

EVISORT

Intelligent Contract Management

2021 Overview

Current Contract Operations Are Highly Manual, Risky, and Expensive

Pre-signing

Intake
Requests come through email, get lost in inboxes, can't track progress

Drafting
Manually drafted from Word templates, ad hoc, without negotiating leverage

Negotiation
Completely ad hoc, to the whim of lawyers, not standardized, takes forever

Approval
Manually chasing people down via email to get their approval, non-linear, redundant work

Contract signing

Post-signing

Disconnected Silos Lead To:

- Missed Vendor Renewals
- Mismanaged Sales Contracts
- Outdated Agreements
- Inaccurate Accounting

EVISORT

Current Contract Operations Are Highly Manual, Risky, and Expensive with Multiple Systems

This slows down deals and provides no transparency to the process

Mismanagement of contracts drive costly mistakes and missed opportunities

CONFIDENTIAL DOCUMENT

A 5th System of Engagement in Business Contract Management

CRM	ERP	HCM	Finance/ Accounting
salesforce	SAP Ariba ORACLE	workday.	NETSUITE coupa

CLM could unify documentation across the 4 other systems

Legal Tech is a Quickly Growing, New, Massive Market

Enterprise content management

$49B

CAGR 16.5%

DocuSign

Market Cap

$41B

80%

of companies yet to adopt CLM system

80% of Companies Do Not Have a CLM Because Traditional Solutions Fall Short

Gen 1 Legacy	
Overview	Heavy, pro services, > 1 year implementation, >7 fig ACV, low NPS
Segment Focus	Fortune 100
End to End?	Yes
Manual Data Entry Required?	Yes

Gen 2 SaaS	
Overview	Lightweight, workflow focused, point solutions
Segment Focus	SMB/Mid-Market
End to End?	No
Manual Data Entry Required?	Yes

The Contract Lifecycle Management (CLM) Industry Needs to be Completely Redefined

EVISORT

Evisort's No-Code, AI Platform Redefines The CLM Category

Evisort Creates a Very Compelling "AHA" Moment

Centralizes data
across different systems

Automatically extracts key
data from contracts

Deep, contextual insights
available across org

230+ Document Types

50+ Provisions, Clauses & Metadata

We Do What Enterprises Actually Want

1

Fast implementation and quick time to value

(weeks, not months, and no heavy professional services)

2

AI to automate manual data entry and remove expensive human review

3

Configurable end-to-end workflow to minimize need for multiple tools/integration
