EDURINO

# Teaching children 21st century skills with the power of games

## We rethink digital learning through play

EDURINO provides a holistic curriculum and grows along with kids from 4-10+ years

## We are raising a €3m seed round to meet demand and accelerate growth

- Overwhelming inbound interest from large retailers, first LOIs signed
- Successfully finished 1-month long crowdfunding campaign with >€41.000 (500 customers) and generated addtl. >15.000€ in pre-sales since campaign (>200 pre-orders in 5 weeks)
- EDURINO is a digital learning and play companion and accompanies parents and kids between the ages of 4 to 10+
- Perfectly positioned and strong momentum with digital education on the rise and Boxine going public in 468 SPAC
- Raising seed round to meet inbound demands and accelerate learning system production to 5-6 in 2022

Kids are fascinated by screens and want to do what they love most — PLAY
Parents are skeptical and are looking for digital solutions as they want kids to LEARN

# Kids unlock exciting learning missions with our figurines

- Playful school prep - Kids perceive EDURINO as a game
- High quality content is developed with experts [1]
- Adaptive learning experience personalized to each kid
- Haptic figurines come to life in the digital world
- Ergonomic stylus to train posture and build the bridge to the digital world

# Parents get a digital education coach to go

- Support for parents to prepare their kids for school & beyond
- Safe usage of digital media with screen time limit
- Transparent learning profile in dedicated parental gate
- Network effect with each additional figurine
- Access to expert recommendations

1. Participation in study from Prof. Niklas (Chair of Education and Educational Psychology at the University of Munich)

# EDURINO provides a comprehensive 21st century skills curriculum and grows along with kids from 4-10+ years

Personalized composition of learning systems on subscription basis to prepare kids for each step along the way

# EDURINO's long-term vision to democratize private tutoring with a platform approach

EDURINO Platform

## 1 Figurines

- Figurines as digital companions for kids from 4-10+
- Entry point for parents and kids

## 2 Digital profiles

Long-term defensibility through unique digital profile of kids that results in increasingly better understanding of each user and automatic in-product adaptivity – displayed in advanced descriptive parent dashboard

## 3 Platform

- Democratization of private tutoring market
- Based on profiles, offering of coaching & tutoring services both for parents and kids
- Future monetization with tutoring as subscription (far beyond market costs due to digital profiles)

**We have been overrun by market demand and are raising a €3m seed to meet inbound**

## Inbound requests from >6 large retailers

- 1 LOI signed, verbal commitment from one of the largest toy retailers and further negotiations with retailers
- Additional inbound requests from distributors and toy producers

## >€55.000 pre-sales revenue in 2 months

- Successful crowdfunding campaign with €41.000 pre-sales in September / October
- After campaign, already >€15.000 addtl. pre-orders with minimal marketing expenses (5-10 orders / day over the past 5 weeks)

## Pre-orders from >20 Kindergartens

- Established Kindergarten collaborations in Munich
- Cooperation with Rotary and LMU to equip addtl. Kindergartens

## Kids improved literacy skills by 56% [1]

- Validation of efficacy of EDURINO's first product "literacy for preschoolers"
- Performance of kids in literacy test improved significantly over 6 weeks study

1. Study with 8 kids over 6 weeks; Literacy skills were tested before and after the study, between the tests the kids played EDURINO for 1-4x week

# EDURINO gets strong media attention...

# ... and is loved by parents and kids

> For the children, playing Mika is playing games, they do not distinguish at all between "learning content" and "just playing".
> *- Ann-Sophie, mother of 2*

> I am very impressed. The story and the characters are lovingly made, and I'm completely convinced by the cool product!
> *- Katharina, mother of 2*

> Hats off to the cool idea and detailed, beautiful realization!!!!
> *- Harald, father of 1*

# Focus 2022 to meet inbound demand and increase # of figurines and games

**Q3/ Q4 2021**

- Beta launch
- literacy for 4+ y/o in crowdfunding campaign
- >55.000€ pre-product revenue

**Q1 2022**

- Official online launch with 2 learning systems (literacy & numeracy for 4+ y/o)

**Q2 2022**

- Launch system 3 (Creativity for 4+ y/o)
- Develop system 4 (English)

**Q3 / Q4 2022**

- Official retail / 3rd party launch with 4 learning systems
- Develop learning system 5 & 6 (Our planet, my body)

**Q1 / Q2 2023**

- Standardization of advanced descriptive parent dashboard
- Increasingly better adaptivity based on # of observations

Pilot for advanced descriptive parent dashboard (step 2 of long-term vision)

