exakt health

Physical Therapy **Reengineered**

Problem

The low-tech onsite treatment of MSK* conditions is outdated.

Patients are frustrated

Shortage of skilled physios

Spending is increasing

*Leading musculoskeletal (MSK) conditions include chronic joint pain, back or neck pain and sports injuries.

Patients pay ~40% of physiotherapy costs out-of-pocket*

Total yearly spending on physiotherapy services

*Reference numbers from German market: 20% of population sees physio at least once a year, costing ~600€ on avg per year. Source: VR 2020 report

Mission

Using technology, we make best-in-class physiotherapy accessible to everyone, anywhere.

Solution

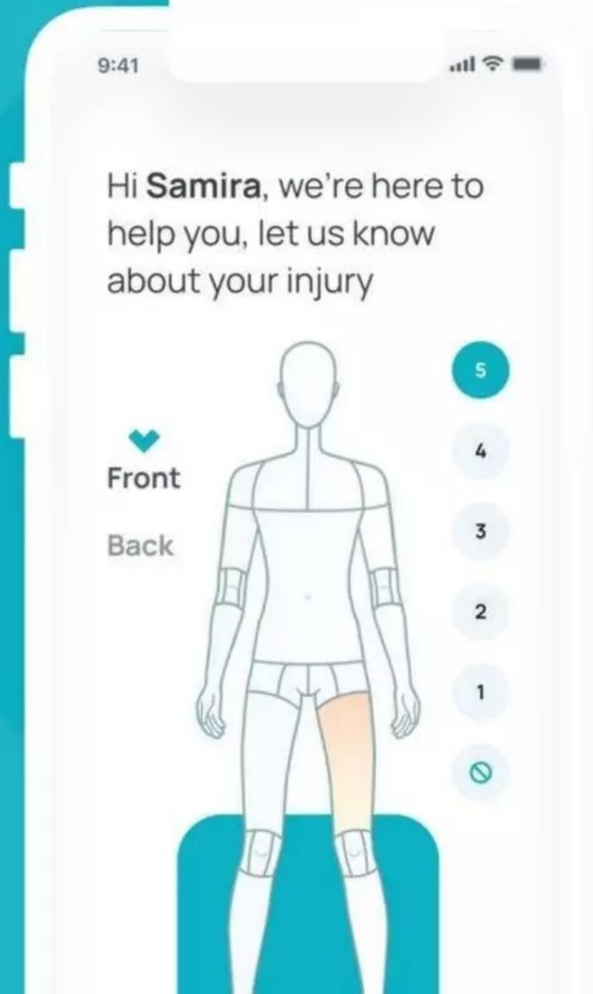

Building a digital-first MSK care provider step by step

	1 Exakt Core	2 Exakt Virtual	3 Exakt Hybrid
Typical MSK condition	**Hamstring strain, runner's knee**	**Chronic back pain**	**Torn ACL, bone fractures**
Diagnosis via Symptom Checker	•	•	•
Digital therapy	•	•	•
Motion tracking	•	•	•
Telehealth consultation		•	•
Onsite assessment			•
Complementary onsite treatment			•

