

Particle

ENABLING THE INTERNET OF THINGS

PARTICLE BUILT THE LARGEST IoT DEVELOPER COMMUNITY, WHICH HAS DRIVEN OUR ENTERPRISE BUSINESS

2012
Connected lighting

Unsuccessful Kickstarter campaign

2013–2015
IoT developer tools

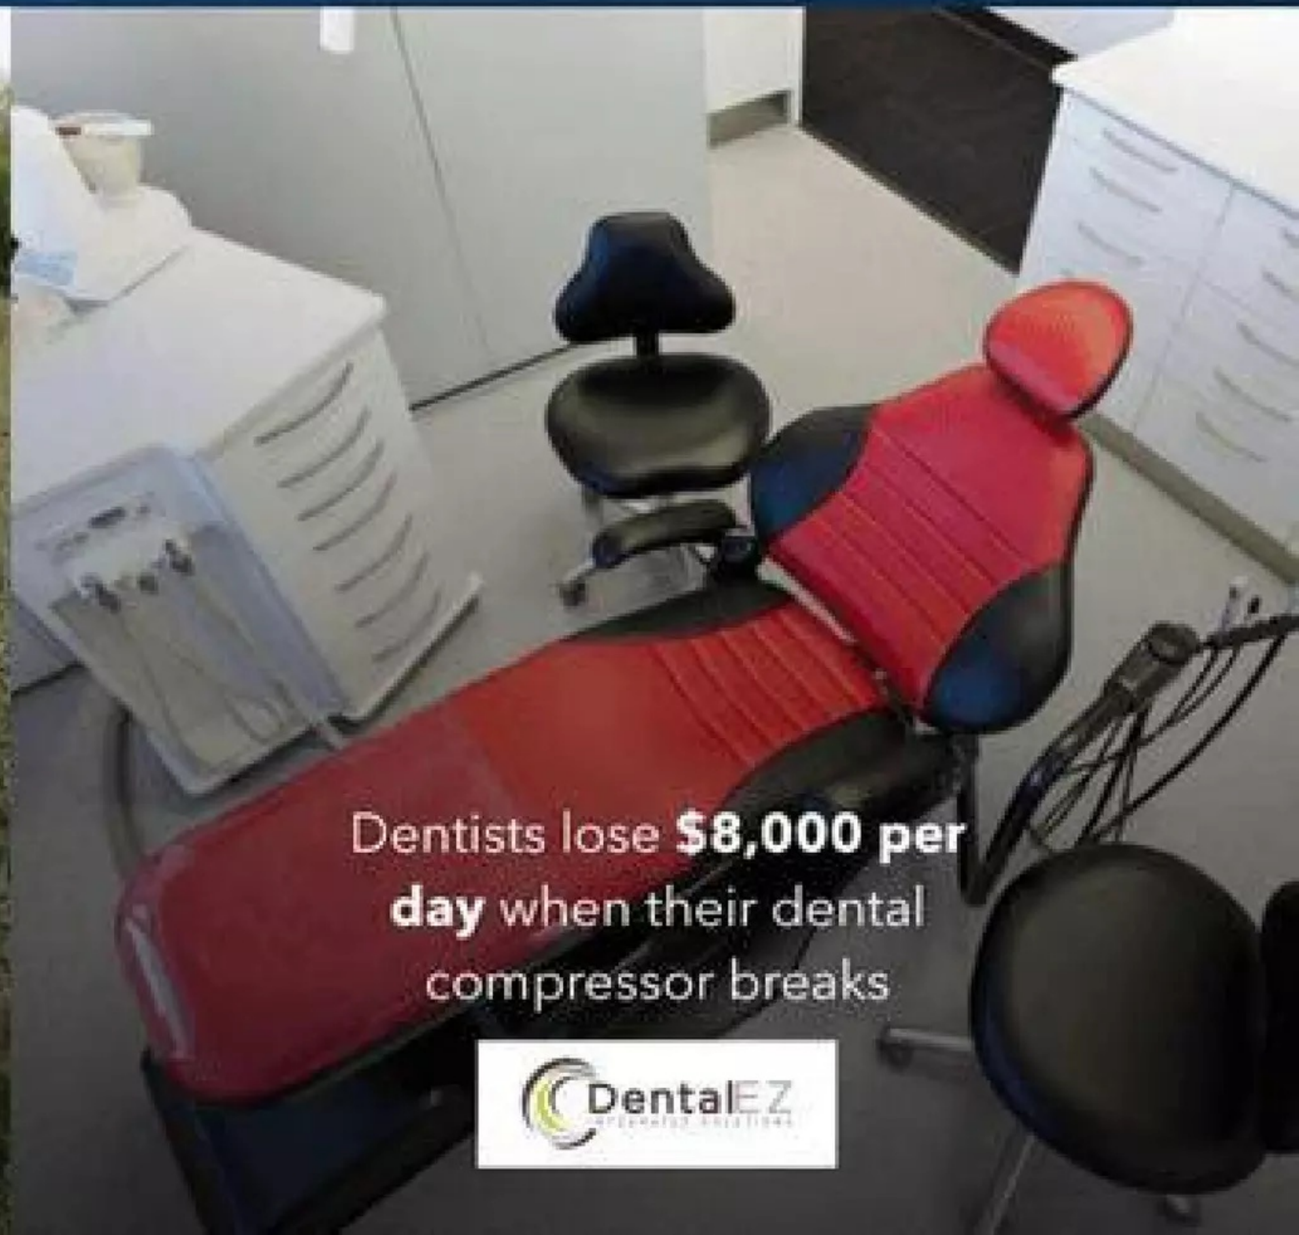

Largest developer community in IoT

2016–PRESENT
Enterprise IoT platform

Fastest growing enterprise/industrial IoT platform

THE SOFTWARE ECONOMY HAS BYPASSED PROBLEMS WE FACE IN THE PHYSICAL WORLD

PROBLEMS IN THE PHYSICAL WORLD REQUIRE SOLUTIONS THAT BRIDGE THE DIGITAL CHASM

DENTAL COMPRESSOR

EDGE DEVICE	NETWORK	CLOUD
SENSORS	WIRELESS NETWORK	MESSAGE BROKER
CONTROL SYSTEMS	CERTIFICATIONS	EVENT LOGGER
POWER MANAGEMENT	COMMS PROTOCOL	ELASTIC SCALABILITY
RADIO	ENCRYPTION	REST API
RF DESIGN	PROVISIONING	DEVICE MANAGEMENT
