Problem

Urban working professionals want to own real estate, generate passive income & build equity but can't due to friction and the high barrier to entry.

1/3 of all American real estate owned by baby-boomers

4% of American real estate owned by millennials

89% of millennials want to buy real estate...

but in the **future** as the **downpayment** where they live is too high

Our Solution

Doorvest simplifies the process of buying & managing an affordable, high-yield rental home out-of-state.

For $20k individuals can buy an out-of-state rental home that yields 8% annually while also building equity

Why single-family rental homes?

High Yields

8 - 12% cash-on-cash annually

Tax Advantages

Entirely offset annual cash flow and capital gains

Capital Advantage

30-year fixed mortgages back by federal government

Equity Build-up

Your resident helps paydown your entire mortgage

Three Core Risks

Trust/Brand

Capital Markets

Scaling Operations

We always knew we wanted to invest in real estate but had no clue where to start. Doorvest helped us go from A-through-Z.
