Why Now?

Production use at major accounts

redacted

Accounts
Total Users
Live Applications

Off-the-charts user growth

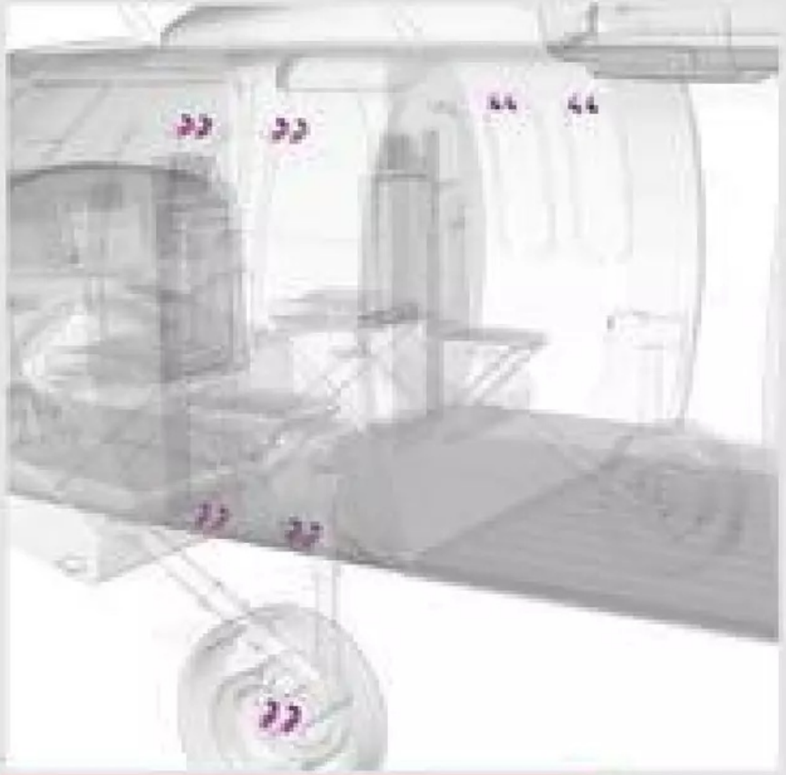

>40% Monthly User Growth in 2020

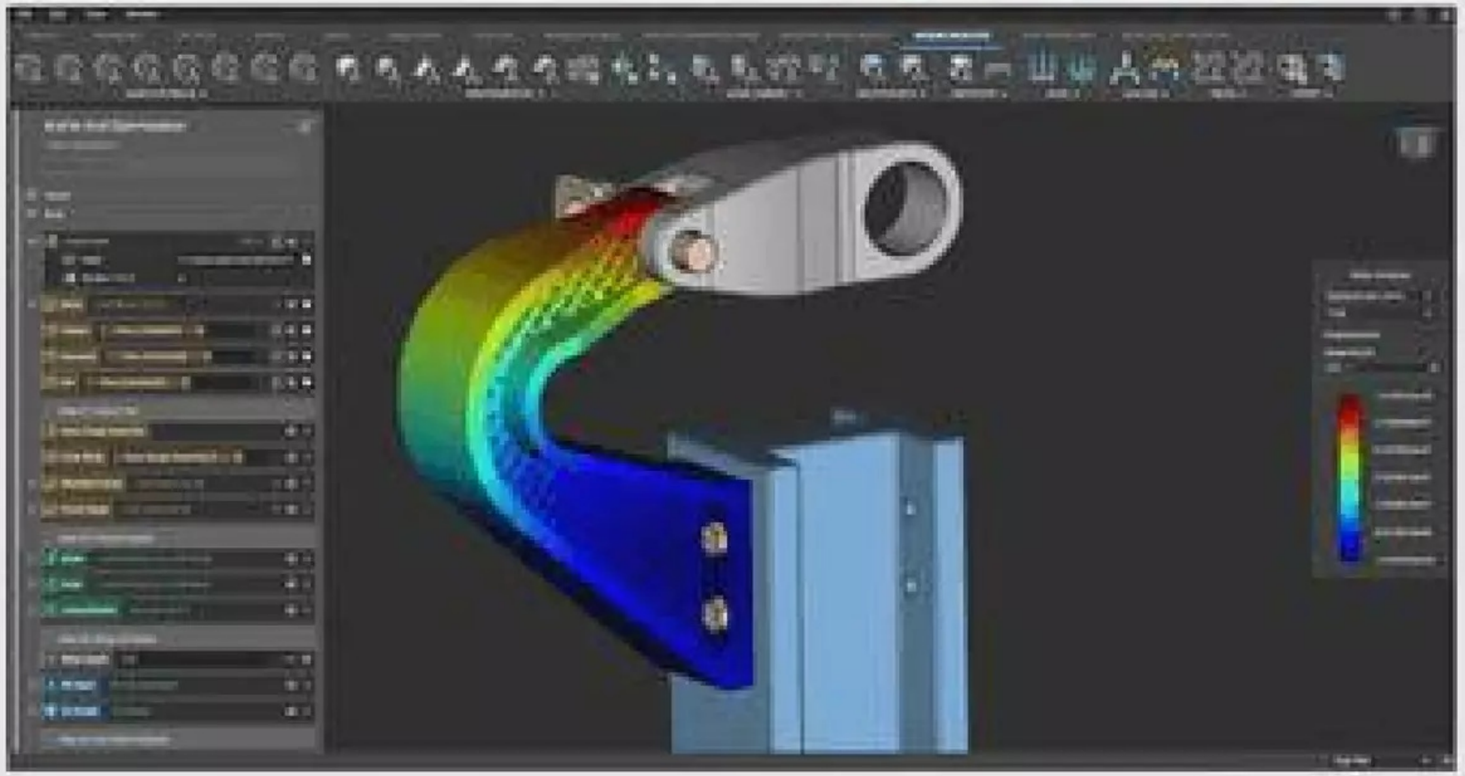

Q1: Our best quarter yet

redacted

Outperforming state of the art in weight reduction on helicopter parts

redacted name

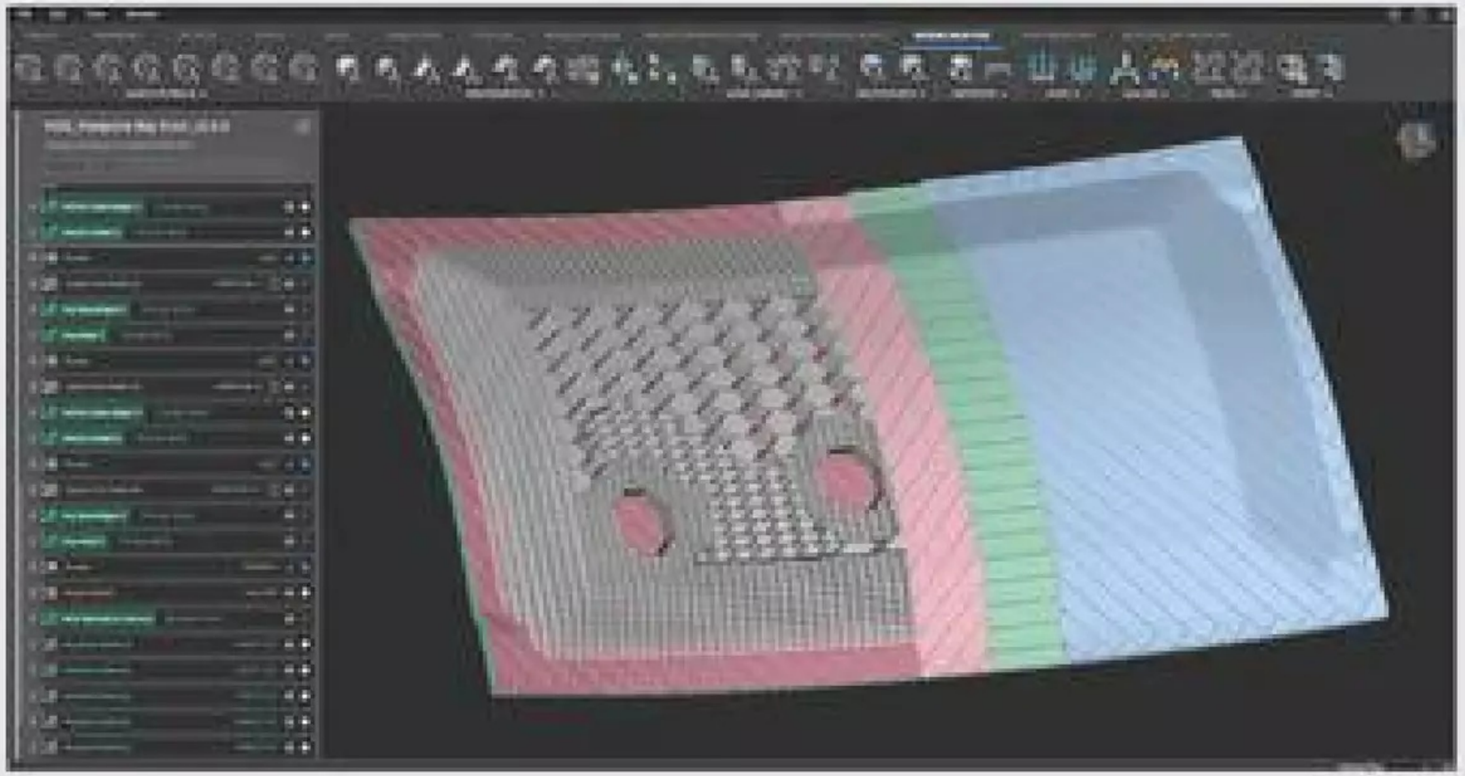

redacted

	Weight Reduction	New Design Time	
nTopology	48%	30 min	100+ Parts per Program
Dassault Systèmes	10%	6 hrs	

