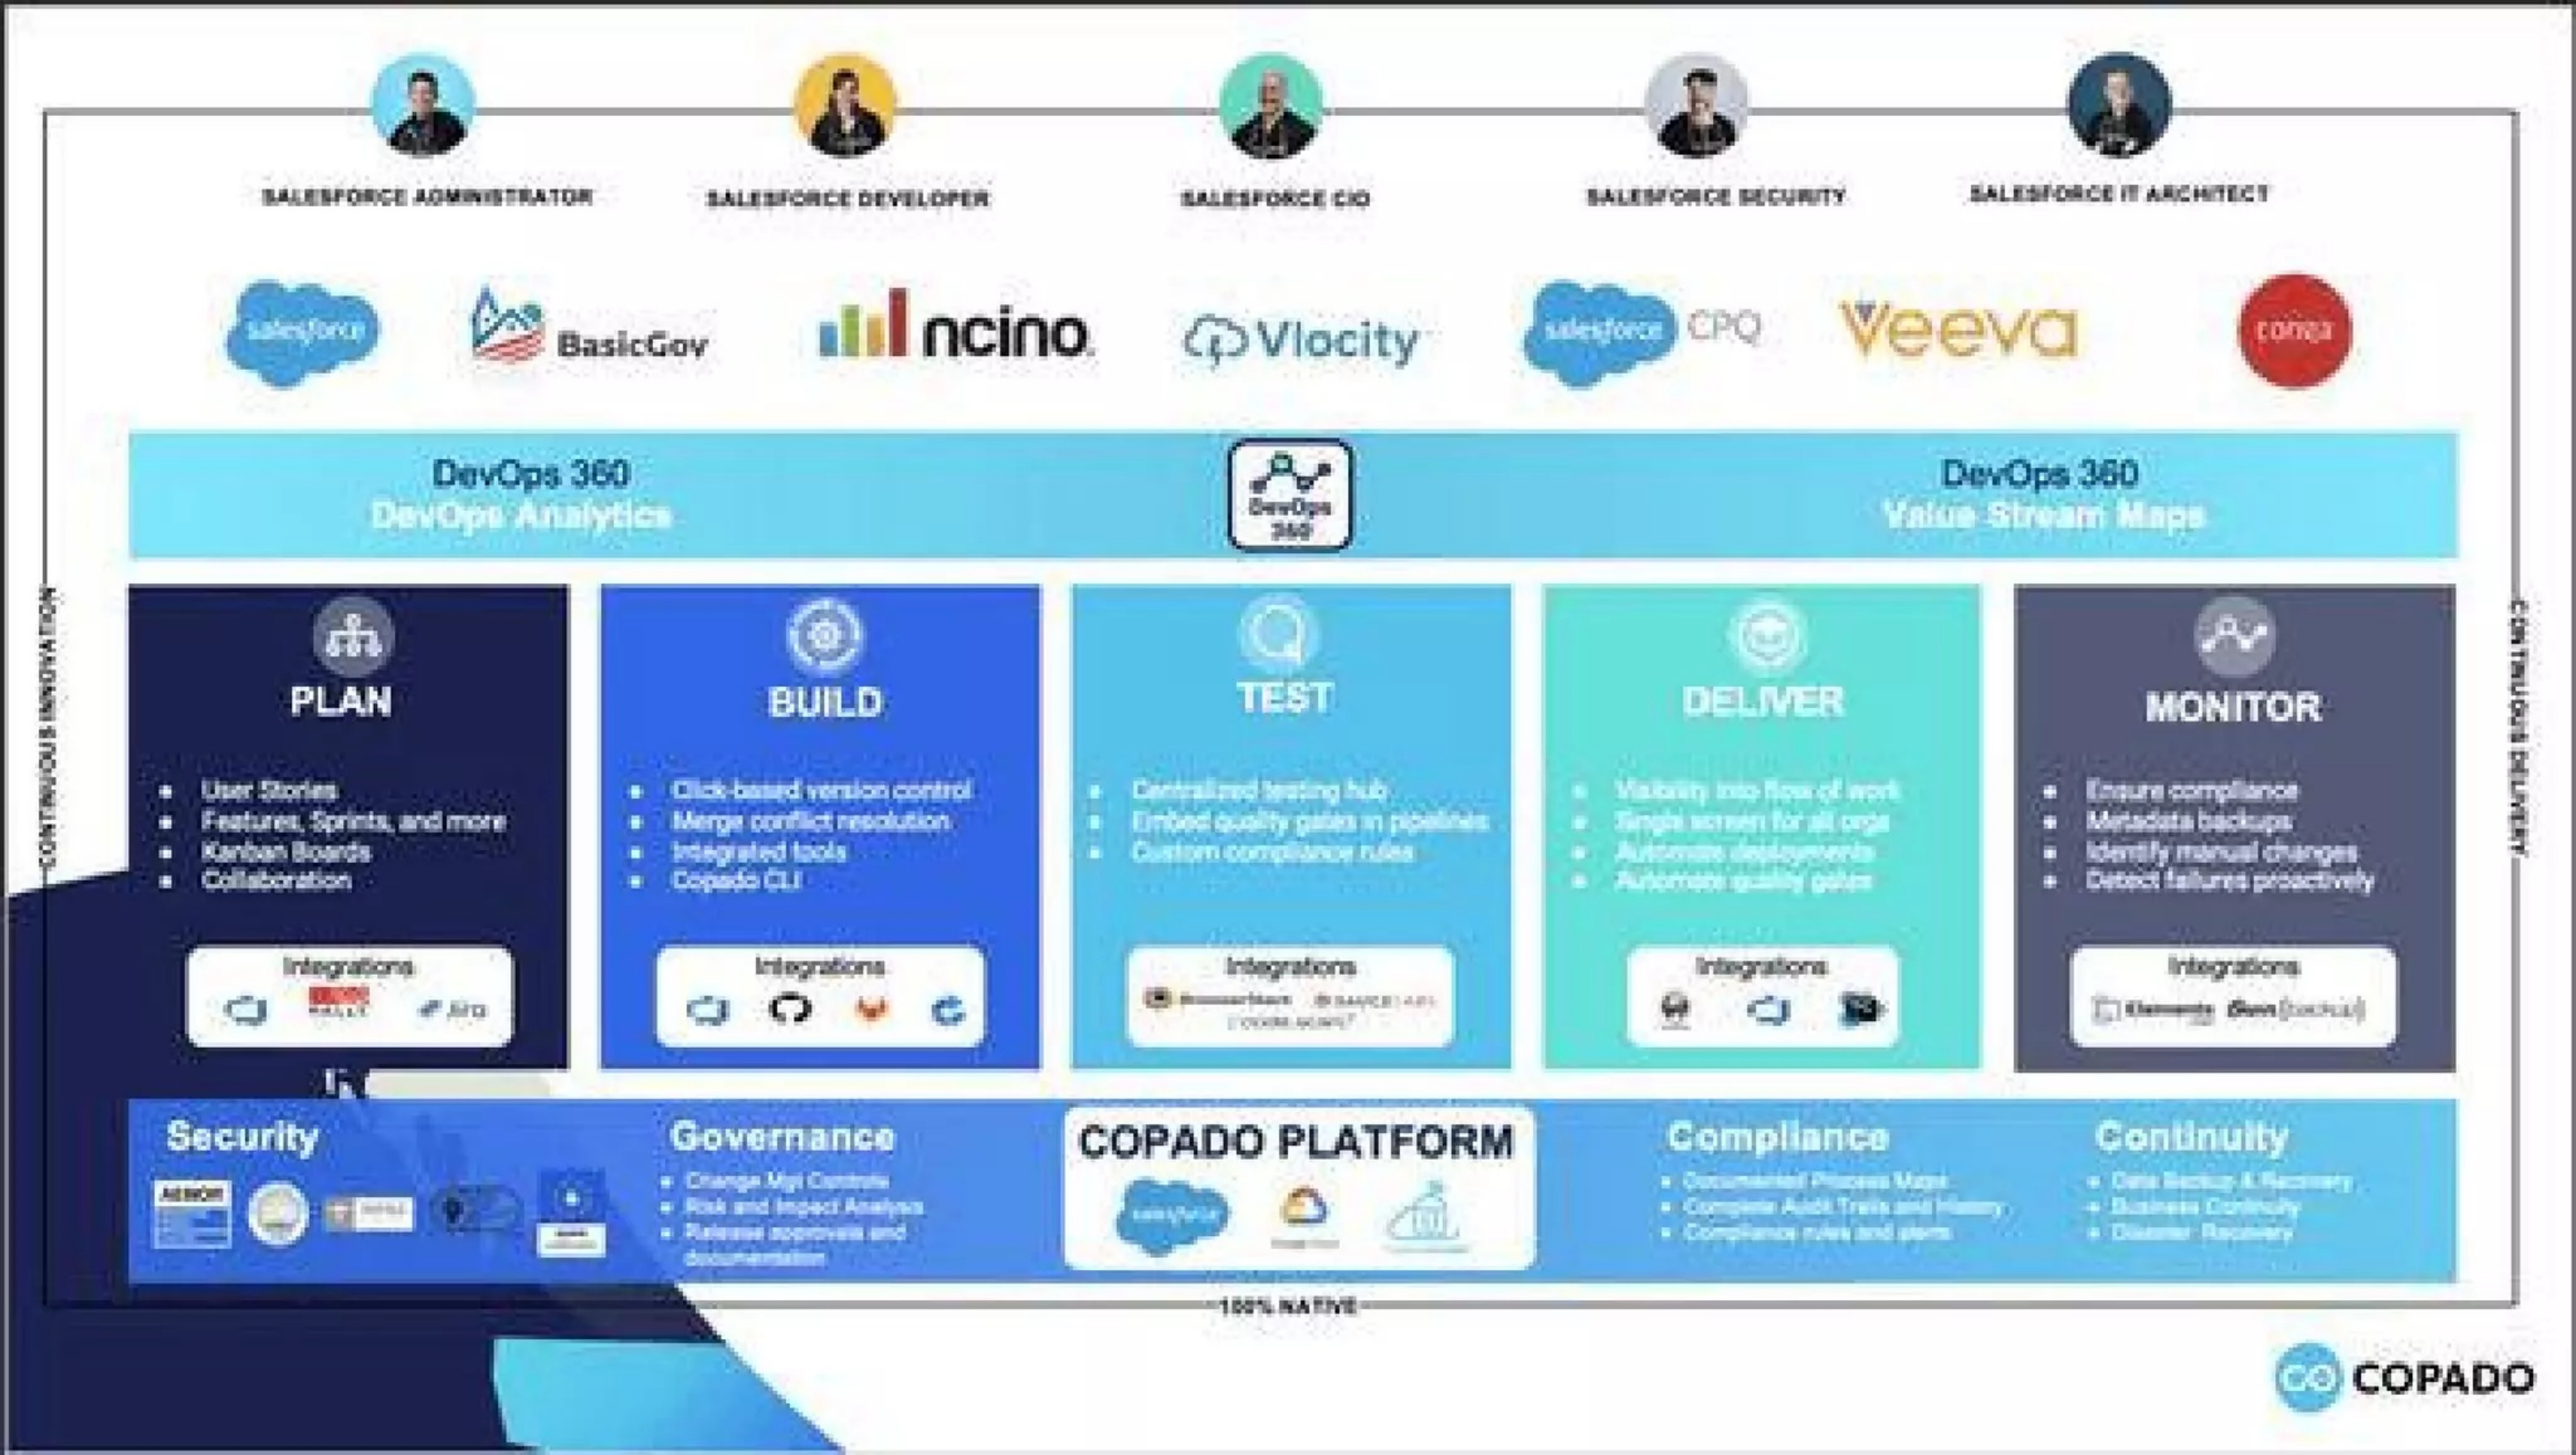

- ⚠ $200K Cost to Build
- ⚠ $600K Lost Time for the Team
- ⚠ $400K Limited Adoption
- ⚠ $110K Annual Maintenance Cost
- ⚠ $1,300K Delaying DevOps Rollout

\- **$2.610M**

Limited Capabilities

- No Admin-friendly UI
- No Analytics or Dashboards
- No Integrated Testing
- No SFDC Release Maintenance
- No Training and Documentation