Solution

Exakt Symptom Checker

Get a trustworthy diagnosis of your symptoms within minutes

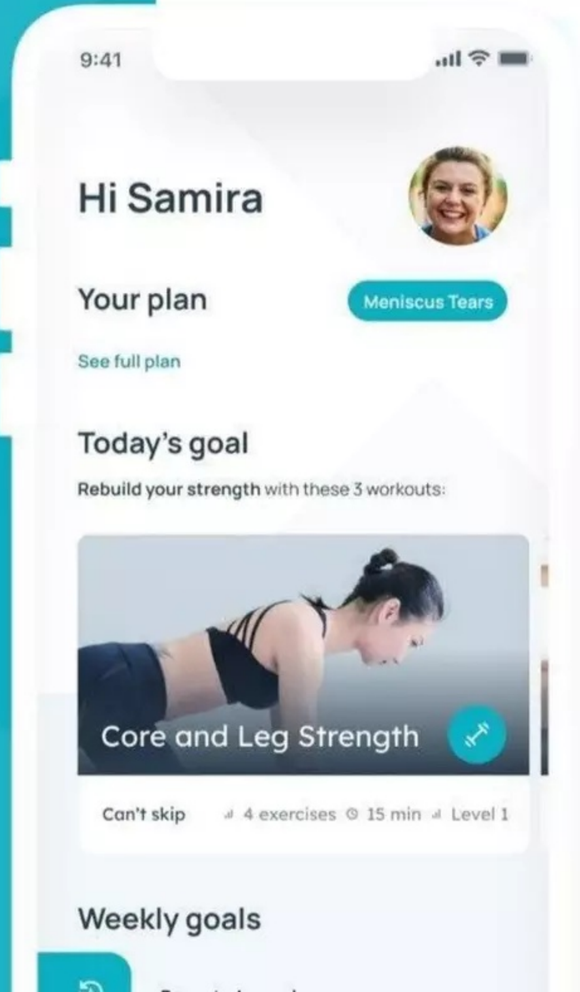

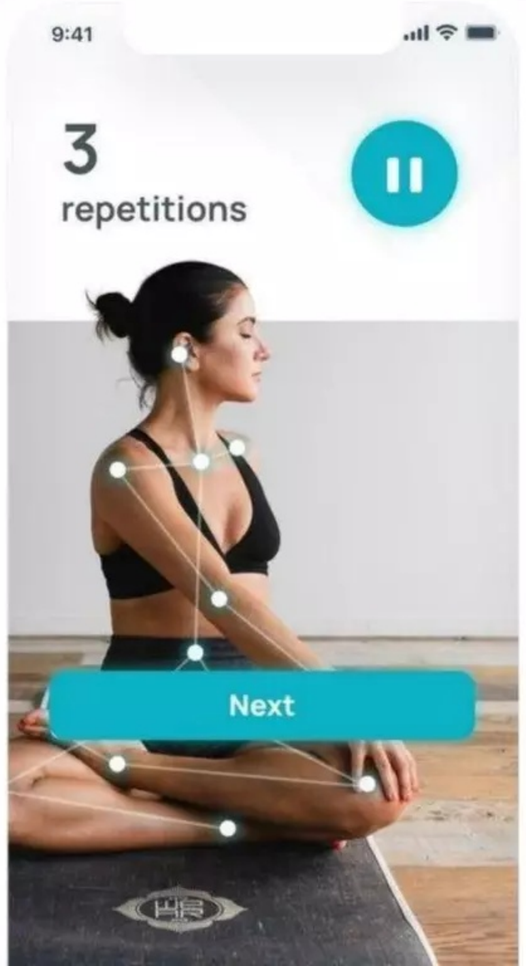