Shipping previously impossible stealth wings

redacted name

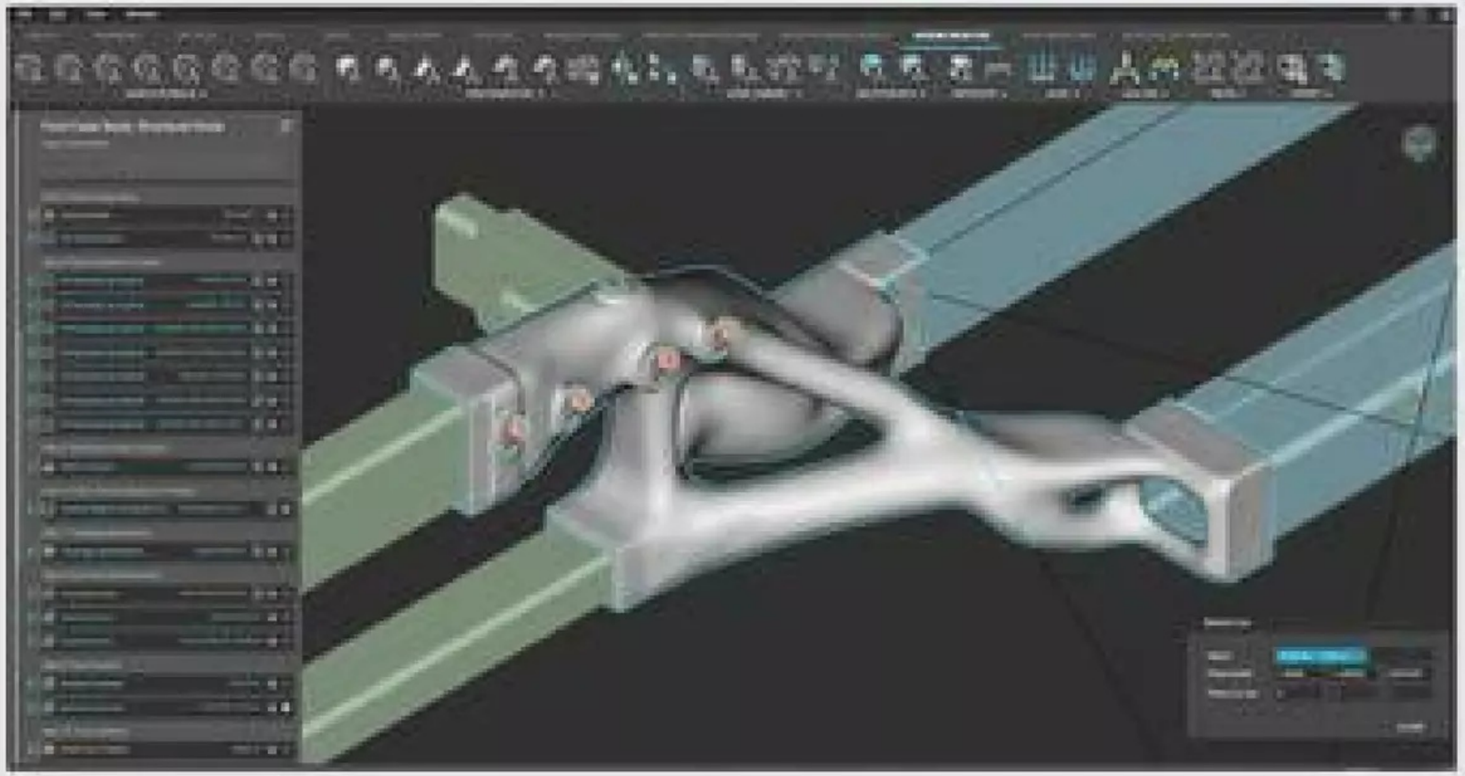

redacted

	Optimization Time	Design Time	
nTopology	60min	30min	1000+ Parts per Year
SIEMENS NX	IMPOSSIBLE	IMPOSSIBLE	

Crushing CATIA for critical Auto Structures

redacted name

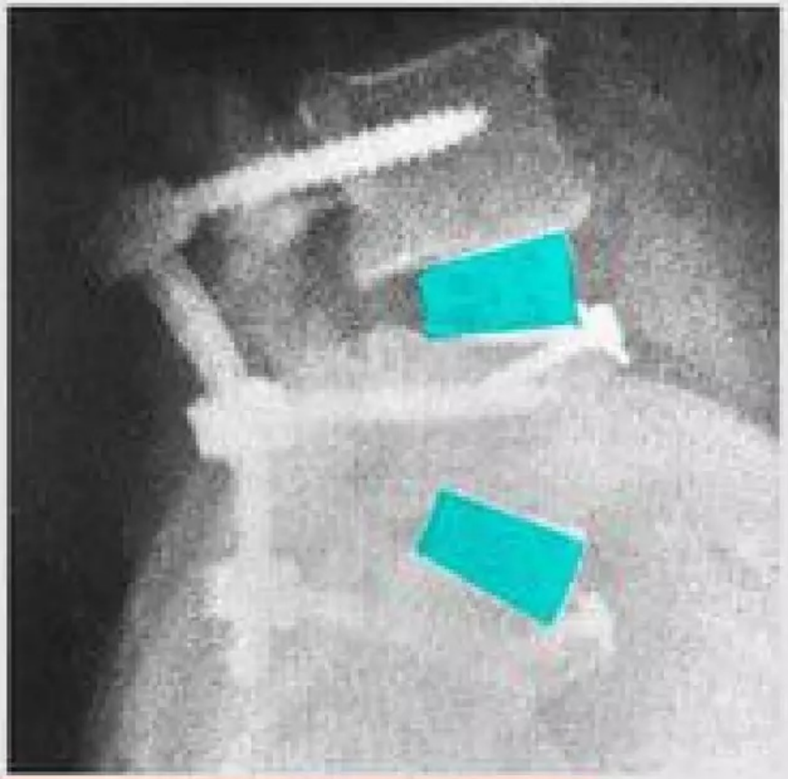

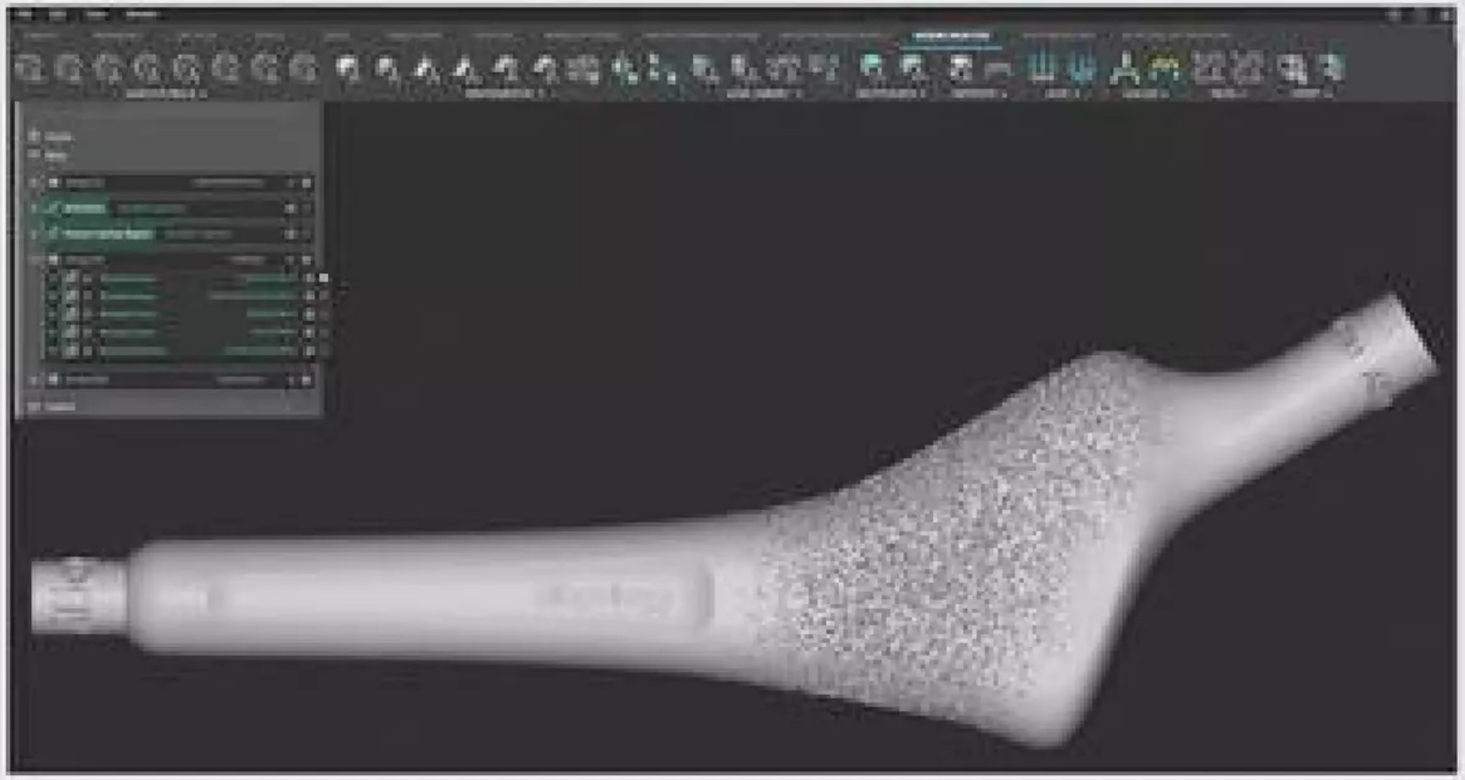

redacted

	Optimization Time	Design Time	
nTopology	1hr	4min	100+ Parts per Vehicle
CATIA	3hrs	1week	