⚠ Open Source is **Free**, Labor is **Not**

COPADO

Value Driven Planning

Align development to corporate strategy

cisco - **$24M/yr**

100% HIGHER FEATURE ADOPTION

- NEW Prioritize projects using any OKR
- Prioritize features by value and impact
- NEW Group stories by application and feature
- NEW Supports SAFe methodology
- Sync stories with Jira and Azure Boards

COPADO

Collaboration

Coordinate Teams Globally

CISCO - **$20M/yr**

40% MORE FEATURES DELIVERED

- Easy Version Control
- Align Admins and Developers

NEW Low Code Pipelines

NEW Templates and Functions

NEW Open API Framework

COPADO

Testing

Deliver high quality and minimize risk

CISCO - **$39M/yr**

94% FEWER PRODUCTION BUGS

- Automate the testing life-cycle
- Static Code Analysis
- Empower declarative testers - no coding needed

NEW 20 New PMD Rules (59 total)

NEW Enhanced Compliance Hub

NEW Declarative Integration with Testing Suites

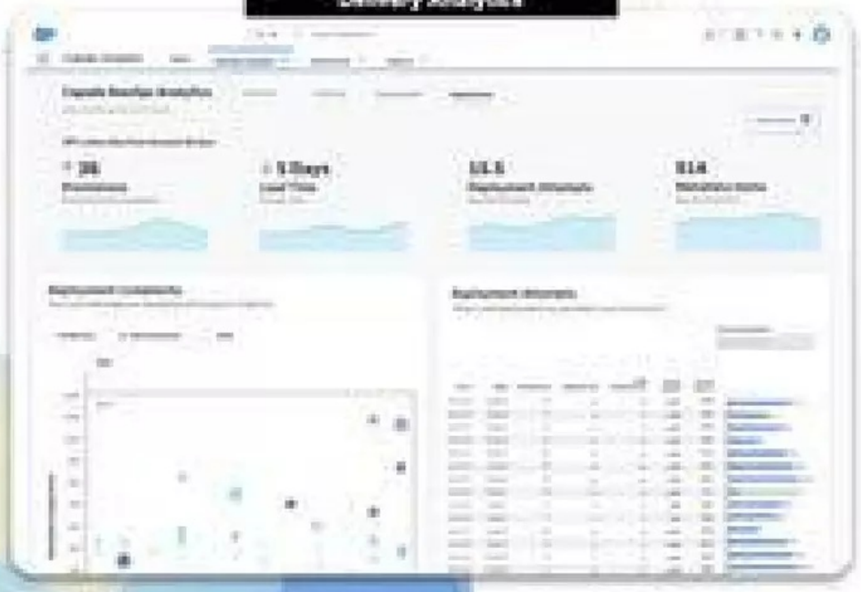

COPADO

Delivery Pipelines

Delivery Analytics

Continuous Delivery

No more release days

CISCO - $2.3M/yr

75% SHORTER LEAD TIME

- NEW Cross pipeline tracking
- Automate all deployments
- Check and enforce quality at each stage
- NEW Deploy complex data
- NEW Coordinate manual tasks, scripts, etc.

COPADO

DevOps 360 Analytics

Value starts by aligning technical delivery with business goals

VALUE STREAM MAPS

- NEW Custom Metric Value Management
- NEW Interactive Insights
- Advanced Filtering
- Collaborative Insights
- Cycle Time Calculation

DEVOPS ANALYTICS

- NEW Git Metrics
- Performance Improvements

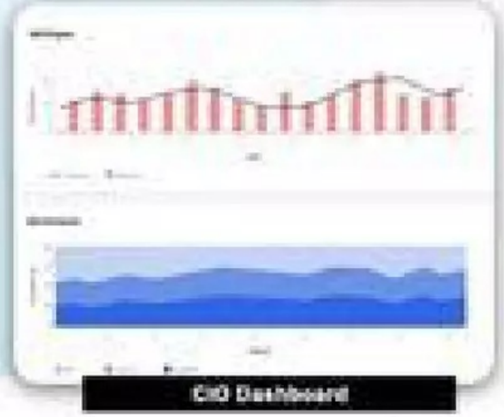

COPADO

Customer Success

In the past two years we have scaled the business by focusing on Customer Success.