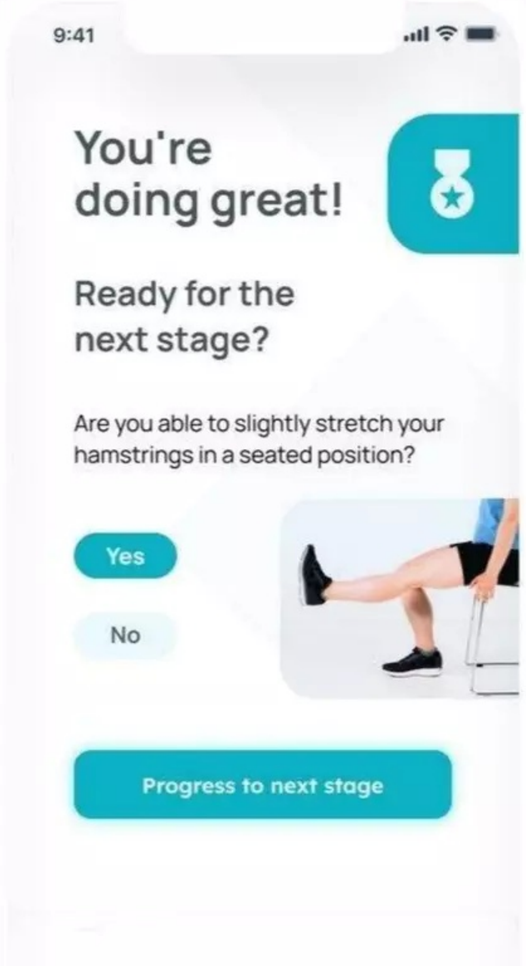

Solution

Exakt Core

Users can start their treatment right away with our digital MSK therapy plans