Saving our investors' lives :)

redacted name

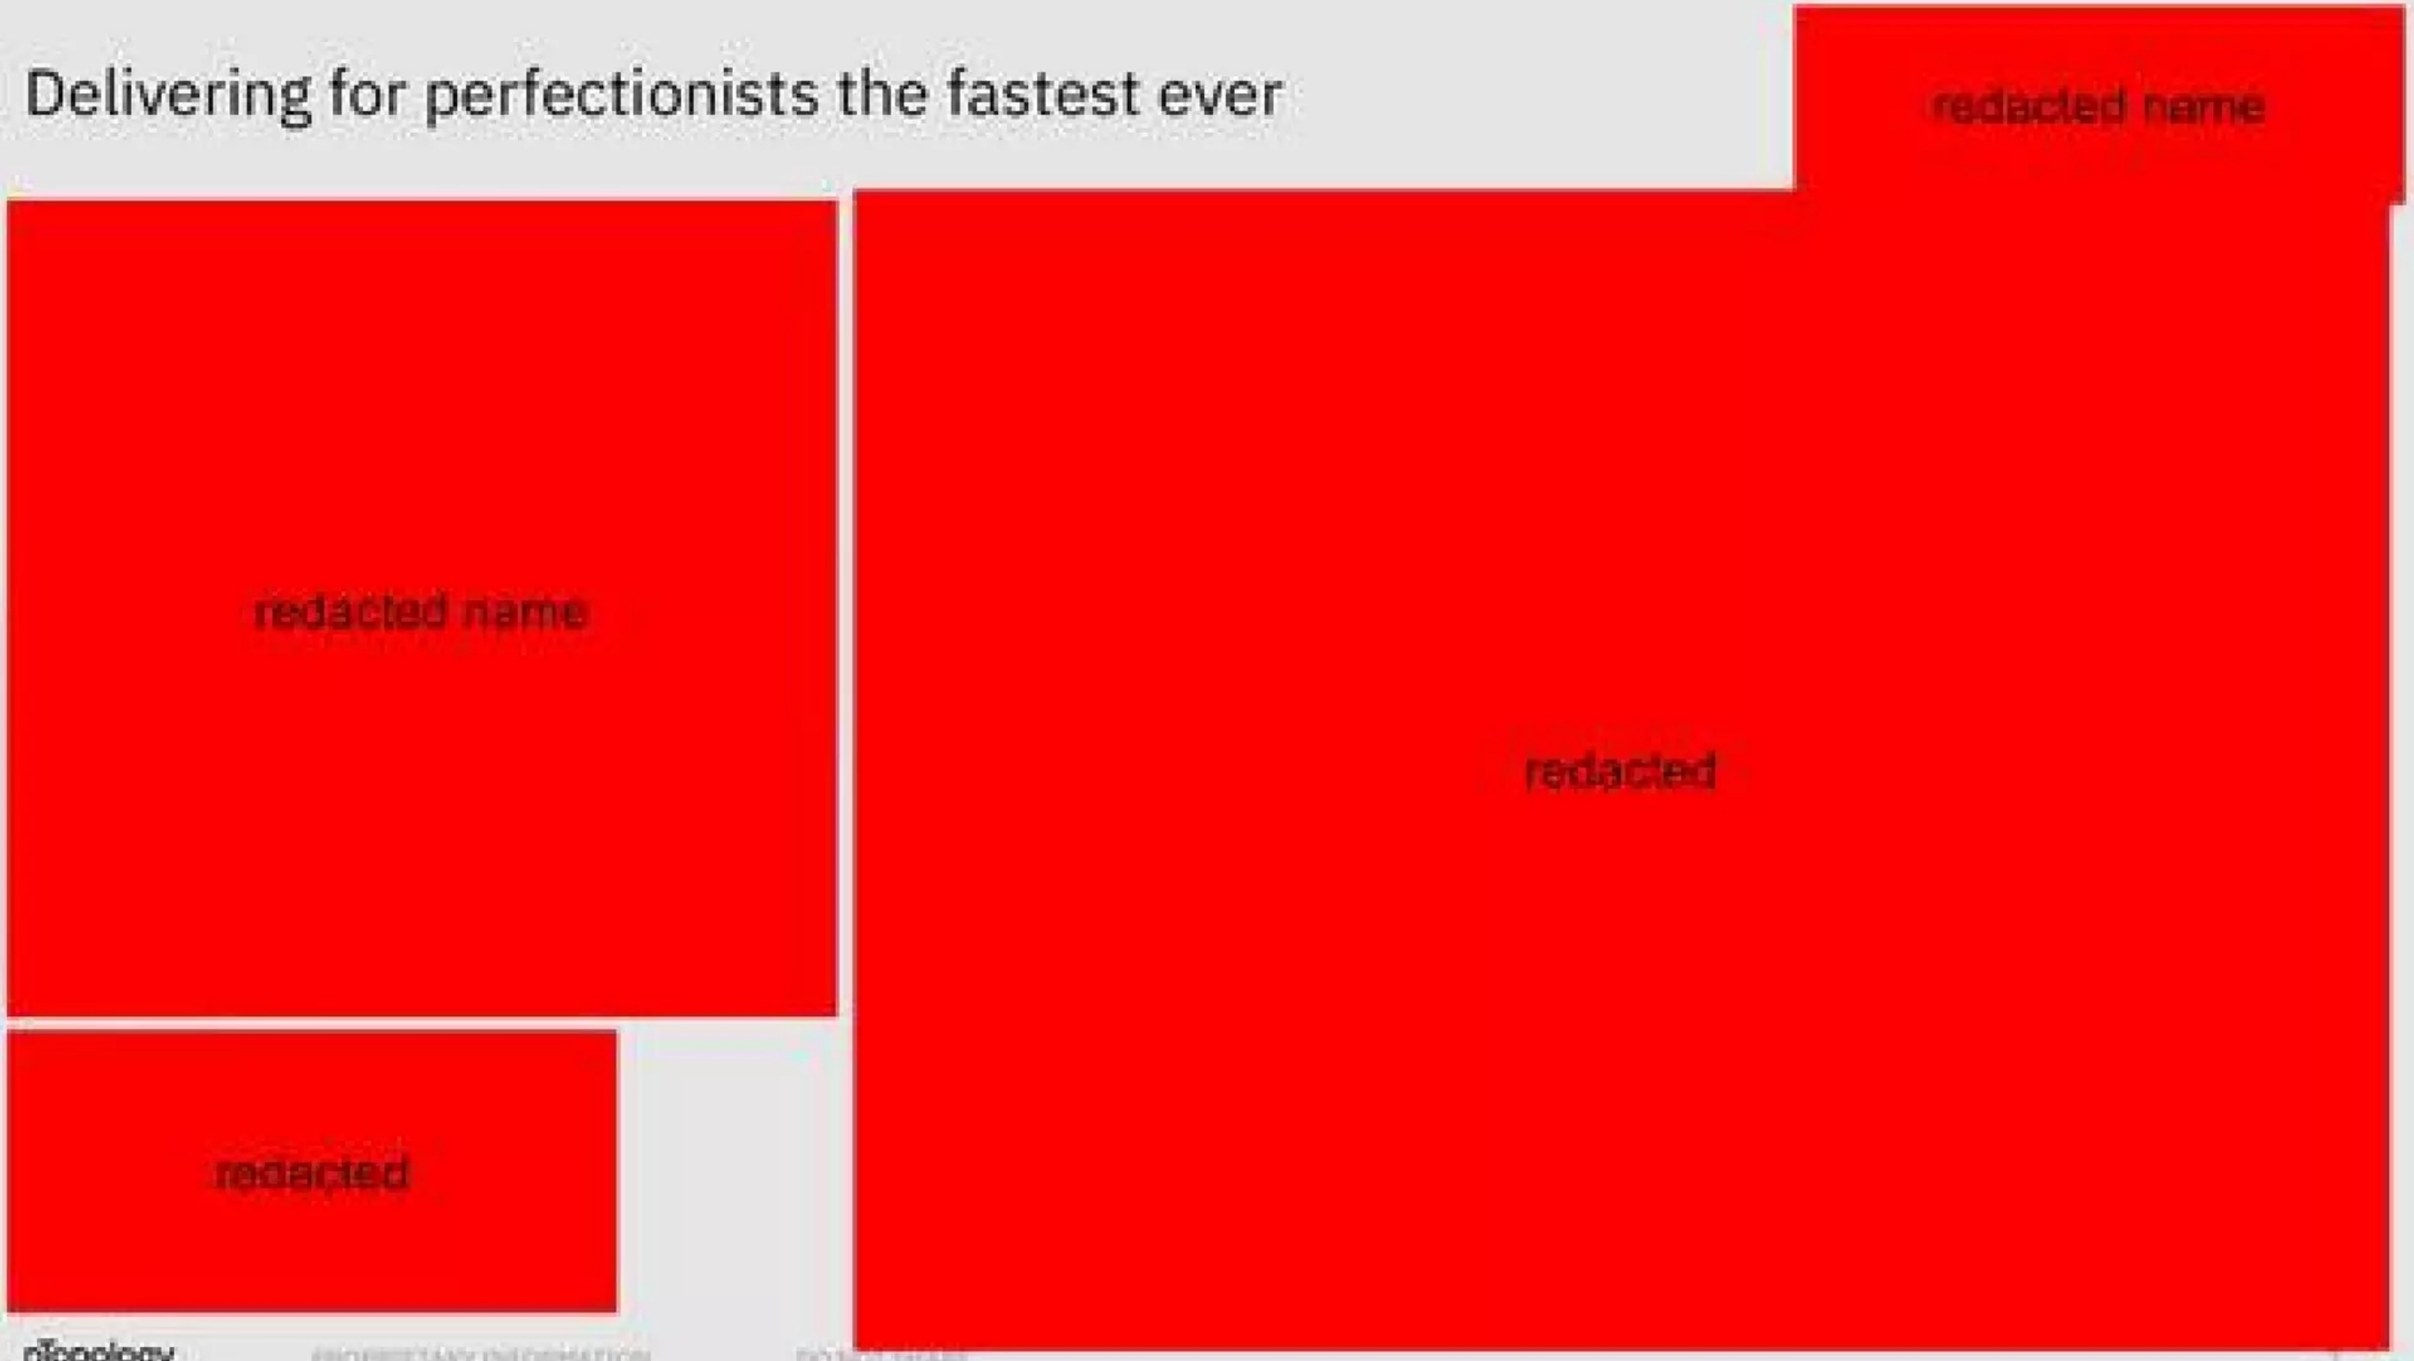

redacted

	Engineers across Stryker that can design these parts	Design Time	
nTopology	2000+	2min	500K Parts per Year
IN HOUSE CODE	4	8hrs	