MICROCONTROLLER	DATA PLANS	DEVICE GROUPING
GPIOS/PERIPHERALS	SIM CARDS	FW MANAGEMENT
HAL	SIM MANAGEMENT	BUSINESS LOGIC
RTOS		DATA PROCESSING
FIRMWARE		DATA ANALYTICS
		DATA STORAGE
		DATA VISUALIZATION

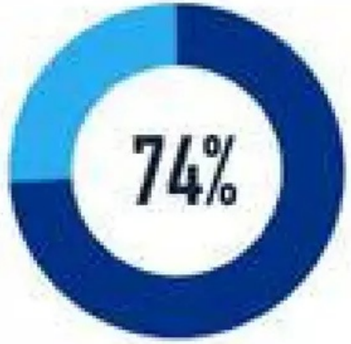

PERFORMANCE DATA

PROBLEMS IN THE PHYSICAL WORLD REQUIRE SOLUTIONS THAT BRIDGE THE DIGITAL CHASM

EDGE DEVICE — NETWORK — CLOUD

DENTAL COMPRESSOR

74% OF IoT INITIATIVES FAIL.

Top five reasons for failure (self-reported):

- Long completion times
- Poor quality of the data collected
- Lack of internal expertise
- IoT integration challenges
- Budget overruns

PERFORMANCE DATA

DATA VISUALIZATION

PARTICLE BUILT A "FULL-STACK" PLATFORM TO POWER CONNECTED DEVICES

Easy to use, professional-grade connectivity modules...

