A substantial shift in the balance of personal data is happening

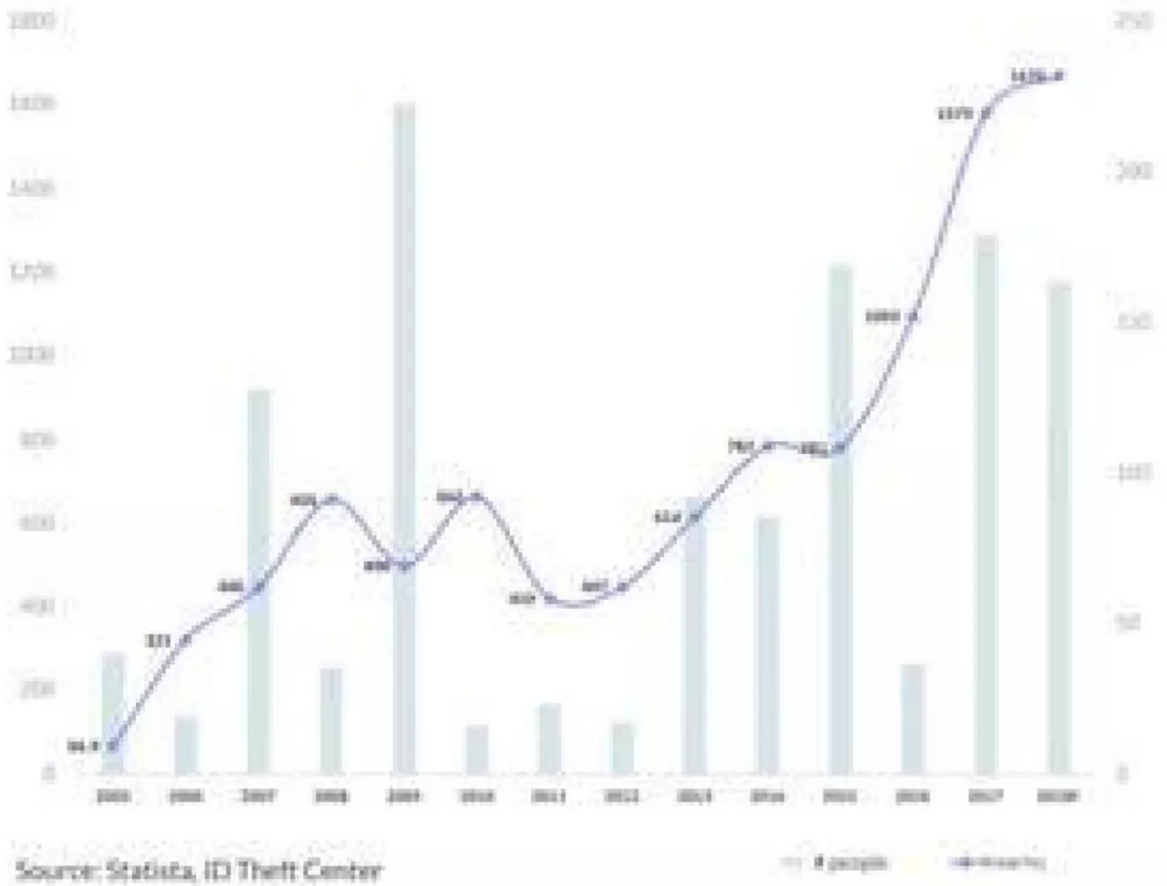

It's not a matter of IF but WHEN: Consumers must be proactive to protect their data