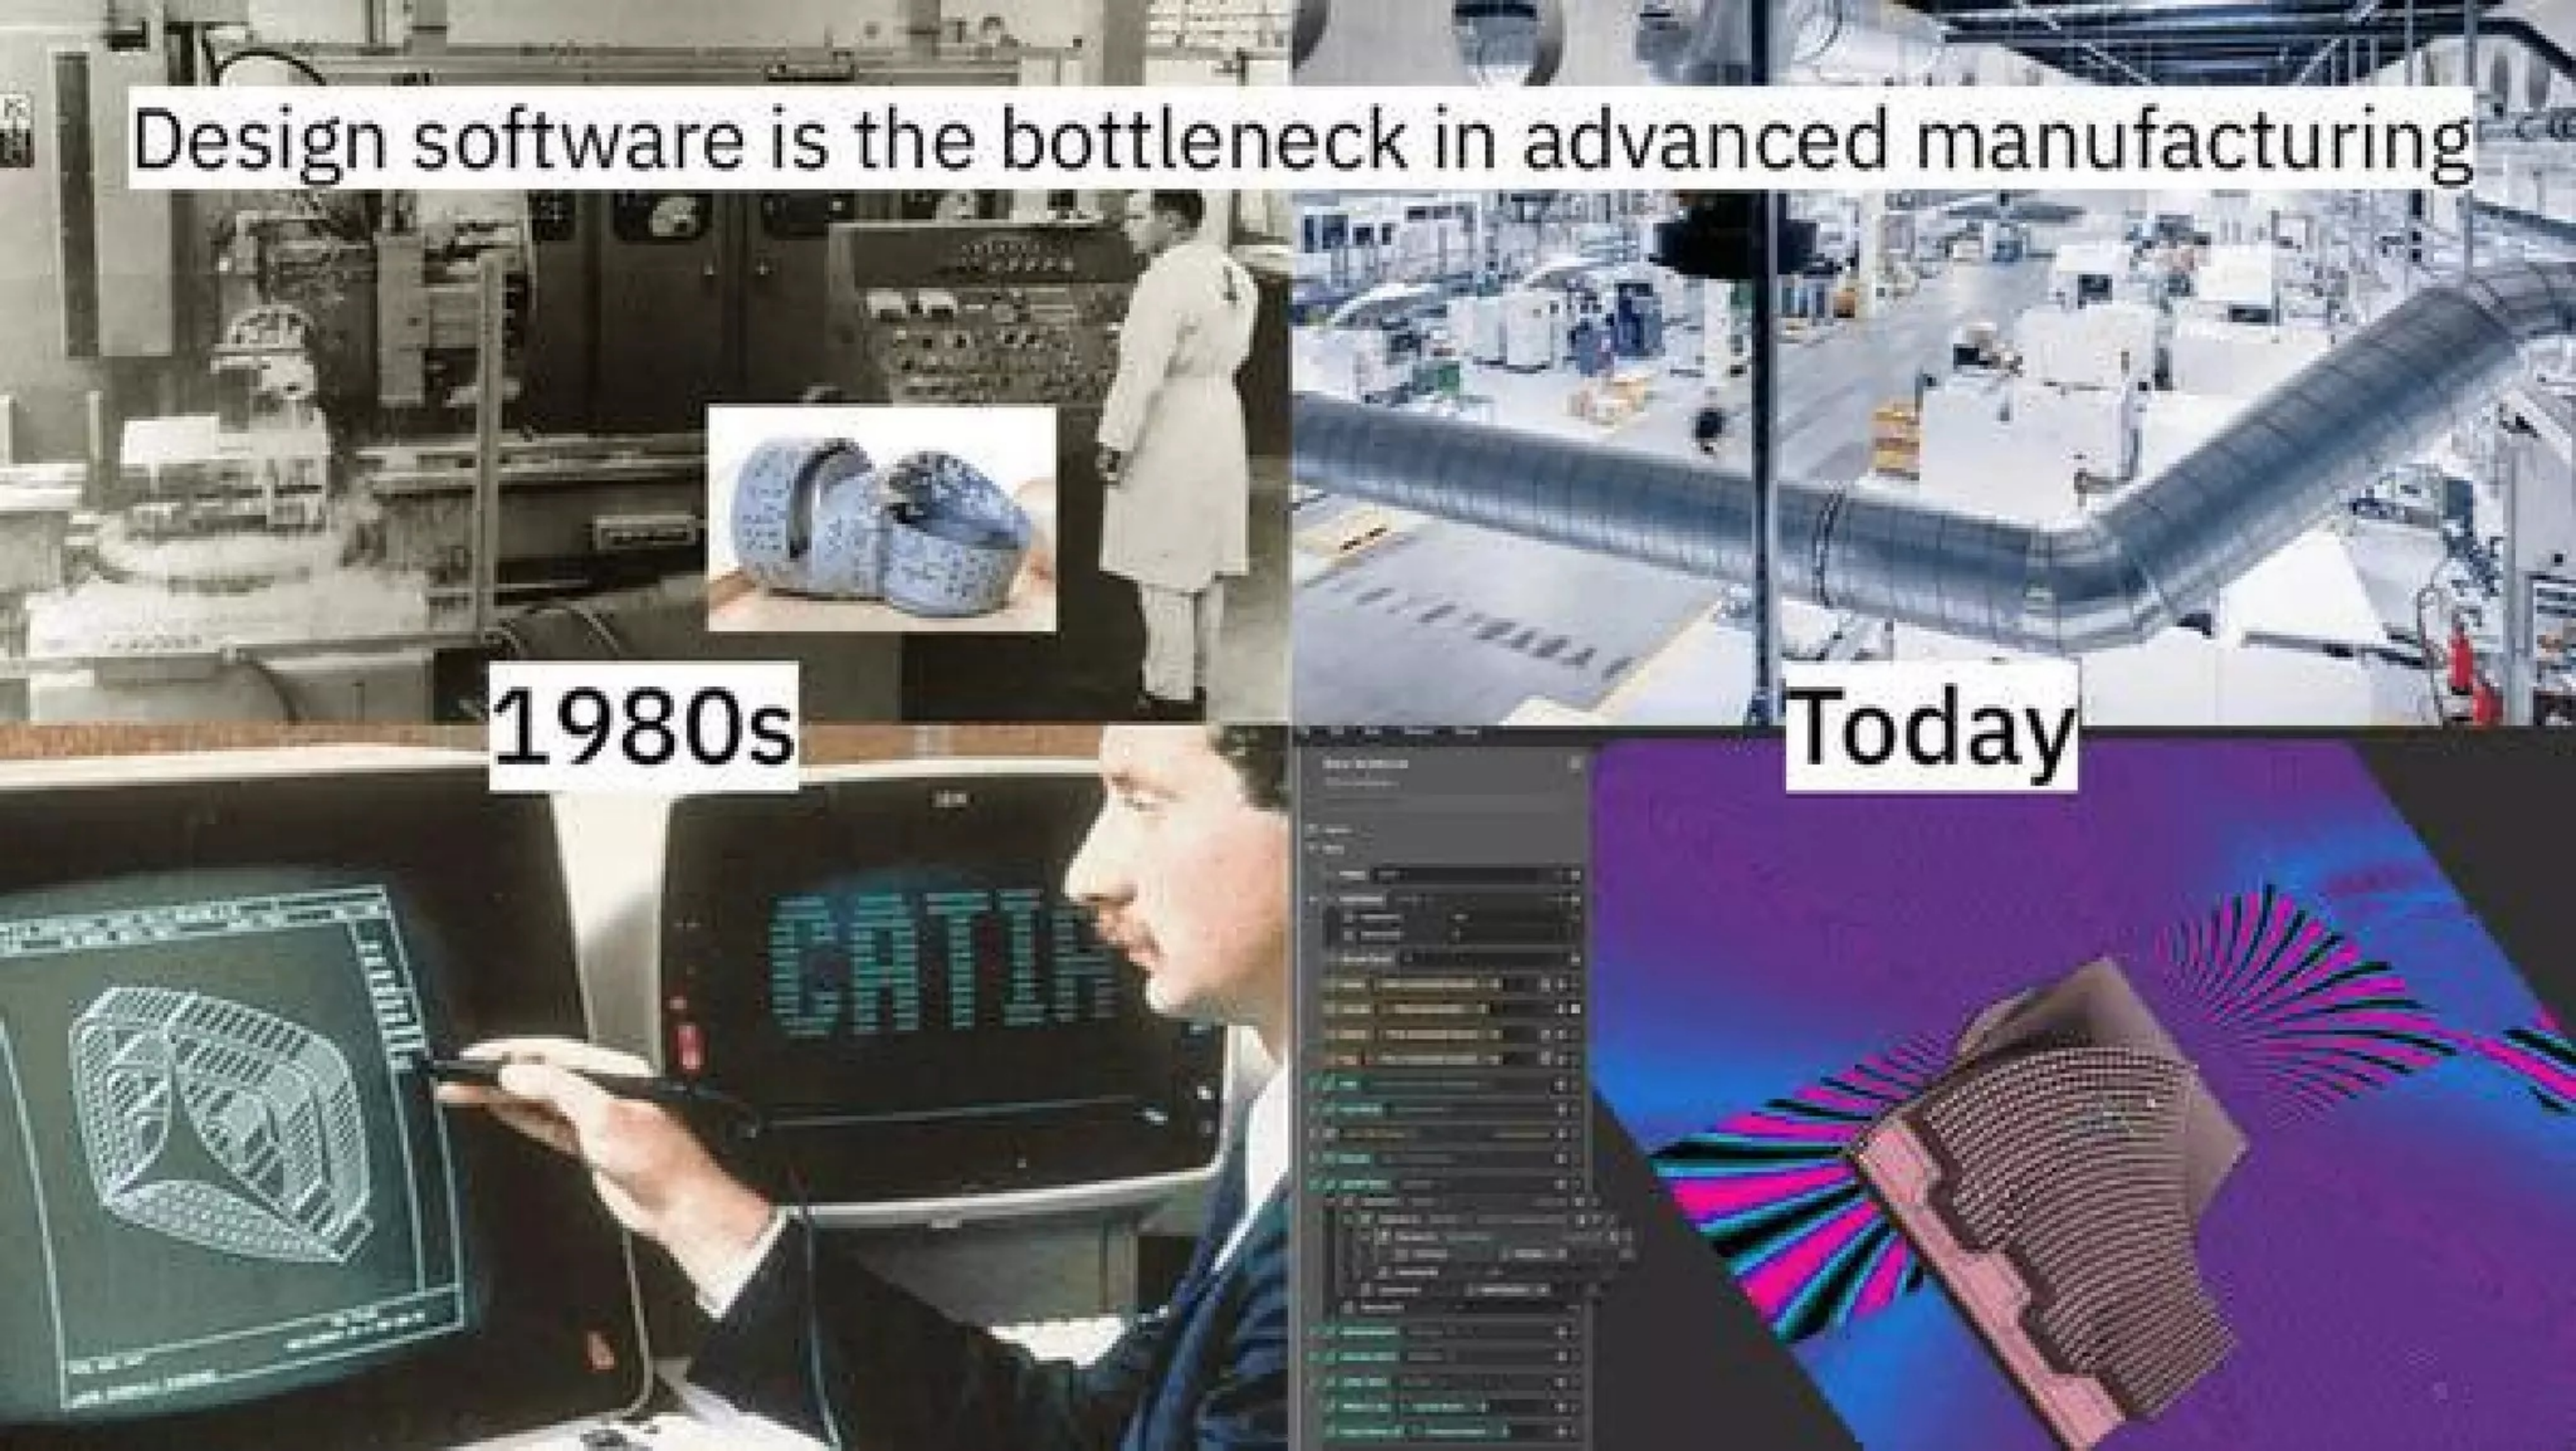

Delivering for perfectionists the fastest ever

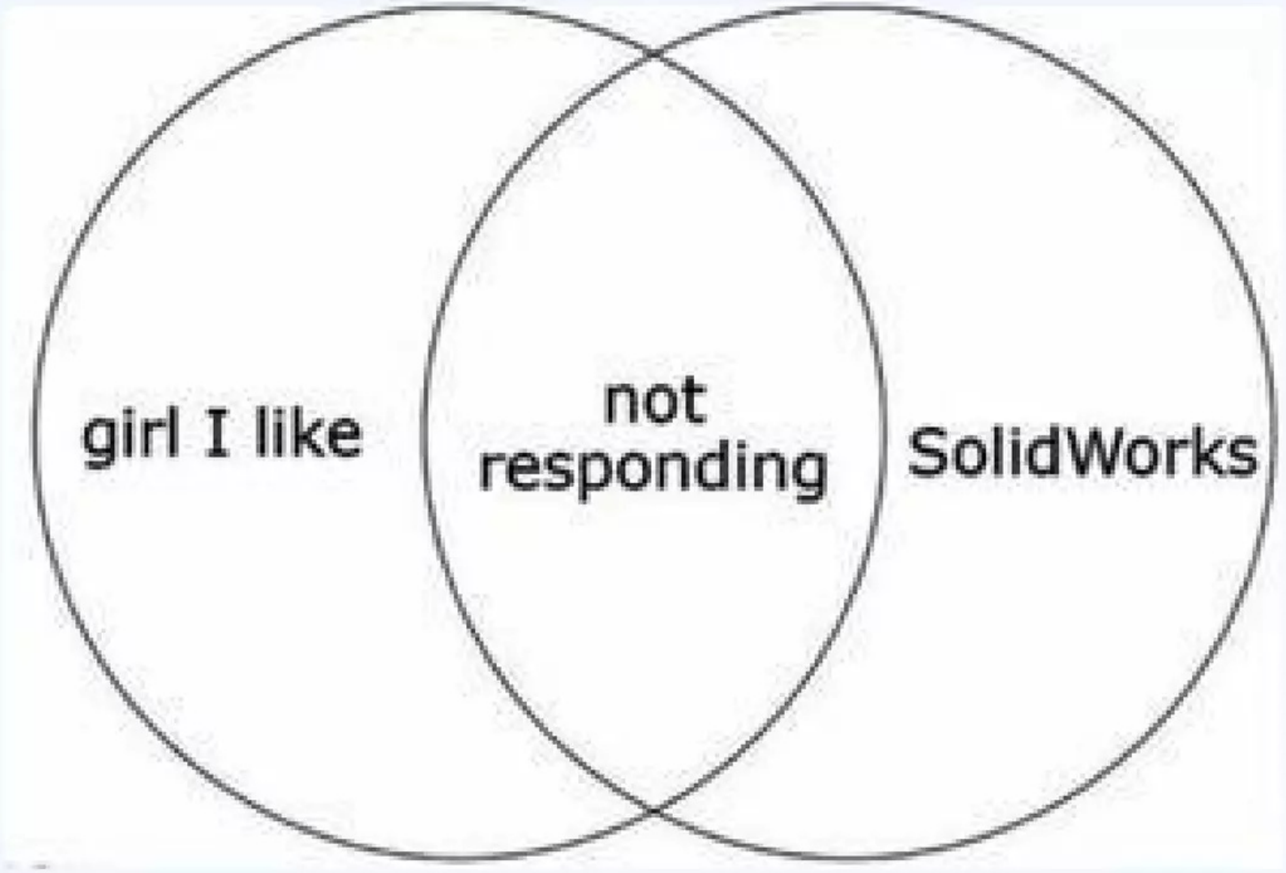

nTop drives revenue for top companies across engineering industries

Design software is the bottleneck in advanced manufacturing

Engineers today are blocked by design software

Dinosaur software dominates a giant engineering software industry

41 yrs

Average Age

$9B

CAD (Design)