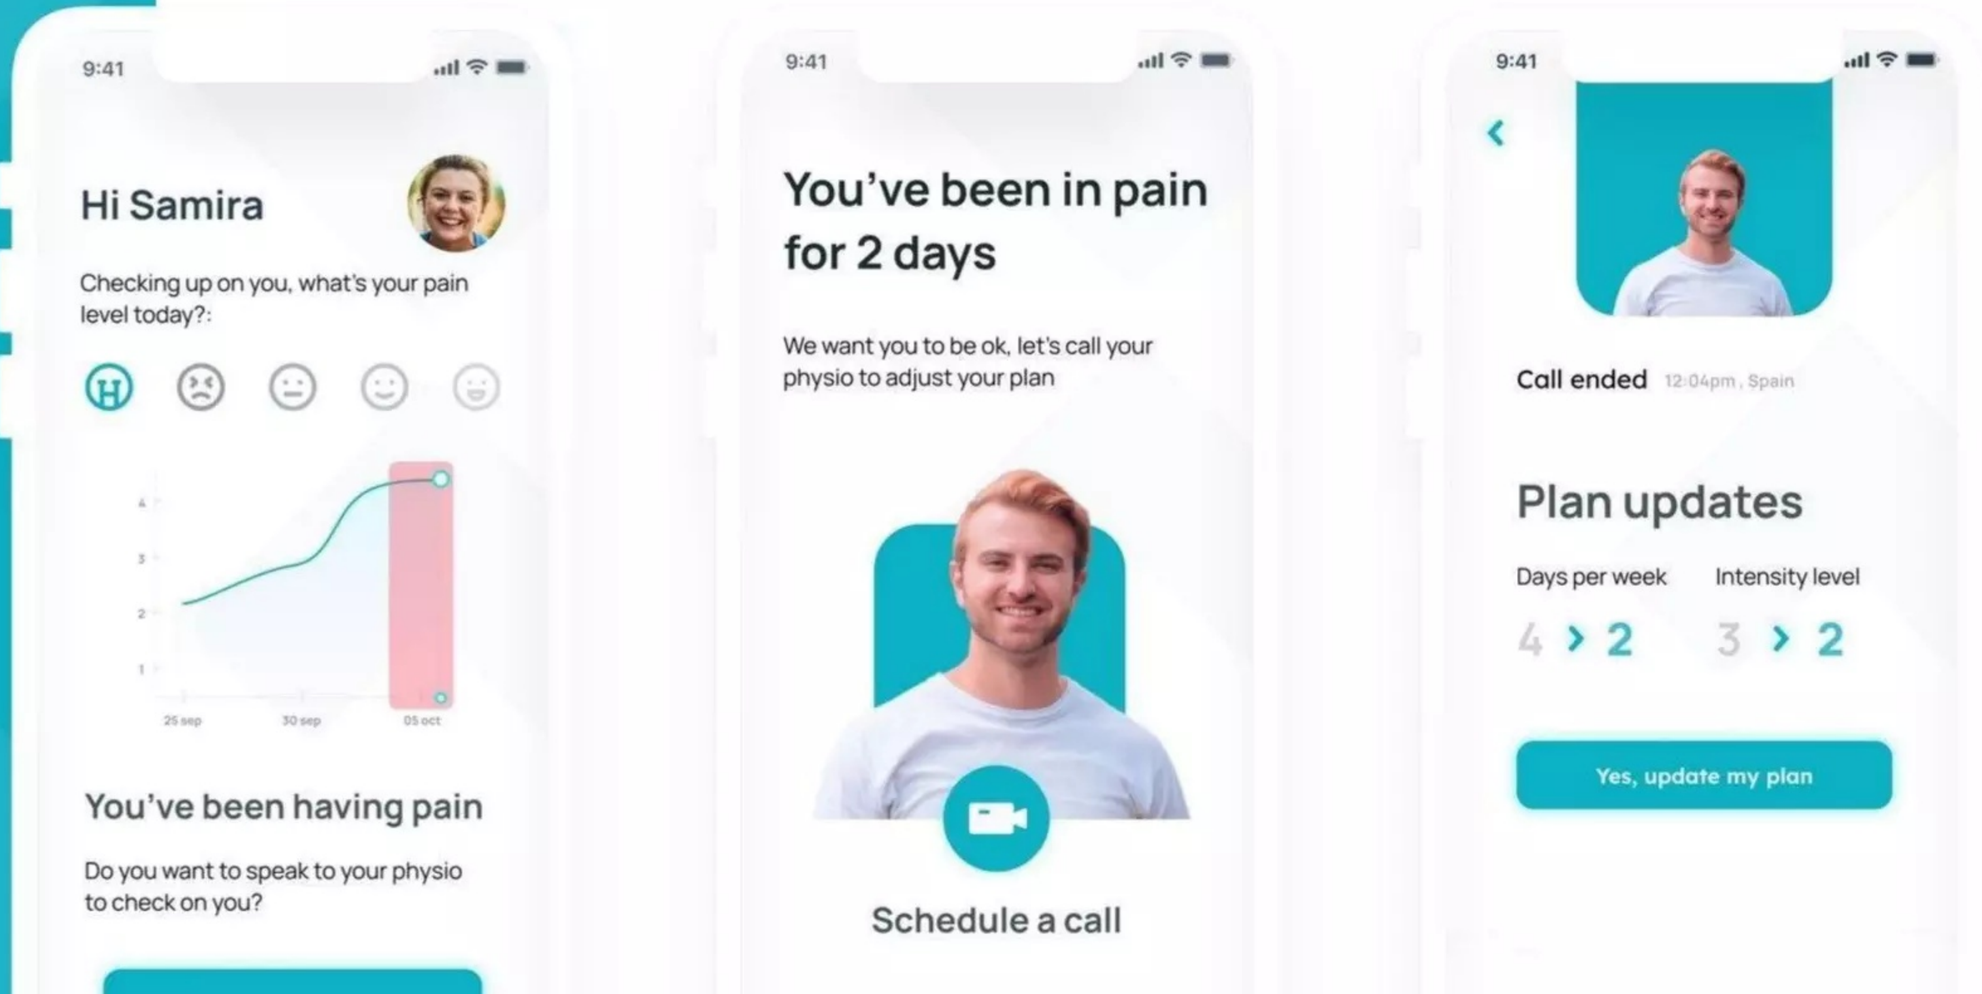

Solution

Exakt Virtual

Introduces **telehealth** to expand our services to more patients and more use cases