COMPANIES ARE FAILING TO PROTECT OUR DATA AND PRIVACY

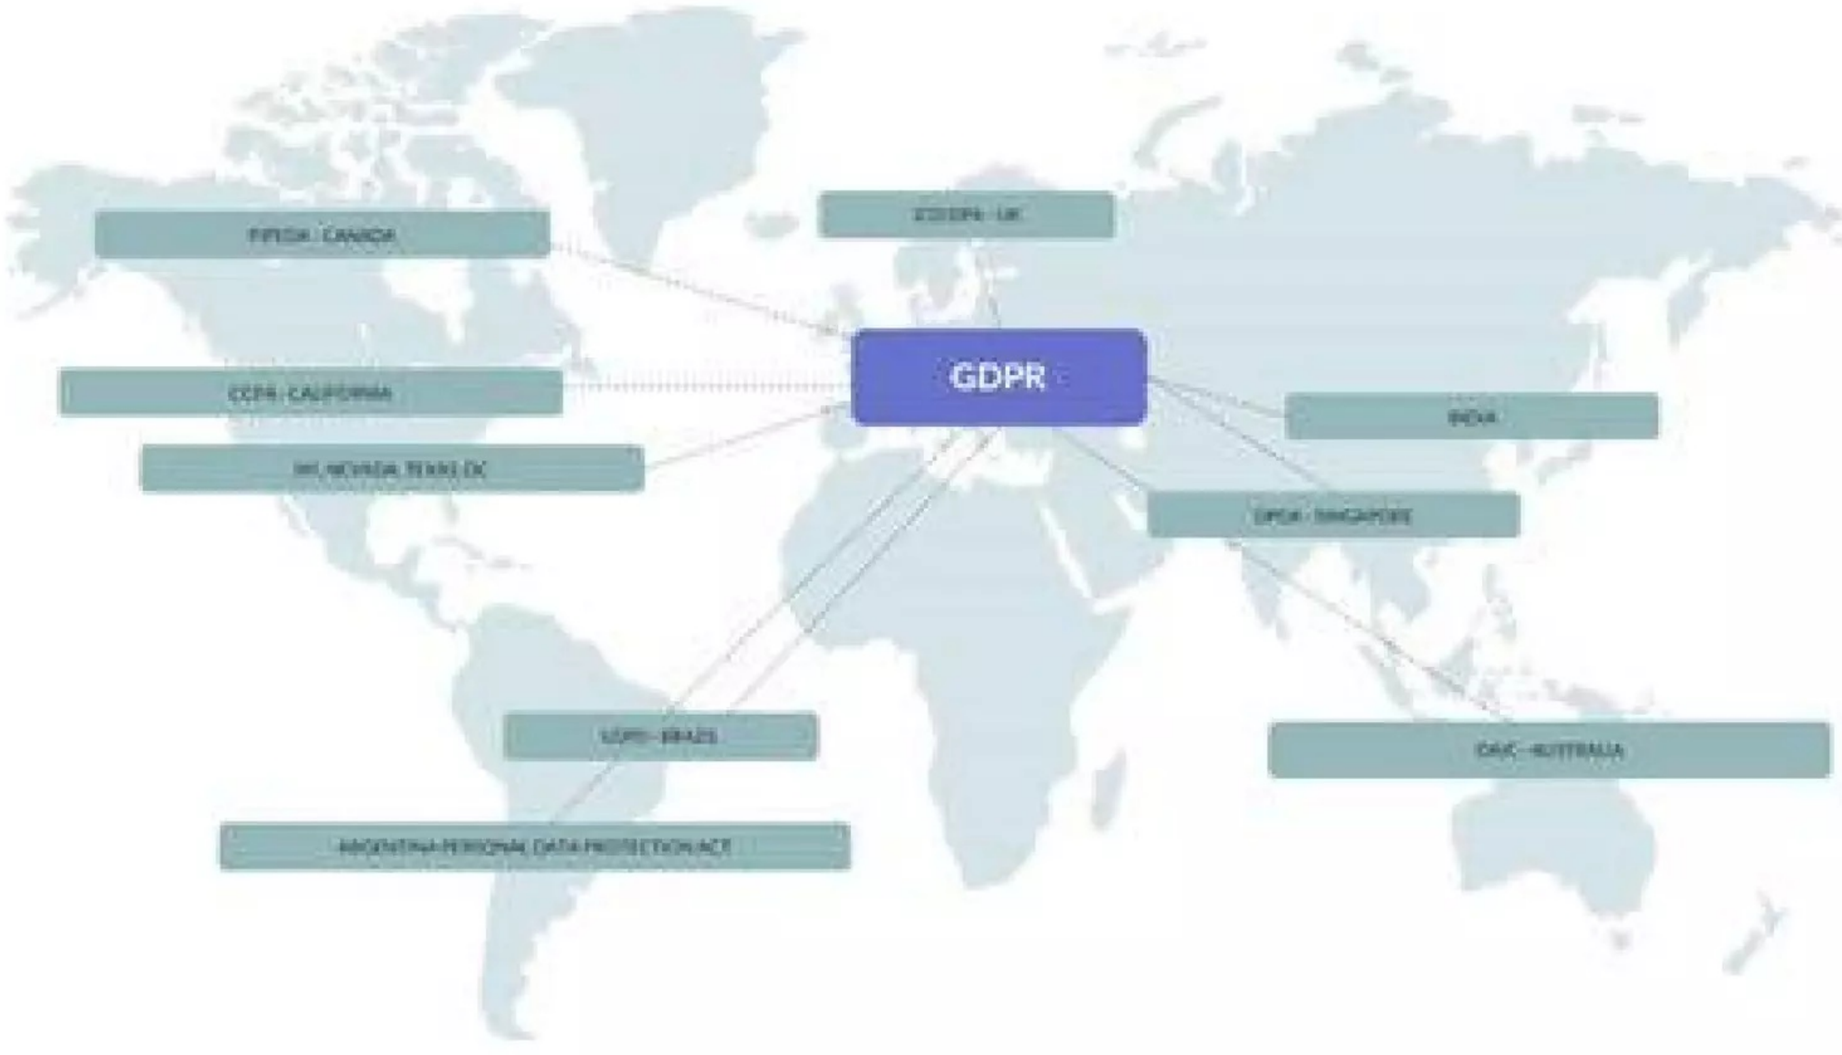

OF US CITIZENS AFFECTED BY A SERIOUS DATA BREACH

"A breach is defined as an event in which an individual's name plus Social Security Number (SSN), driver's license number, medical record, or a financial record/credit/debit card was exposed. Over 1B such records were exposed in the US alone with over 160M SSNs exposed." (Breach)

There's a strong and spreading privacy regulatory tailwind on our side

HOW MANY COMPANIES HOLD YOUR PERSONAL DATA?

Mine®

Mine is a smart data assistant, enabling digital users to discover and manage their personal data online.