Our land/expand go-to-market is lightning fast; our accounts grow exponentially

Our major accounts show the same exponential growth pattern

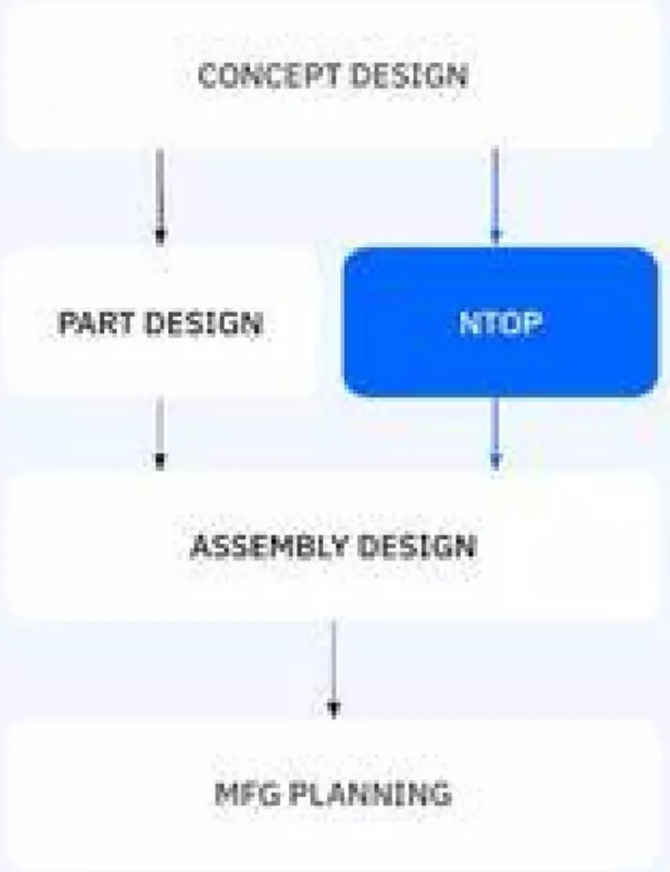

nTop lands new accounts fast by improving workflows without disruption

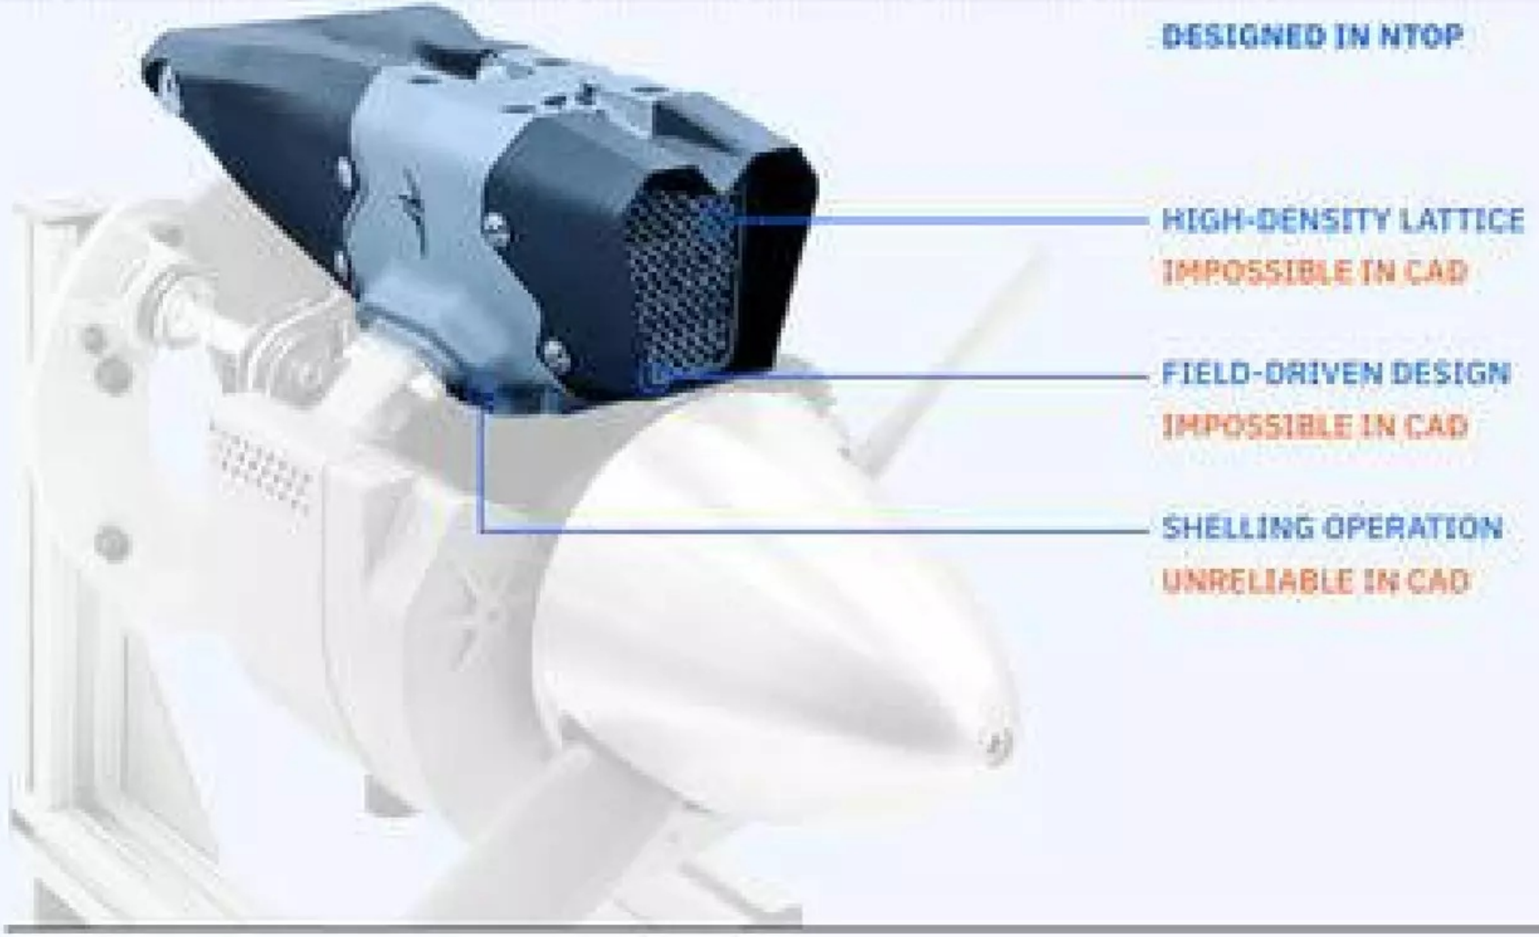

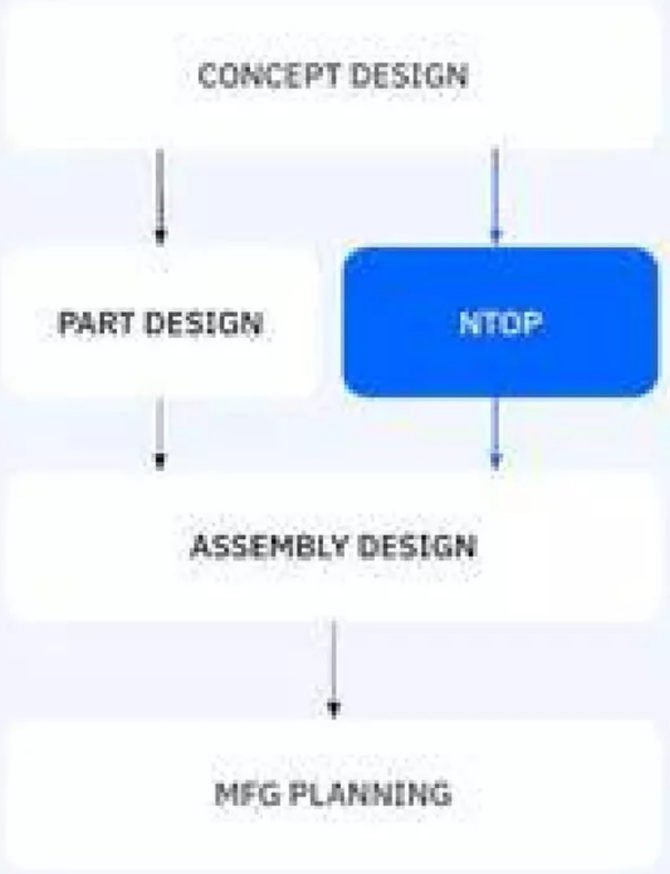

DESIGNED IN NTOP

DESIGNED IN SOLIDWORKS

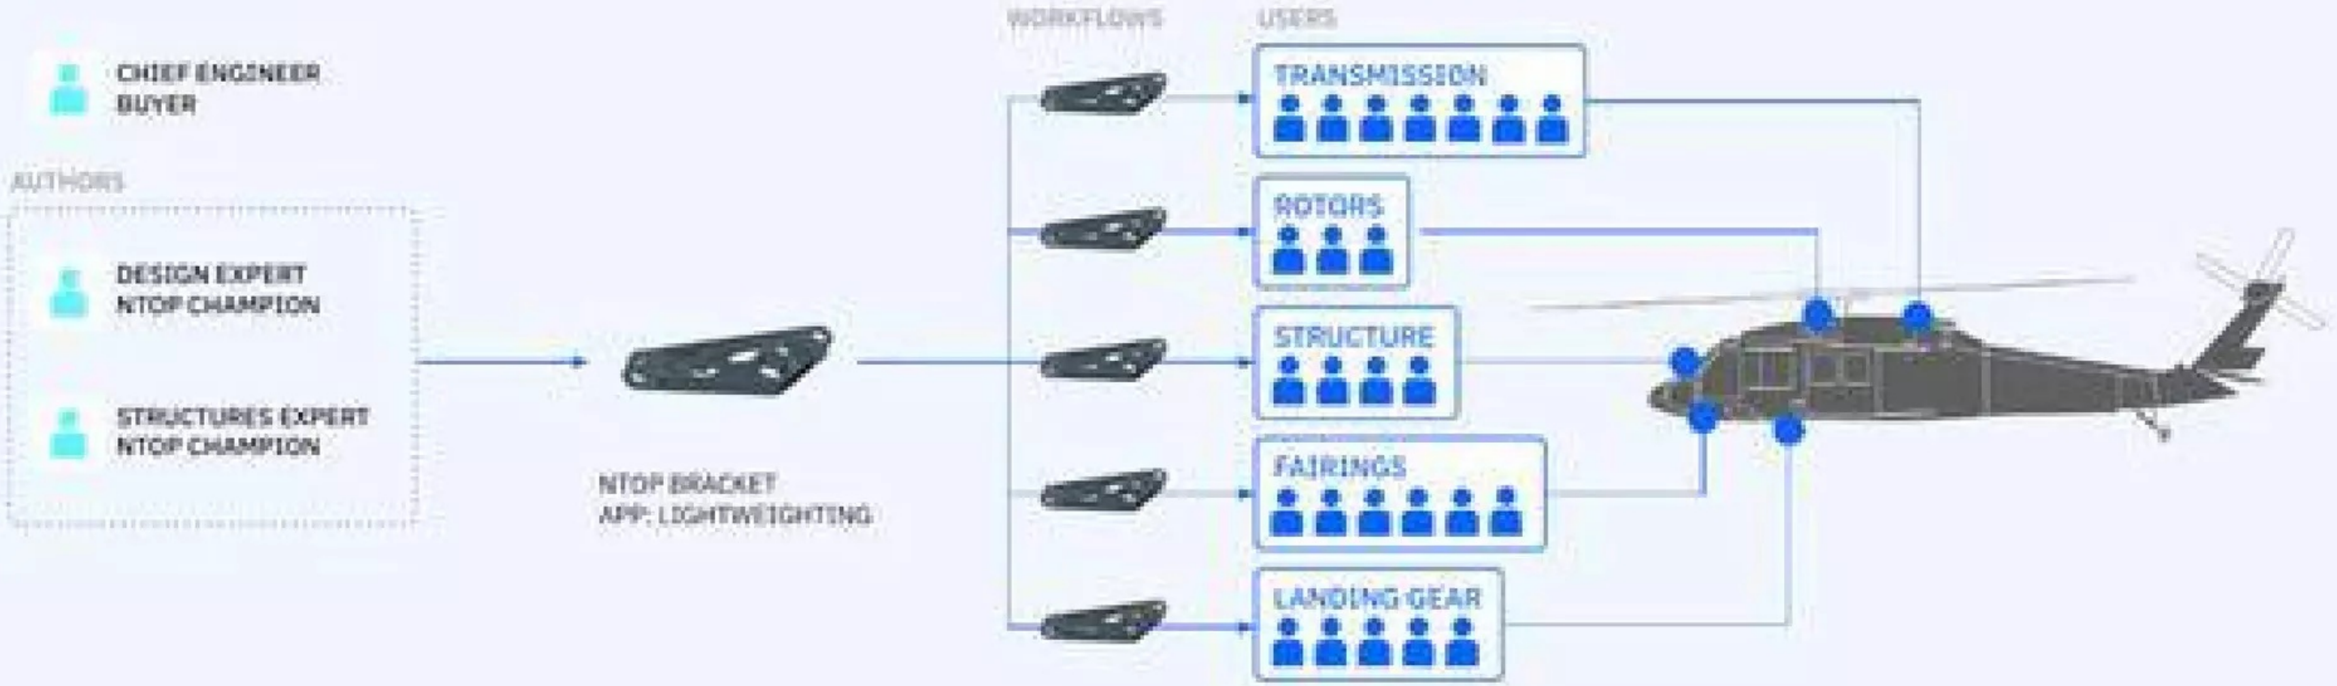

nTop solves problems that are impossible in legacy workflows