## Accelerate growth

Production of 5-6 figurines and learning systems in 2022

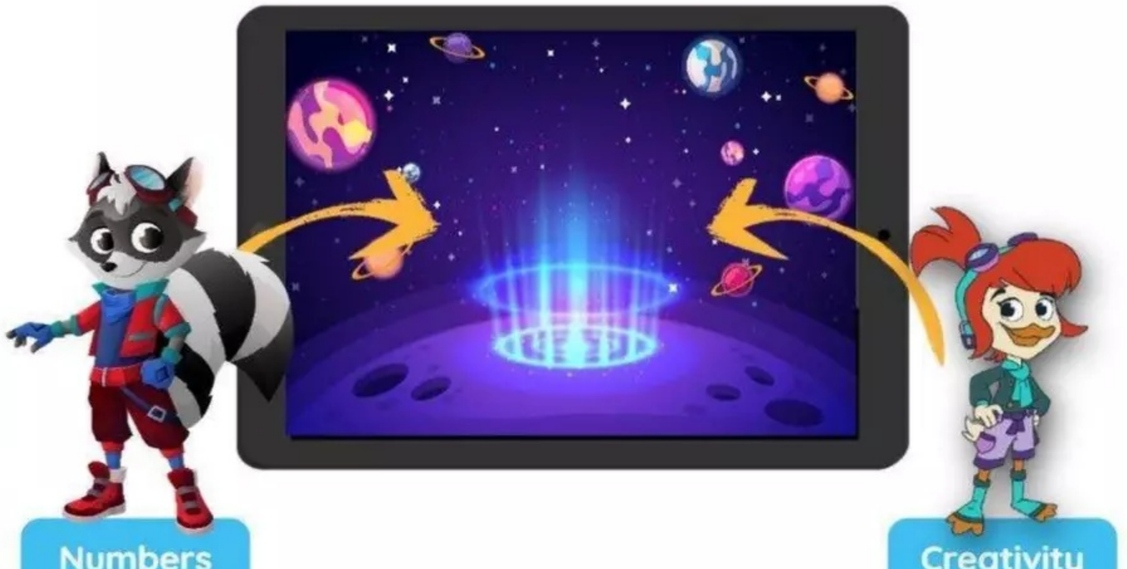

Retail inbound met with 4 learning systems in Q3 2022 for Christmas season

Start of advanced descriptive parent dashboard end of 2022

# Our business model is based on selling physical product components to unlock learning games

Literacy

Numbers

Creativity

## Starter kit & first figurine

- Stylus compatible with every character
- App comes complimentary to purchase
- Starter-set priced with €44,99

## Additional characters

- Each figure unlocks one additional game in which the character plays a main role
- Target is 7-12 additional characters per starter kit
- Figurines priced with €19,99 - €24,99

# EDURINO addresses a €31.8bn market with ~5% CAGR

## Toys market Europe

European toy market in 2020 with ~5% CAGR 2020-2026 [1]

## Educational & plastic toys

Share of educational and plastic toys. Educational toy market expected to grow at 14% CAGR 2021-2025 [2]

## Target market penetration 2026

6.9m children aged 4-7 in DACH, UK and Ireland with 10% market share in DACH and 7% in UK and Ireland [3]

1. Contains Card games, Construction Sets & Models, Dolls & Stuffed Toys, Plastic & Other Toys, Puzzles, Toys for Toddlers & Kids. Excludes Video Game Consoles with ~ €12.3bn revenue (year: 2020, region: Europe)
2. Global forecast driven mainly by increasing demand for smart and STEM toys (Source: Industry Research report "Global Educational Toys Market 2021-2025)
3. Based on one EDURINO Startersetand five additional figurines Source: Statista, European Commission, Eurostat, Euromonitor, Industry Research Report

# We are creating a new category for digital learning with a unique combination of app & physical product

## Contribution margin II to increase from 9% to 29% within first years

## Unit economics 2022 (in €)

## Unit economics 2024 (in €)

1. Assumptions: 2022 starter kit + 3 figures, 2024 starter kit + 6 figures

2. COGS increase mainly due to increase of retailer share and associated commission. Conservative calculation with each figurine sold and shipped individually. COGS include production costs, packaging costs, shipment costs, retailer (40%) & online commissions (15%)

# B2C market to be entered via online channels and conquered by a multi-channel approach

Online marketing for brand building and first sales

Starting 2021

B2B partnerships & collaborations

Starting 2021

Distribution via large retailers

Starting 2022