Our mission is to help people worldwide to reduce their unnecessary online exposure and minimize potential risks. **Keep your data, only where you need it.**

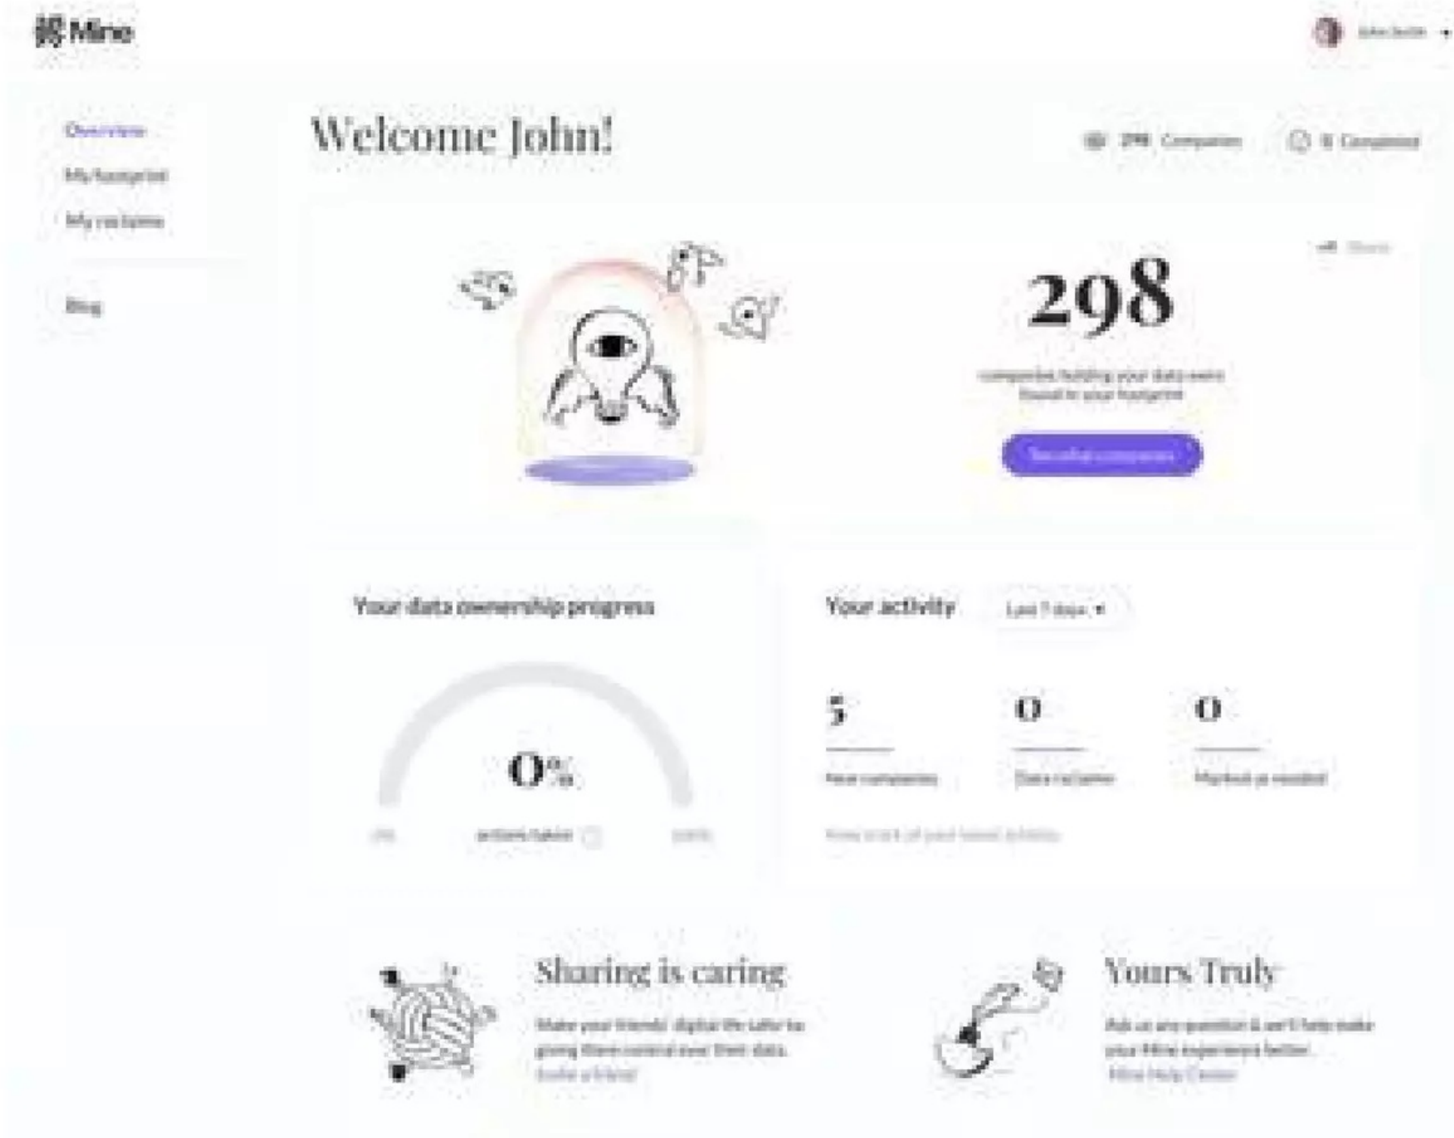

Product overview #1 – How am I doing?

