Gibson Slash Appetite Les Paul

"Alright so this is the Appetite for Destruction Les Paul. Let's see, highlights on this guitar; is the Slash model Seymour Duncan Alnico Pros, which are made exactly like the original pickups that I used in the '80s, which, surprisingly enough, there is a pretty big difference in the way they were wrapped and also some of the material that is used has advanced over the years and these are like the originals. Old style speed knobs. Tune-o-matic bridge, or saddle rather. And it's got old fashioned capacitors, were actually a little hard to find in this thing. And the jumbo frets. And it's basically just set up exactly like my original was. And that's basically it."