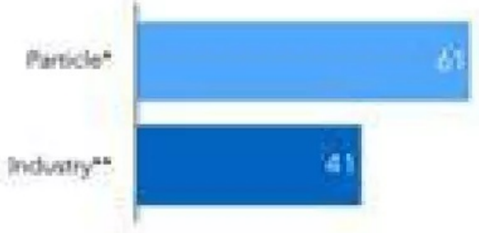

...powered by a managed cloud platform

175,000
Engineers building with Particle

50%
Use Particle professionally

NET PROMOTER SCORE

Particle customers vs industry benchmark

* Average monthly NPS scores, 2017 to Q1 2019
** Technology industry including MSFT, Intuit, Activision, Symantec, Apple

1Bn
Messages delivered to/from devices per month

400,000
Compiles in the last 30 days

IDC MARKETSCAPE MAJOR PLAYER

#1 in customer satisfaction

"Particle's customers are enthusiastic about the product, which helped the company achieve the highest overall scores from their customer base of all the vendors participating in this research effort"

- Stacy Crook, Research Director for IoT at IDC

watsco

HVAC SERVICE AND MAINTENANCE WITH WATSCO

- Watsco is the largest distributor of HVAC systems in North America ($4.5Bn revenue in 2018)
- HVAC service and maintenance is extremely manual and inefficient
- Remote diagnostics capability (leading to preventative maintenance) could be worth hundreds of millions of dollars

WATSCO CREATED SENTREE — A REMOTE MONITORING SOLUTION FOR HVAC

FIVE SENSORS ATTACHED TO AN AIR CONDITIONER...

