Data Marketplace

The Fyllo Data Marketplace is the world's first and largest cannabis-endemic data marketplace, providing access to unique, premium quality audience data for digital advertising. It combines previously inaccessible, untapped audience data cultivated from leading cannabis companies with non-endemic audience data, creating millions of consumer profiles in iconic, everyday categories.

Marketers can now access Fyllo Cannabis Derived Audiences to enrich segmentation and enhance audience targeting throughout the purchase funnel.

Fyllo Data Marketplace data is accessible through some of the top platforms, portals and trading desks in the world.

Cannabis Endemic Audiences

Reach known THC, CBD and hemp customers

Cannabis Infused Audiences

Enrich non-endemic audience data and expose new customers

Fyllo™

Data Marketplace: Taxonomy

Endemic data

- **Product Type**
  e.g. CBD, THC, Hemp
- **Consumer type**
  e.g. Medical, Recreation

- **Location**
  e.g. Retail stores, Gyms
- **Age**
  e.g. 25-34
- **Gender**
  e.g. Female

Fyllo™

Data Marketplace: use cases

	Endemic Brands			Traditional Brands		
Use case	**Product Promo**	**Cross-Sell**	**Foot Traffic**	**Brand Awareness**	**Product Launch**	**Seasonal Promo**
Objective	Drive awareness of a CBD vitamin product	Convert THC customers into CBD customers	Drive footfall to local dispensaries	Increase awareness of organic skincare lines	Increase awareness of a new craft beer	Drive online sales of a summer promotion
Cannabis Endemic Segments	Target specific CBD extract purchasers	Target flower purchasers with edible snacks	Target frequent local dispensary visitors	Target CBD beauty serum purchasers	Target organic CBD edibles purchasers	Target Sativa purchasers who prefer to stay active
Cannabis Infused Segments	Target vitamin shoppers who are interested in holistic health trends	Target evening wine drinkers with a new way to relax after work	Target canna-curious travelers who plan to vacation nearby	Convert organic CBD skincare users into non-cannabis products	Attract progressive beer drinkers by overlaying THC edibles purchasers	Identify nature lovers by overlaying pre-roll flower purchasers

Regulatory Database

CannaRegs is an intelligent regulatory database that aggregates and organizes federal, state and local cannabis research, with more than 4,000 sources across 1,300 jurisdictions in 15 states.

Powerful search
Perform advanced multivariate, multi-jurisdictional searches using cannabis specific filters to focus results and reduce extraneous noise. Surface hidden, hard-to-find cannabis intel that's often overlooked by other research platforms and methods.

Advanced tracking
Continuous monitoring at the federal, state and local level. Advanced calendar views that help you follow policy from start to finish.

Fyllo™

Media Activation

Navigating the digital advertising landscape can be challenging. Add the complexity of cannabis regulation and it can be downright overwhelming. From defining audience segments through developing a campaign strategy and executing it across markets and channels, Fyllo specialists help ambitious marketers engage customers and grow businesses in highly regulated industries.

World class team
Experienced planners and operators from leading technology platforms

Extensive reach
Access to top publishers across all IAB categories - Food & Drink, Health & Wellness, Shopping, Travel and Fashion.

Compliance Automation

Fyllo Compliance Recognition Technology™ removes the complexities of creative compliance, saving marketing, operations and legal teams hours of review and reducing the chances for human error.

Fyllo compliance technology combines AI, image recognition and natural language processing to analyze copy and imagery, detecting content that is non–compliant based on jurisdictional regulations and publisher policies.

In seconds, get detailed compliance summaries that shows what's working and what's not across key jurisdictions and publishers along with recommendations to increase compliance and acceptance rates.
