ForgeRock

Digital Business Needs **Digital Identity**

Everything Must Be Connected

Consumers, employees, and partners demand access through any device from anywhere, anytime.

Delightful Experiences are Expected

Customers, employees, and partners expect a personalized experience across all channels.

Secure Interactions are Non-Negotiable

Cyber threats are at an all-time-high, with no sign of relenting.

Data Privacy is Required

Consumers and employees demand control over their privacy. If you don't provide it, they'll go elsewhere.

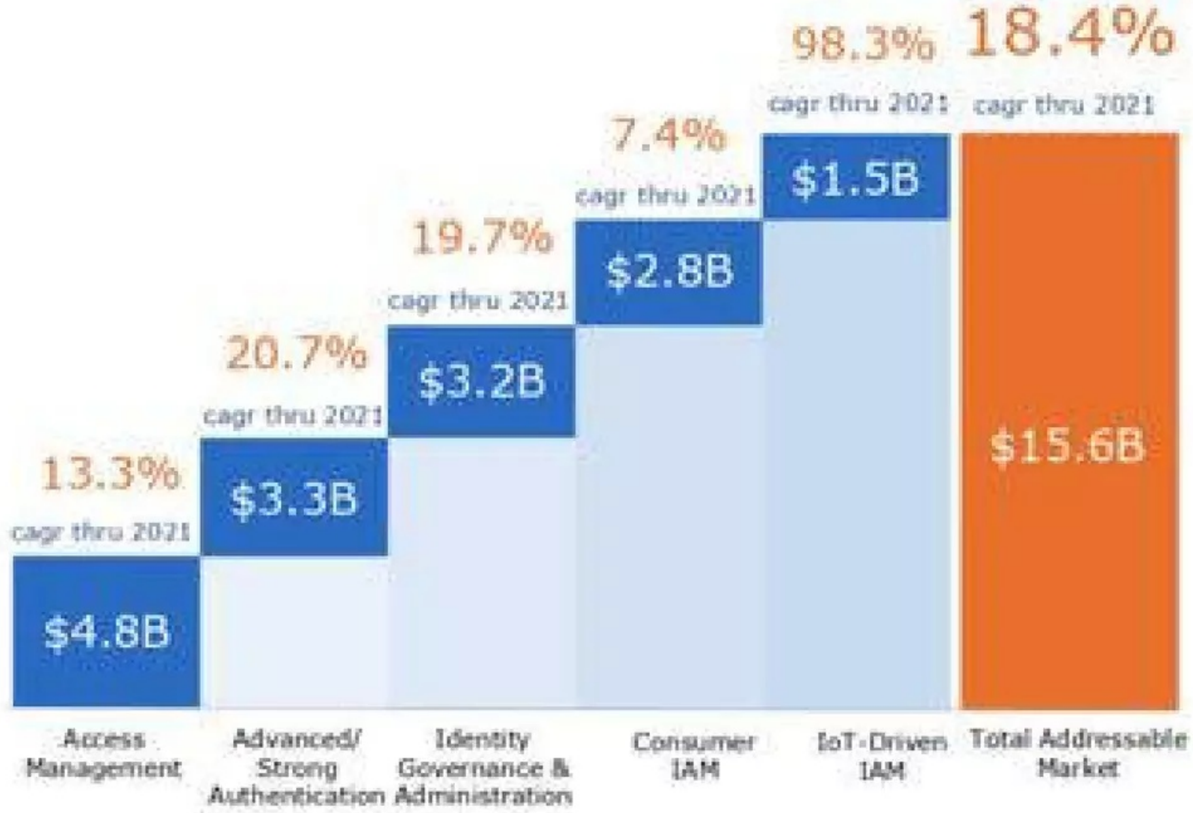

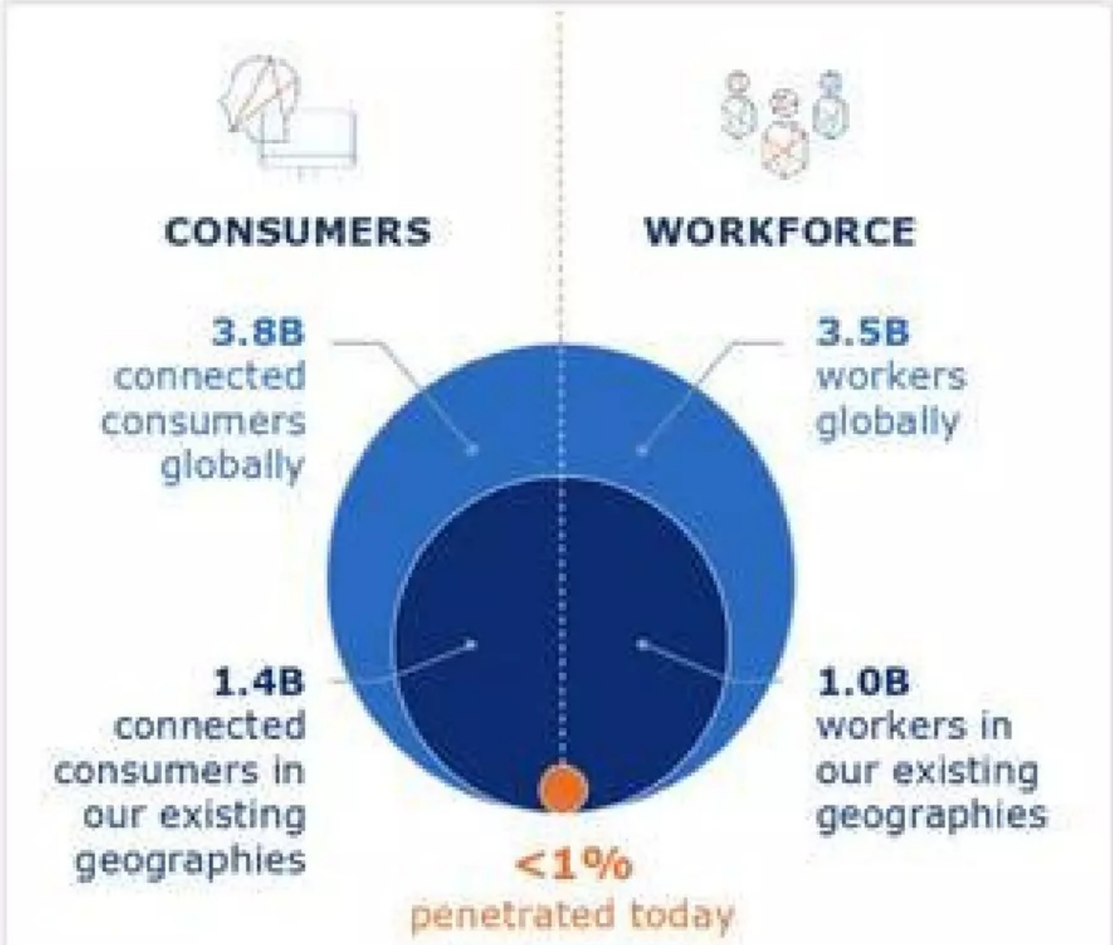

Regulatory Compliance is a Must

Sweeping regulations such as GDPR and PSDII are on the rise, with more expected to follow.

The 3rd Wave of Identity

ForgeRock positioned as the clear leader to capture the majority of the existing ~$3-$5B Wave #1 market share

Wave #1

Establishment of initial identity solutions for workforce and consumers

Legacy providers and home grown solutions

1995-2010
Adoption of comprehensive, yet inflexible, solutions

Wave #2

Enterprise adoption of SaaS applications require IT organizations to obtain a point solution to provide single sign-on

Point solution providers

2010-2020
SaaS application adoption drives need for SSO

Wave #3

Every company becomes a digital company. Identity is the core of that experience, so enterprises replace homegrown, legacy and point solutions

ForgeRock

2020 and beyond
Identity Experience takes priority and Identity of Things becomes critical

ForgeRock

Game Changing Innovation

New products and future vision has increased competitiveness

NextGen AI-driven Autonomous Identity

Identity Governance

ForgeRock Identity Cloud PaaS

ZeroTouch SDKs

Any Identity,
Any Cloud, At Scale

On-Premises

Public Cloud

Hybrid- and Multi-Cloud

ForgeRock Identity Cloud

Trust Network