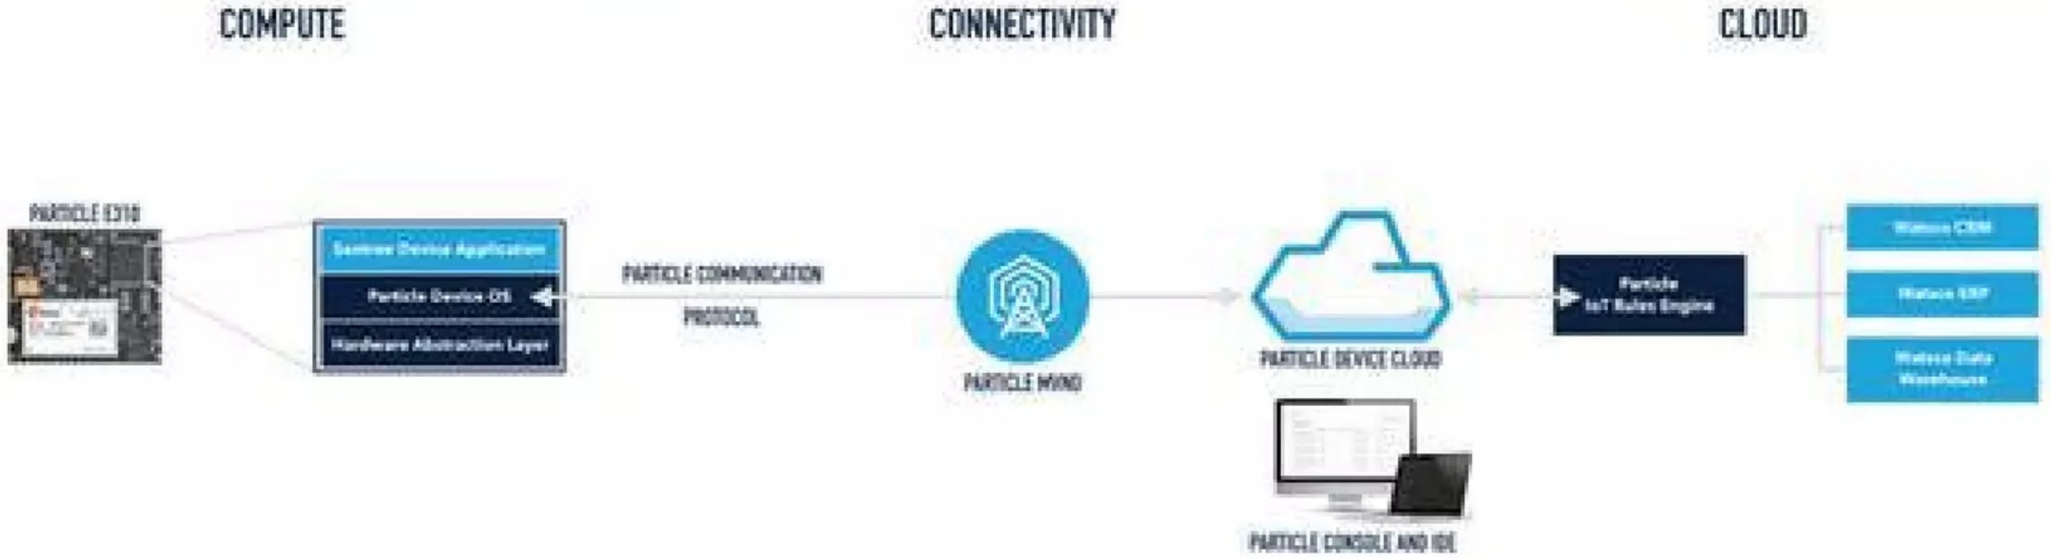

...CONNECTED TO THE CLOUD FOR ANALYTICS

PARTICLE PROVIDES A COMPLETE TECH STACK TO POWER A CONNECTED PRODUCT

WE DELIVER A "FULL-STACK" SOLUTION THAT DRAMATICALLY SIMPLIFIES IMPLEMENTATION

POWER MANAGEMENT | RADIO | RF DESIGN | MICROCONTROLLER | GPIOS/PERIPHERALS | HAL | RTOS | CERTIFICATIONS | COMMS PROTOCOL | PROVISIONING | ENCRYPTION | SIM CARDS | DATA PLANS | MESSAGE BROKER | ELASTIC SCALABILITY | DEVICE MANAGEMENT | FW MANAGEMENT | SIM MANAGEMENT | DEVICE GROUPING | EVENT LOGGER | REST API | BUSINESS LOGIC

CONNECTIVITY DIAGNOSTICS

END-TO-END SECURITY

OVER-THE-AIR SOFTWARE UPDATES

WE HANDLE IoT INFRASTRUCTURE SO OUR CUSTOMERS CAN FOCUS ON THEIR PRODUCT

COMPUTE

CONNECTIVITY

CLOUD

- Extremely easy to use development tools
- Fully-integrated software, hardware, and connectivity
- Fully-certified products
- Customizable, modular products and APIs

PRODUCT TO MARKET IN SIX MONTHS WITH TWO ENGINEERS

- Bi-directional real-time communications (<100ms latency)
- One-click OTA software update releases
- Integrated device management, firmware management, and SIM management
- Drag-and-drop web application builder

CUSTOMERS HAVE FULL CONTROL OVER THEIR IoT PRODUCTS, IoT APPLICATIONS, AND IoT DATA

- Connectivity implemented and tested across a variety of radios and geographies
- Security implementation is pre-baked
- Platform is battle-tested by hundreds of thousands of customers across a variety of mission-critical use cases

WE ENSURE A RELIABLE, SCALABLE, AND SECURE IoT PRODUCT

CASE STUDY: JACUZZI'S DIGITAL TRANSFORMATION

Jacuzzi

6 months
From concept to market launch

$2M saved
Predictive maintenance

6% revenue
Increased average sales price

"Choosing an IoT platform and partner was challenging given all the noise in this space. Particle's x-factor was their team's ability to quickly understand our business and be an active participant in driving our strategy and technical implementation."

Larry Ovalle

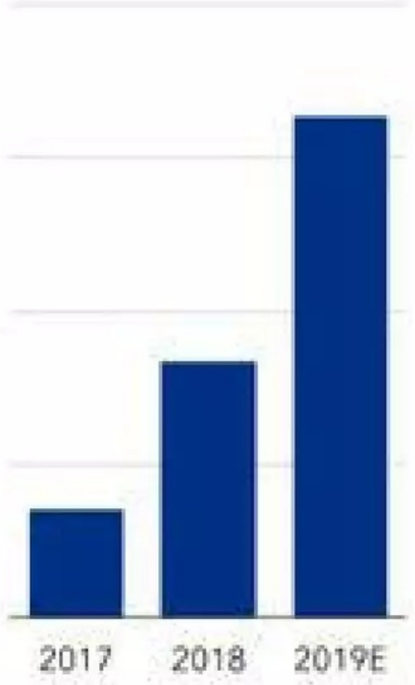

Director of Marketing, Strategic Growth at Jacuzzi

PARTICLE IS DOUBLING THE BUSINESS YEAR OVER YEAR THROUGH EFFECTIVE SALES AND MARKETING

GAAP REVENUE
$Millions

3CV* BOOKINGS
$Millions

	2017	2018	2019E
Enterprise revenue contribution	25%	70%	80%
Time to close	15 months	6-7 months	4-6 months

*3CV stands for "Three year contract value"; it reflects Particle's version of TCV (Total Contract Value), where we pay sales reps on up to three years of device shipments plus three years of attached service
