Counting up

Accounting software with an inbuilt business account

OUR MISSION

Making it easier to run a small business

Counting up

We focus on solving problems for the UK's 8.6m small businesses

Easily **get paid** and manage cash flow

Knowing I'm **compliant** and avoiding stress

Getting organised so I can concentrate on **running my business**

I need to get paid fast, with confidence and however my customers want to pay

It's difficult to get work done with time wasted on financial admin

It's hard to stay on top of my bookkeeping and I'm afraid of tax surprises

I lack insight into how my business is doing until year end

Counting up

6.1m UK business owners don't use accounting software

→ 600m hrs wasted on bookkeeping

Counting up

Introducing the single ledger approach

Counting up

The all-in-one financial tool provides incredible value

Superior workflows

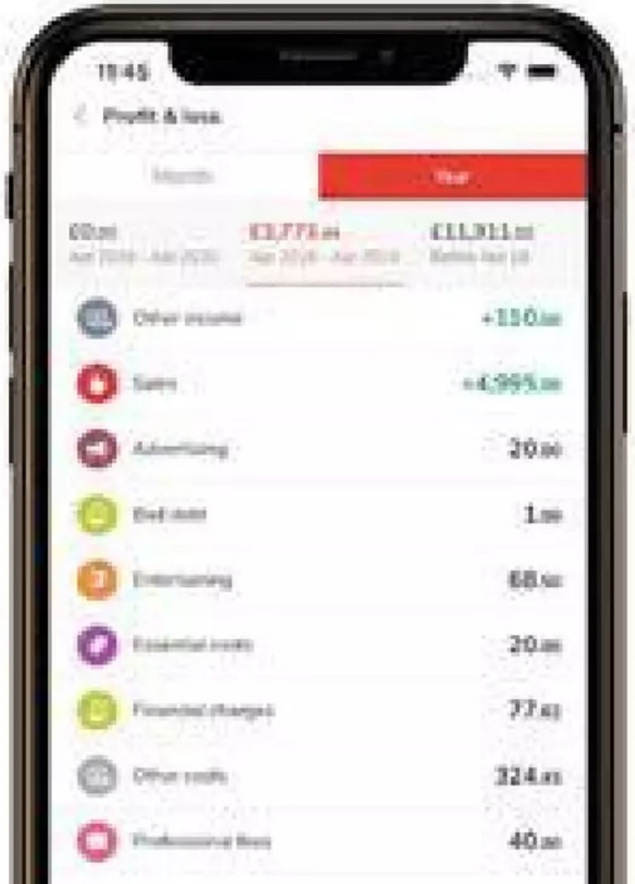

Invoicing and payment matching

Expense reminders

Auto-categorisation creates P&L

What makes us better?

Increased stickiness

- ✓ Embedding fintech in SaaS increases ARPU 2-5x [1]
- ✓ A seamless experience with everything in one place is stickier
- ✓ Countingup was built as a SaaS/fintech product with card + payments + accounting + tax in one unified experience

Differentiated insights

One central record for small business owners that is highly accurate, real-time and automated opens up opportunities:

- ✓ Supplier switching
- ✓ Forecasting and budgeting
- ✓ Credit cards
- ✓ Lending
- ✓ Payments
- ✓ Insurance

Complex technology

Accounting is difficult.
No fintech has done it.

- ✓ Bookkeeping engine
- ✓ Invoicing engine
- ✓ Tax engine
- ✓ Experts with strong background
- ✓ First to market