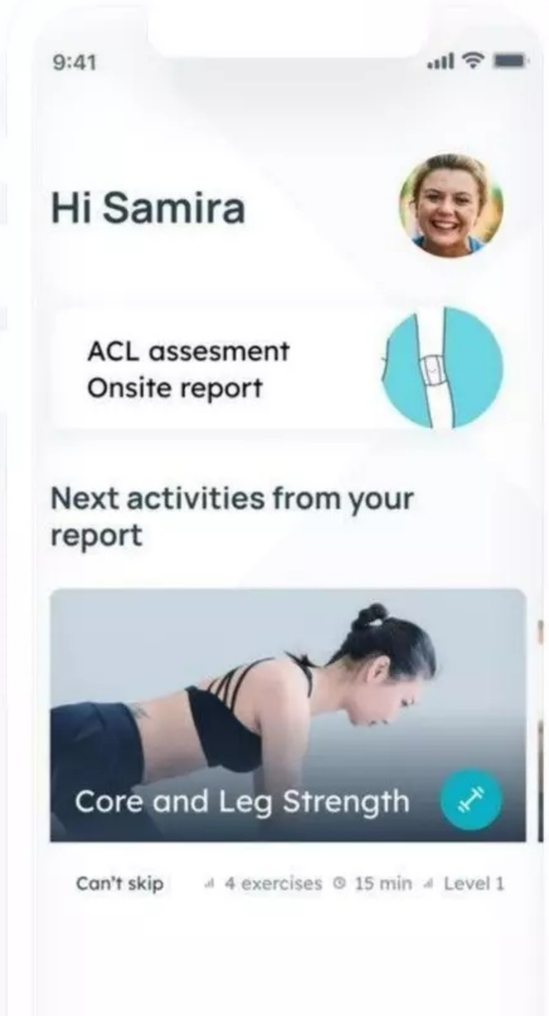

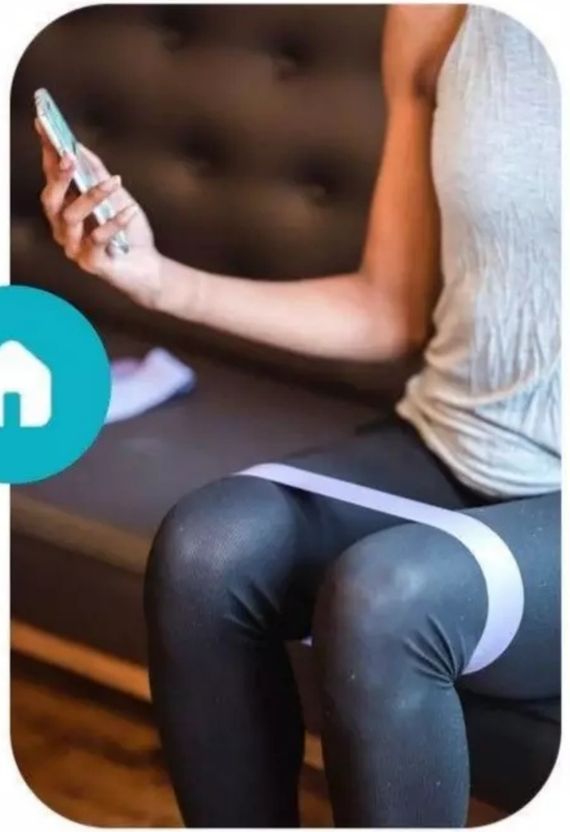

Solution

Exakt Hybrid

We're integrating special and onsite care into our services

Fast market entry with our Exakt Core product in a D2C strategy

- Scalable and cost efficient core product
- Market entry via D2C freemium model
- Fast user growth & international expansion

* 19€ monthly subscription; 6 months retention

Unlocking high margins and organic growth

by integrating into local healthcare systems

- New patient journey: prescription by medical professionals
- Integration into local reimbursement models for **B2B2C revenues**
- Upselling of Exakt Core users to capture higher willingness to pay

* Initial 3-months prescription 250€ + follow-up prescription 140€

Team

We are determined to transform MSK patient care and help people lead an active lifestyle

Traction

Users already love our very first product

and we're only getting started

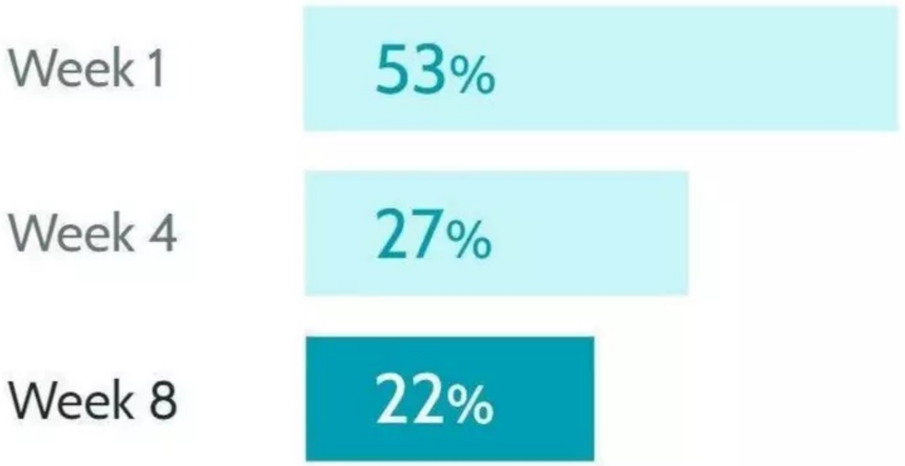

I'd just like to say, I've had a read through and this is the single one thing I've been looking for, for the last two years to aid with my recovery. It's so user friendly and I appreciate all the tips and videos as I'm a visual learner. [...]. Many many thanks

Georgie

Metrics

Retention metrics validate our digital therapy

User retention*

*User retention: % of first-time active users still active after X weeks.
First time active: first App login after first install session. As of 1st Nov.
**MAU: Users that logged in at least once in a given month

Ready to scale

Milestones

Operating on a very lean budget,

we've launched and validated our MVP

Jan

Exakt Health founded

Mar

$0.5M pre-seed financing round

May

Beta launch and European certification as medical device

Aug

Public MVP launch and start of pre-clinical pilot study

Oct

Validation of MVP and positive clinical benefits

Outlook

We’re ready

to accelerate our development into the next phase with a Seed investment

- Therapy plans for 20+ MSK conditions
- Monetisation of Exakt Core
- Expansion to US & India
- Launch Exakt Virtual
- Integrate into 2+ local reimbursement schemes
- Open first onsite Exakt physio clinic

Let’s talk