Take a closer look

Easily understand your data's exposure level, how many companies hold your personal data, and what type of data they hold about you.

Product overview #2 – My digital footprint

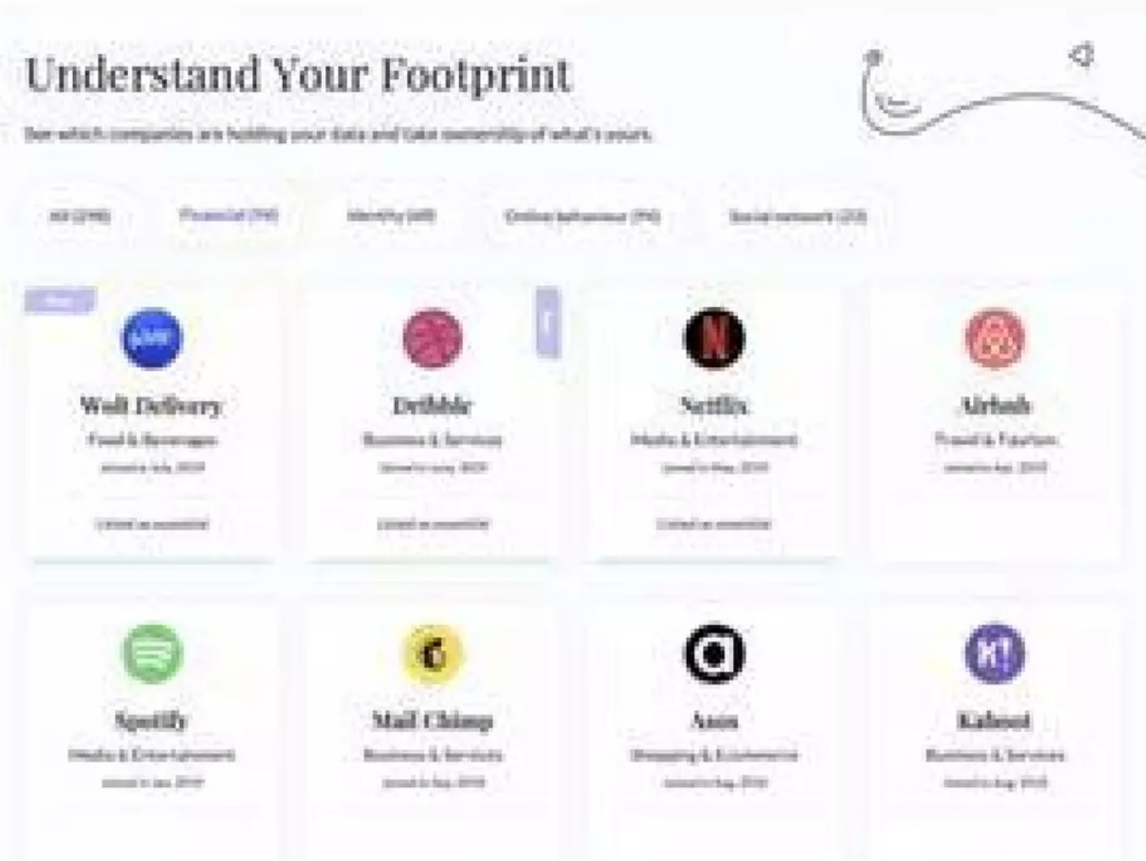

Discover Your Digital Footprint

Identify all the companies you've interacted with through your email to find services that have most likely collected your data.

We're only processing email subject lines, excluding the email content and the user sensitive data