Our Accountant Hub is the seamless solution for firms with small clients

No more chasing

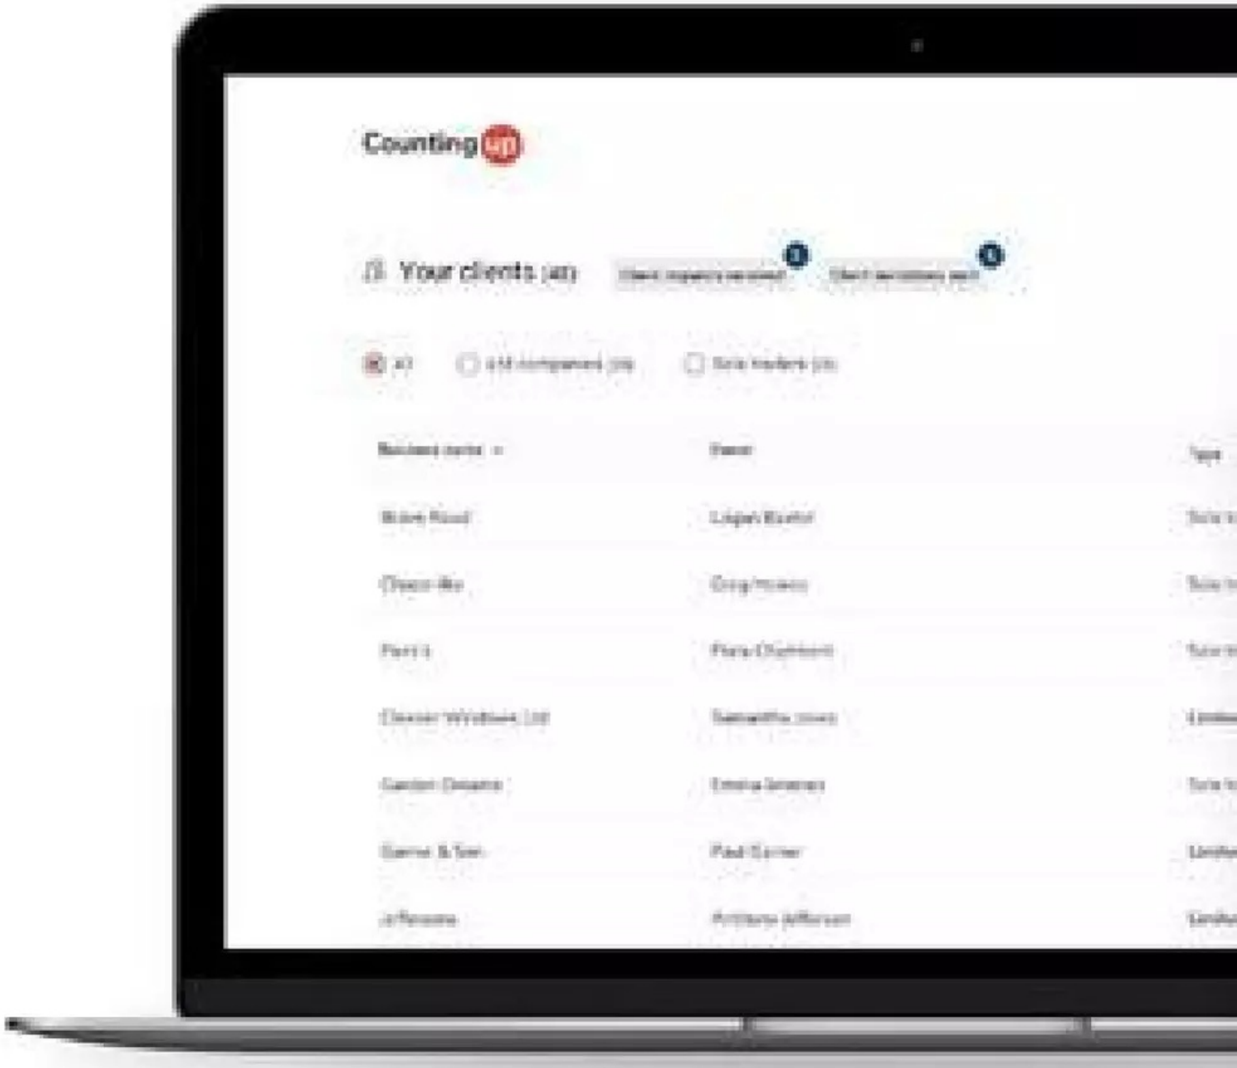

Designed to fit into the accountant's workflow, our Accountant Hub provides access to real-time client data. This means no need to chase for missing information or re-authorisation of bank feeds.

Time saving

Profit and loss reports that update when new transactions happen, automated bookkeeping and more.

More profitable

Small clients are time-consuming to serve and cost-conscious. The Hub saves accountants time, improving profit margins.
