Countries	1	**60+ Countries & 50 US States**
NPS	-10 to +15	**Claims NPS +65**
Regulation	Requires agent licensing	**Handled by Cover Genius**

INTRODUCING XCOVER

XCOVER IS AN INSURANCE DISTRIBUTION PLATFORM

The API dynamically bundles policies for any territory, currency and language.

The XCover API **generates a warranty or insurance product for any retail sale worldwide.** For example:

1. A **Millennial** is shopping online for bicycles. During the transaction, XCover returns tailored protection that includes theft and extended warranty.

2. A **Business Traveler** books return flights from New York to Hong Kong via an OTA. XCover bundles baggage, medical and trip cancelation insurance from 2 different insurers.

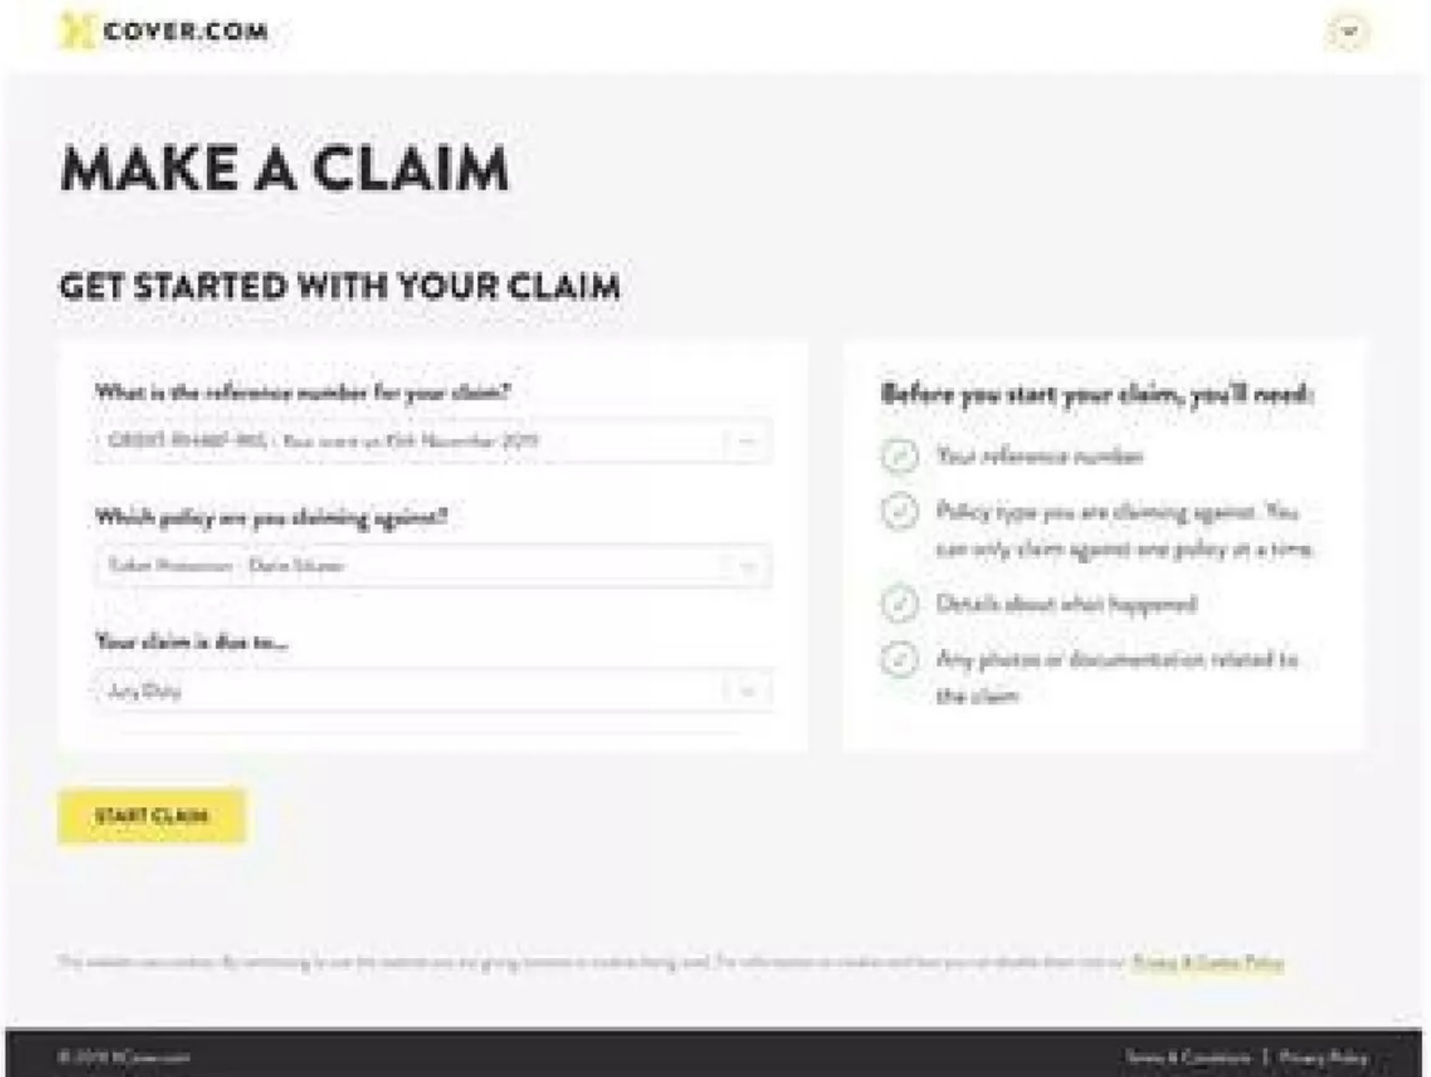

XCOVER'S MICROSERVICES ARCHITECTURE

Interconnected APIs based on a microservices architecture

THE CLAIMS EXPERIENCE

- **Integrated platform** for quote, booking, claim, fulfillment, payment
- **24/7 global assessment with** scientific fraud detection
- Communication in **40+ languages** to keep customers informed
- Industry leading **NPS of 65+**
- **Instant payments** in 90+ currencies
- Comprehensive **fraud detection**

BRIGHTWRITE: DATA ANALYTICS AND OPTIMIZATION

BrightWrite is a **data analytics and experimentation platform** that optimizes for yield.

It provides **dynamic price & product recommendations** for partners via the XCover API

$9BN+ sales fed into BrightWrite's optimization engine Jul 19 - Jun 20

23% average GWP uplift after pricing optimisations

1.7M price experiments Jul 19 - Jun 20

30+ partners using BrightWrite