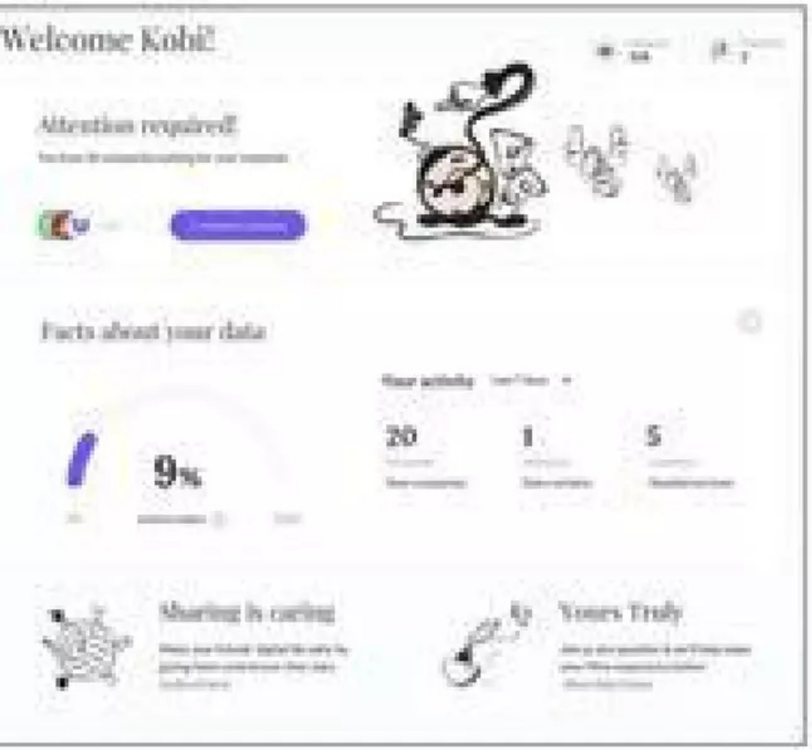

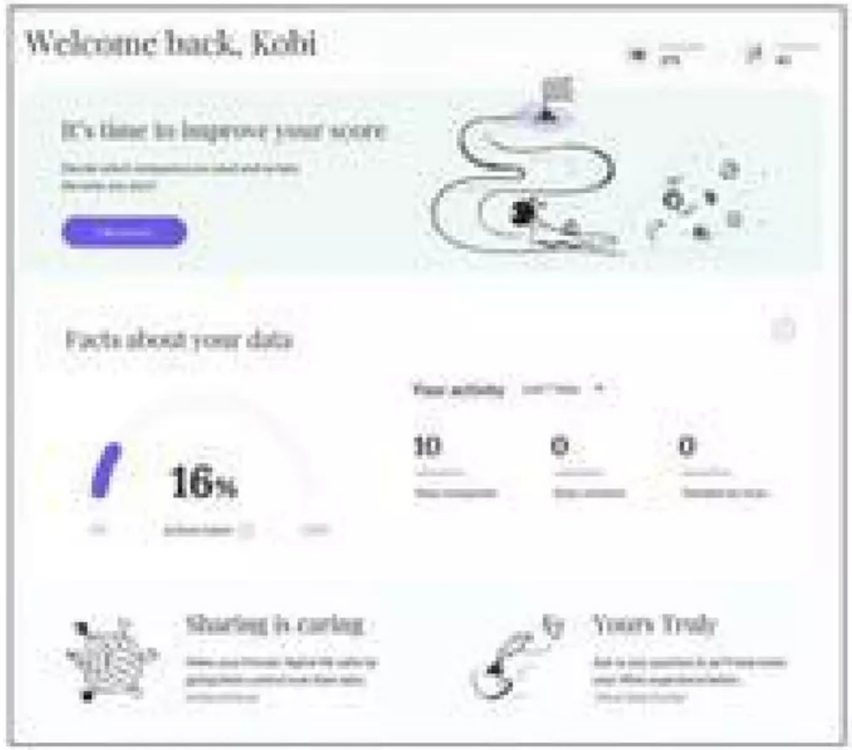

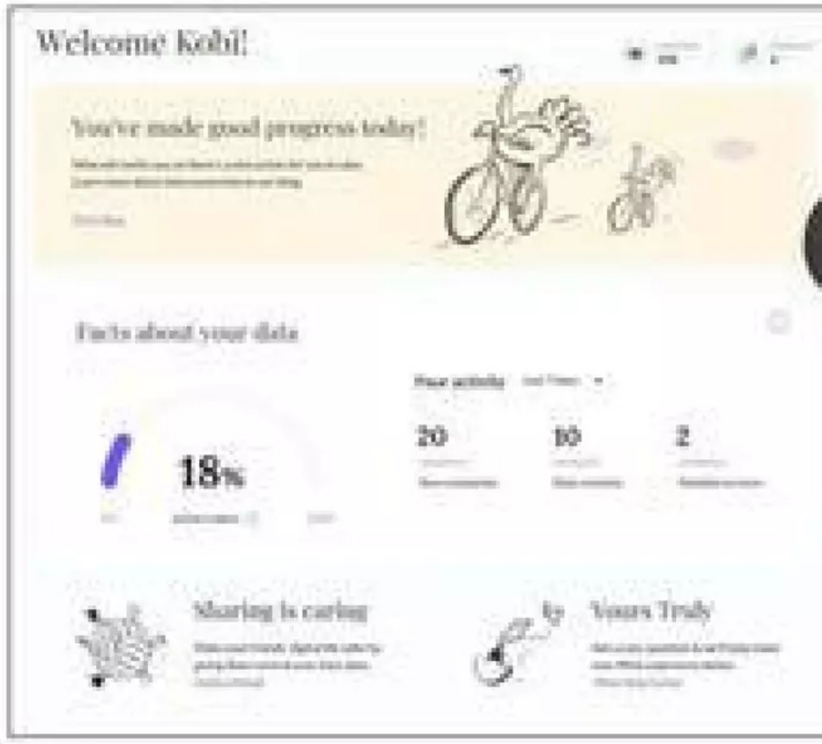

Product overview –Tailored journey to each user

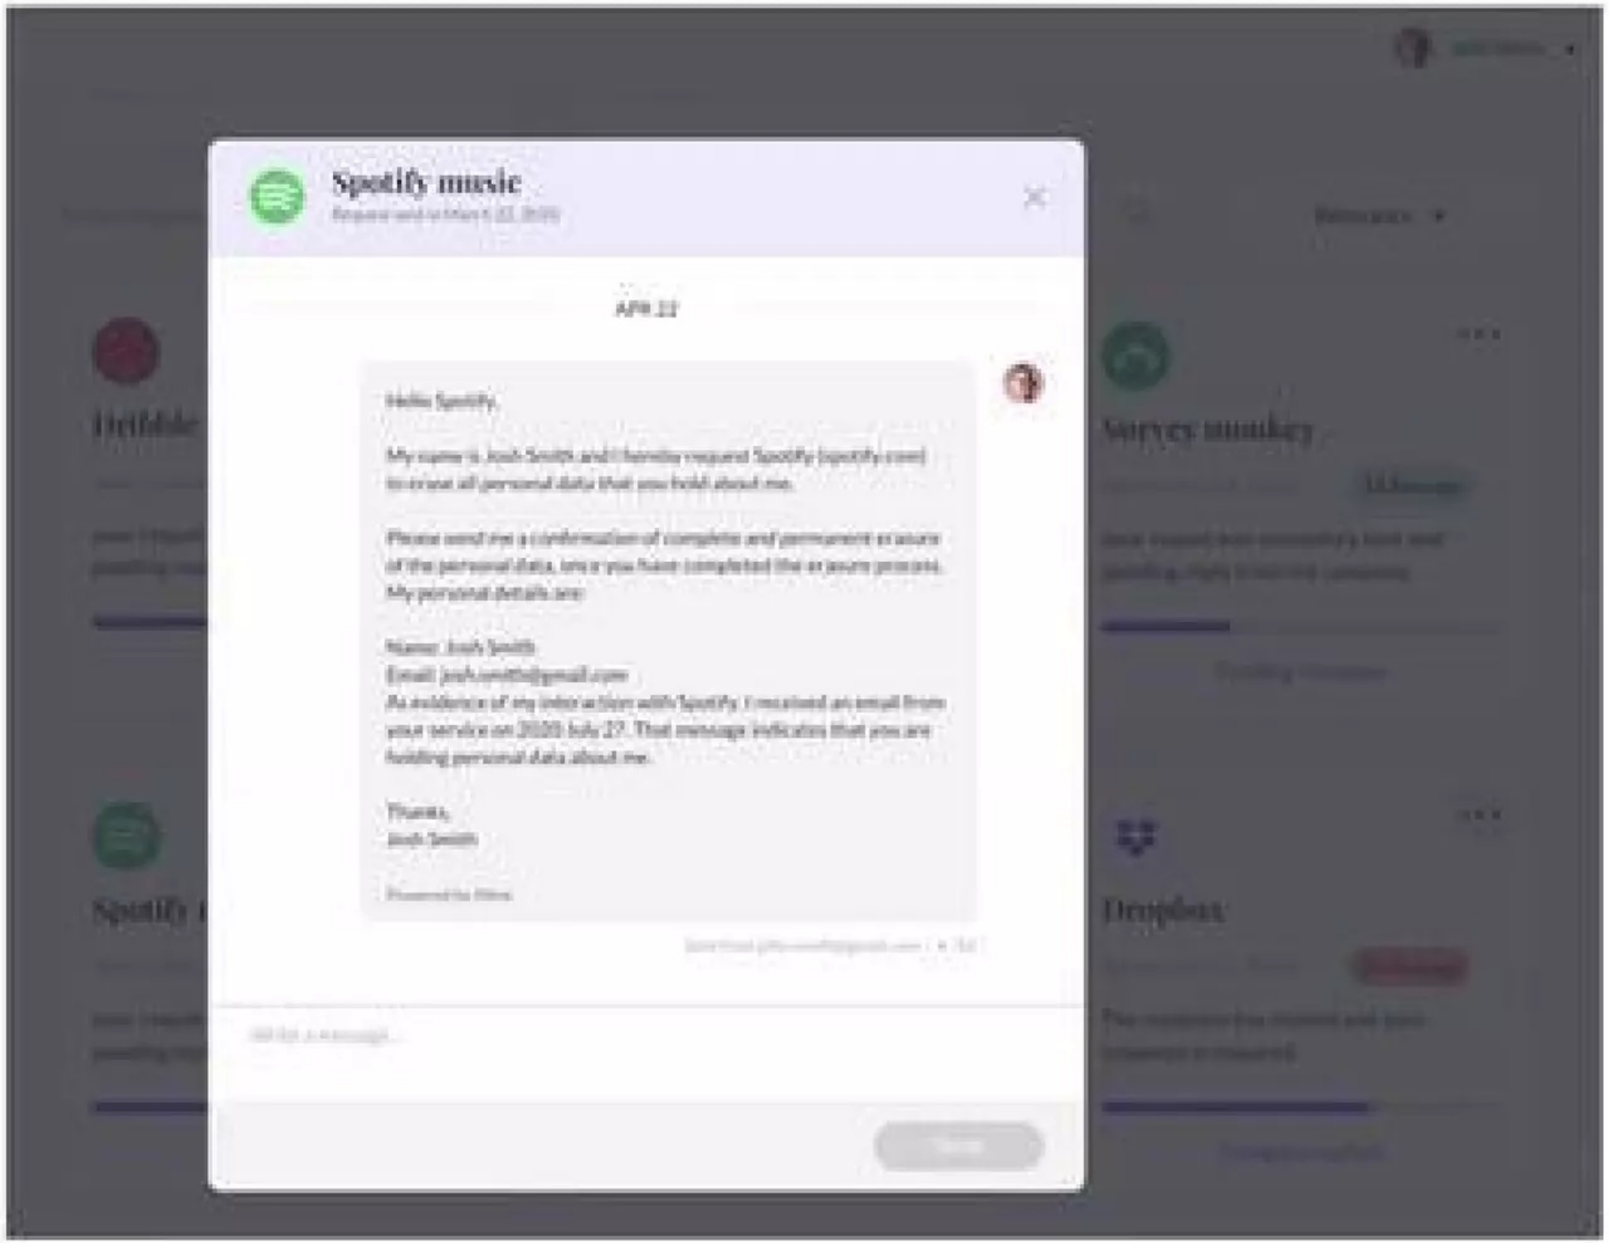