Our users expand our TCV by onboarding new users

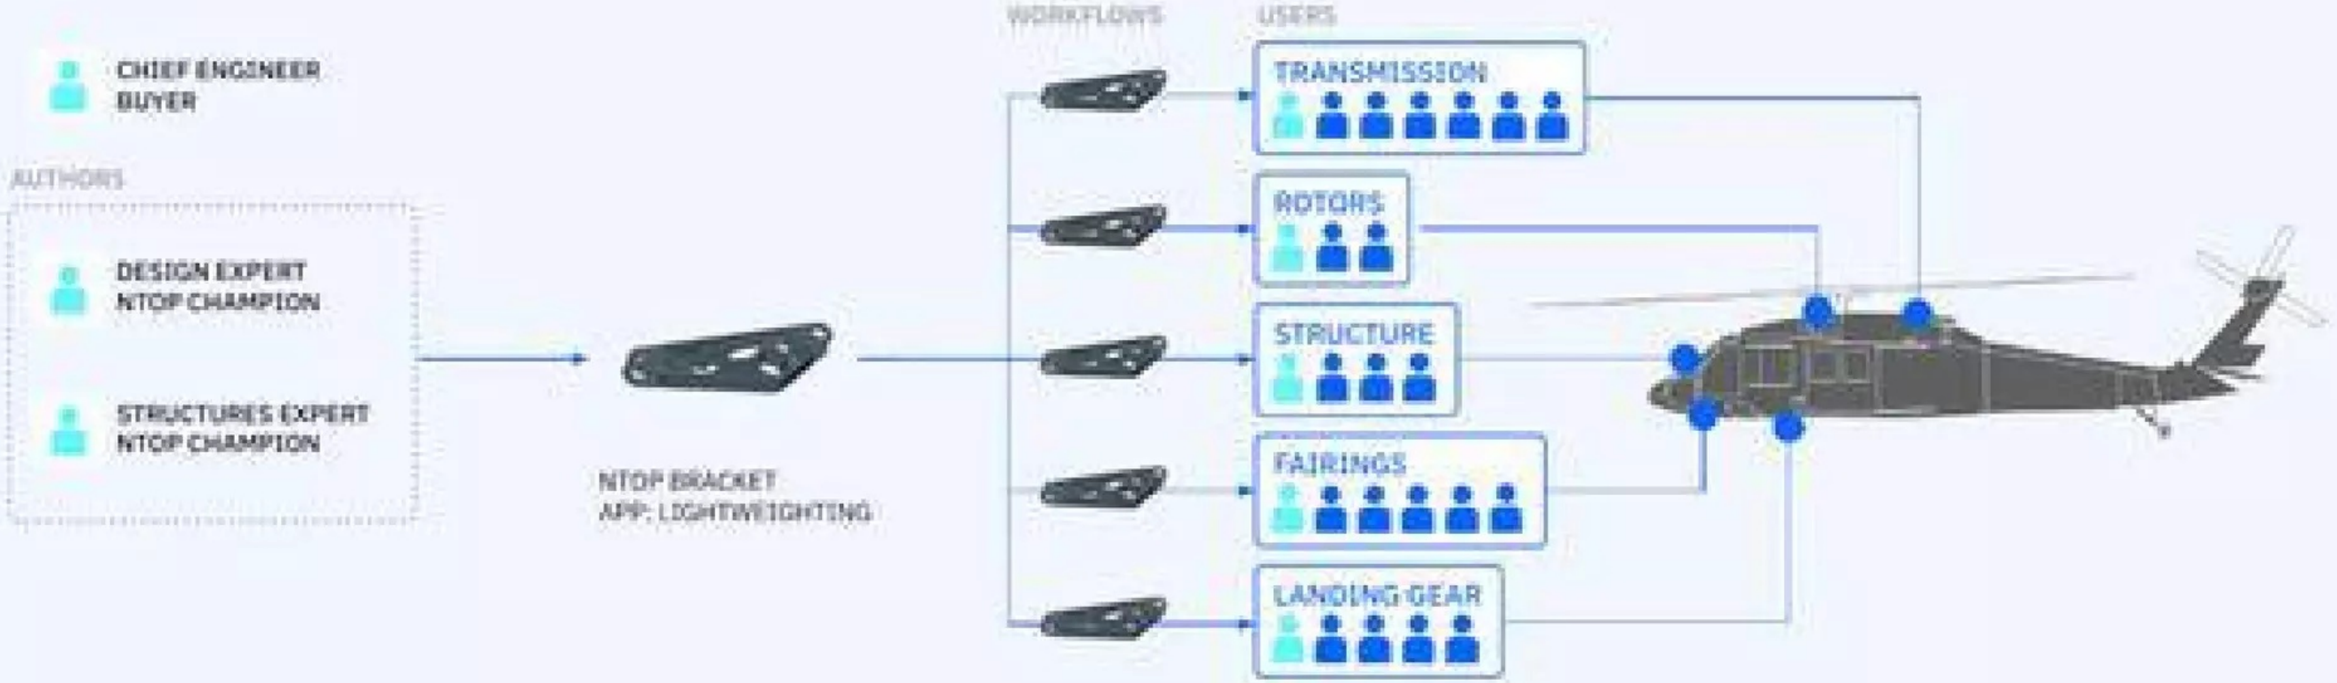

redacted name

LAND	EXPAND	
3 USERS	2 AUTHORS CREATE & DISTRIBUTE A WORKFLOW TO 5 TEAMS	5 DESIGN ENG. TEAMS = 25 NEW USERS

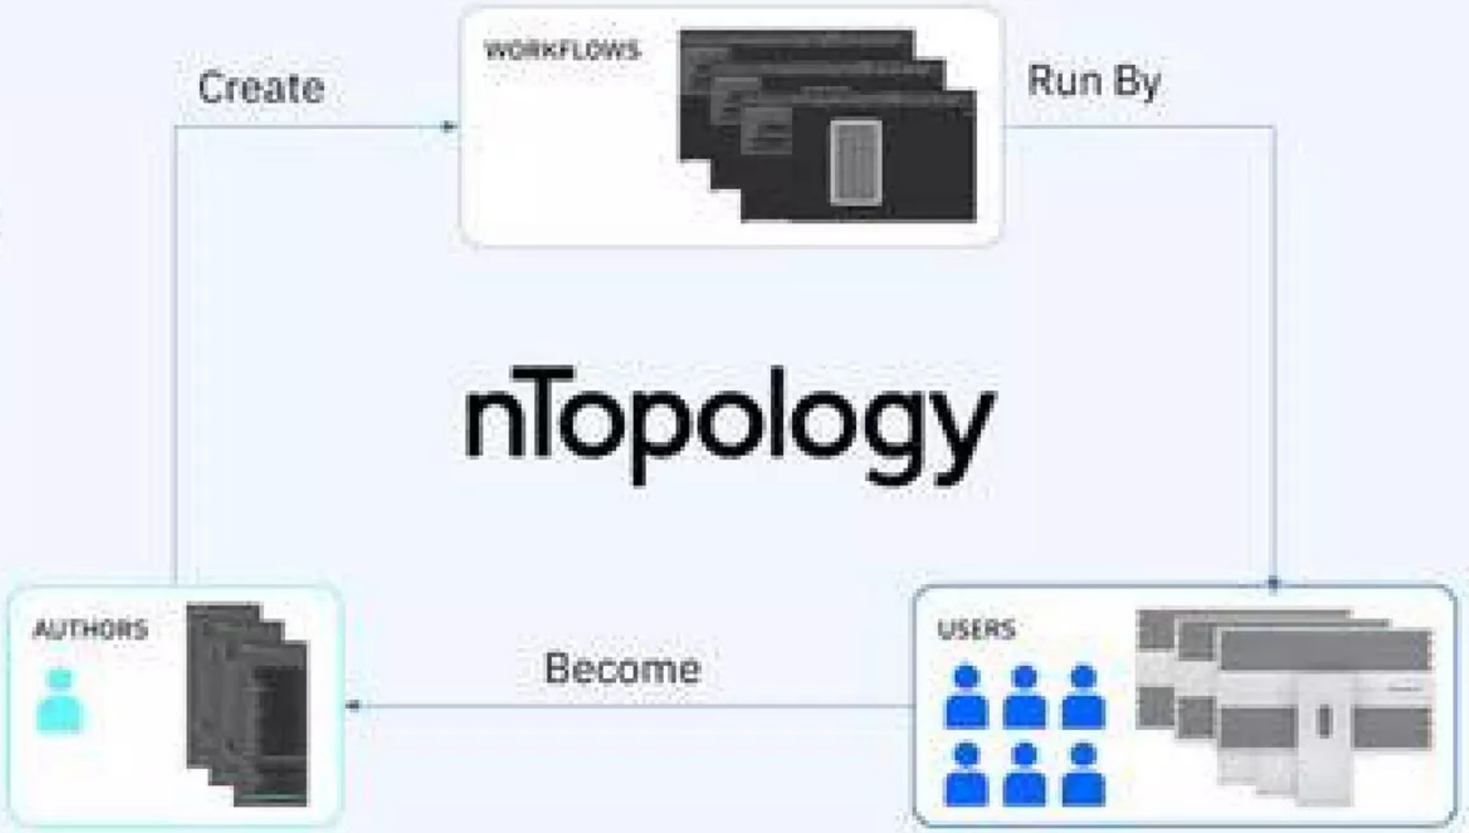

Our users expand our TCV by onboarding new users

redacted name

LAND	EXPAND		
3 USERS	2 AUTHORS CREATE & DISTRIBUTE A WORKFLOW TO 5 TEAMS	5 DESIGN ENG. TEAMS = 25 NEW USERS	~5 DESIGN ENGINEERS BECOME AUTHORS