Weekly tasks and recommendations to improve one's digital exposure score

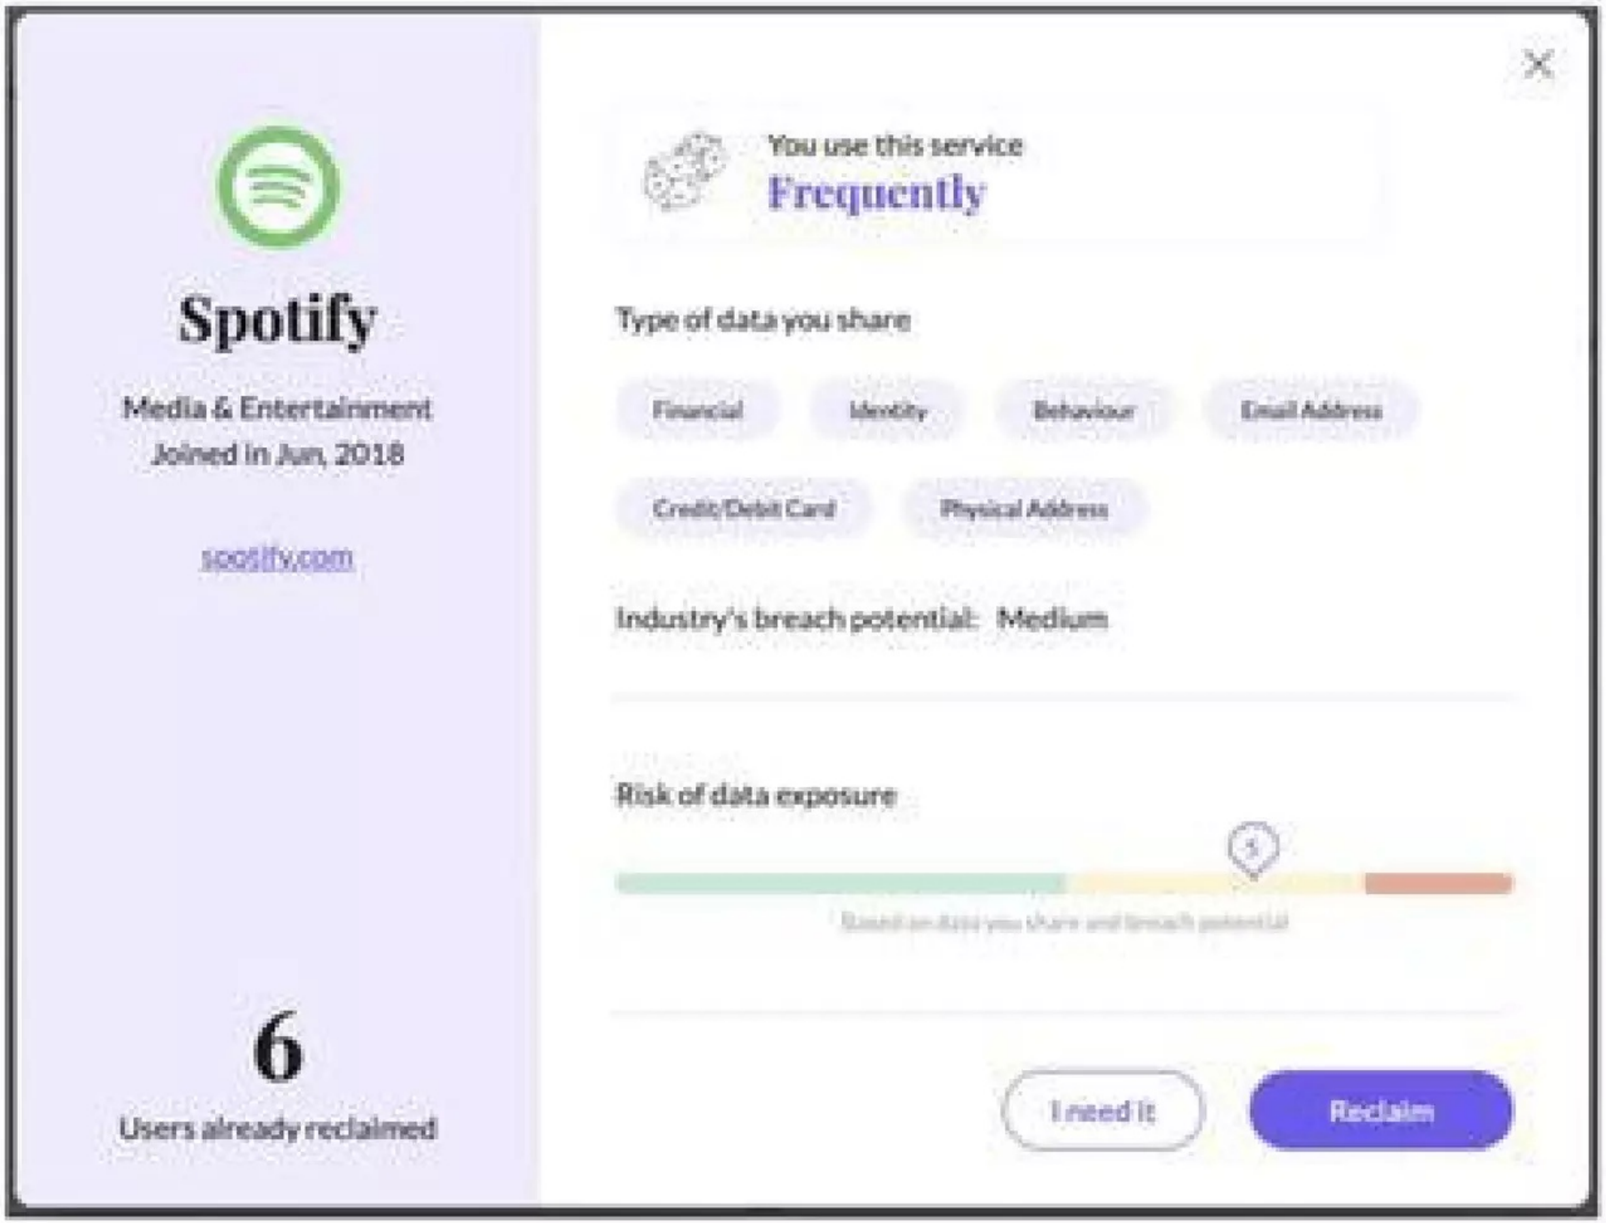

Product overview #3 – User-Company in-app communication

Product overview # 4– Additional risk-context per company

Our tech and product moat

Calculating the individual risk profile and exposure level based on proprietary machine learning and NLP algorithms.

Individual Risk Score

Footprint Continuous Discovery

Value Level Score (VLS)

Privacy Policy Analysis

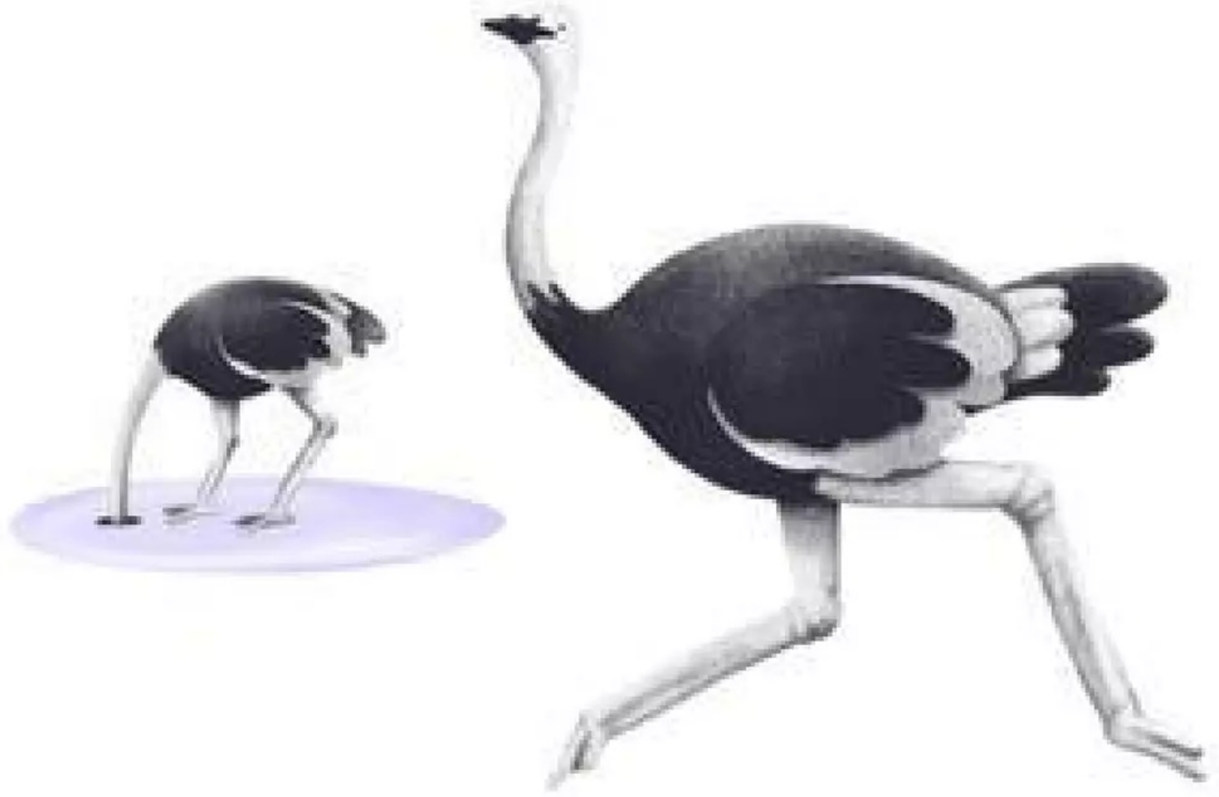

Fits the mainstream user, not only tech-savvy or cybersecurity/privacy experts

No behavior change is needed on the user side - fits daily life