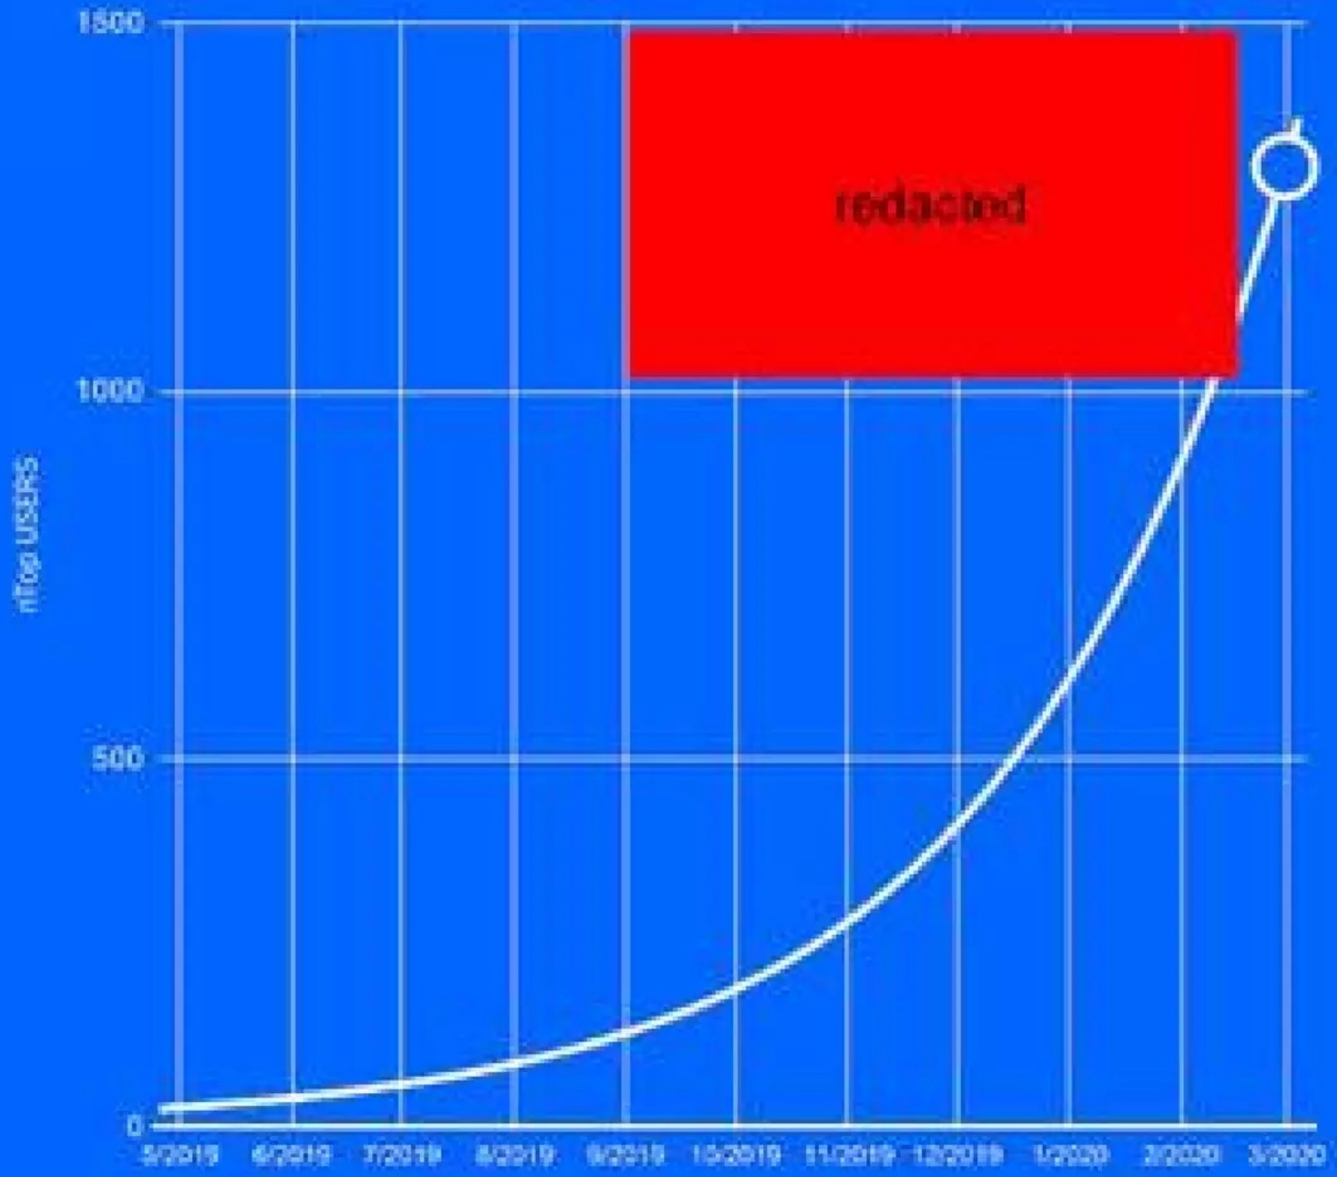

nTop is the only engineering software with robust remixable workflows that drive exponential user growth

MONTHLY ACTIVE USERS

We have more than tripled users since the beginning of 2020

40%

Monthly User Growth in 2020

nTop has become a critical part of our customers' workflows

avg. time in nTop per session

of All MAUs are DAUs

of "Author" MAUs are DAUs

8-Week Product Retention (includes trials)

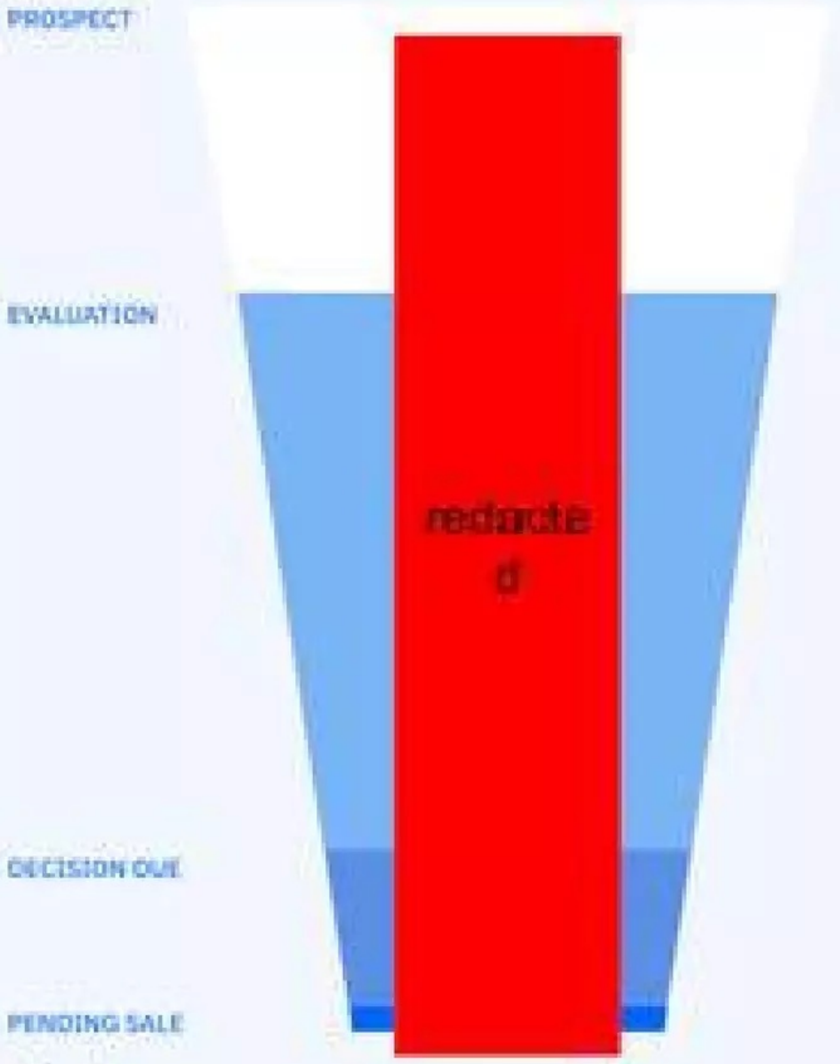

We are over $2M ARR today and launched < 1

redacted name

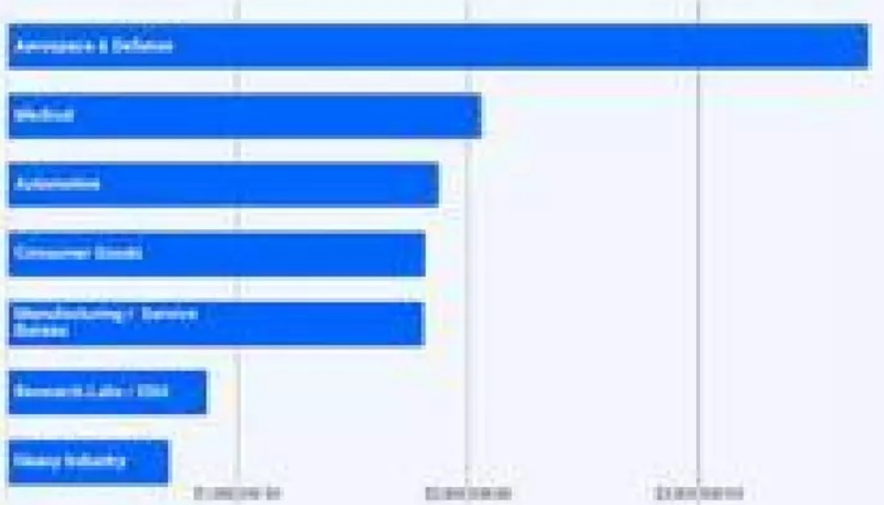

We have a strong pipeline to cross $5M ARR in 2020

Our Leaders

Brad Rothenberg
Founder & CEO

Computational geometry & design for additive manufacturing leader

Steve Costello
CRO

Led enterprise sales at Aras PLM; built the sales team from ground up at 3Corp & Spaceclaim; defense experience at Digital Globe & BAE Systems

Blake Courter
CTO

Product manager at PTC; founded spaceclaim; product manager at grabCAD & Stratasys

George Allen
CSO

Worked for the various owners of the the UG/NX CAD system for 40 years. Held various positions in R&D, strategic planning, and customer consulting. George is a solid modeling pioneer.

Carl Bass
Former CEO Autodesk, Independent Board Director

Carl Bass spent 24 years at Autodesk, where he held a series of executive positions including chief technology officer and chief operations officer. From 2006 until 2017, he served as CEO.
