Personal health profile

Ada thrives by combining clinical and tech excellence

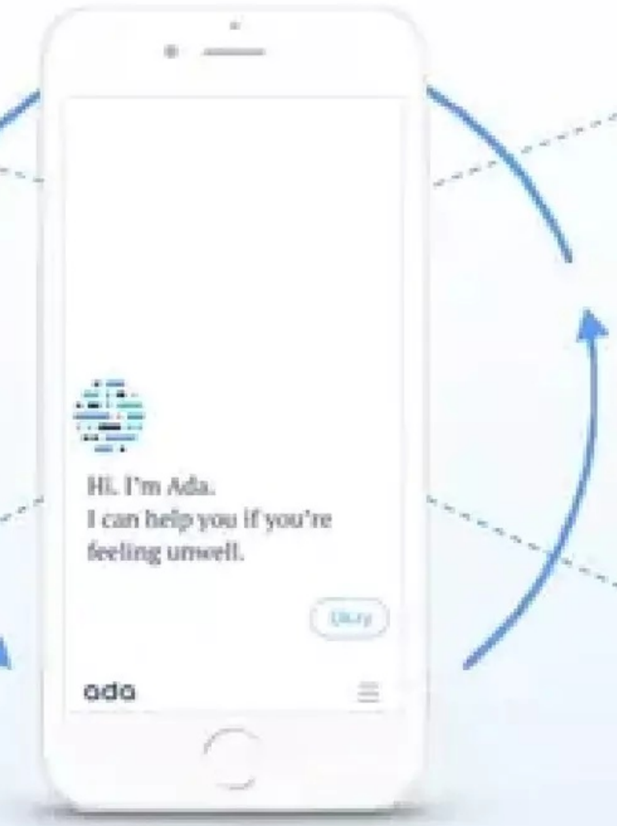

Our differentiation is defined by the highest standard of quality

Clinical leadership*

External validation studies and independent reviews show Ada's clinical leadership in the symptom assessment market

Trusted by users

Every three seconds one of Ada's over 10 million users turns to us for health guidance

Adaptable and scalable

Ada is a purely digital platform that is provider agnostic and can be adapted to our partners' needs

Rich data insights

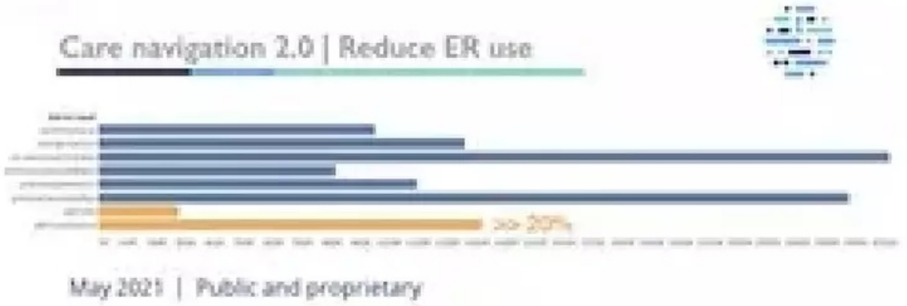

With over 20 million assessments completed, we have developed a rich and nuanced understanding of users' behavior

* External validation studies available upon request

NHS experiments shows potential for redirection of care

In a large NHS GP clinic, with over 500 patients and 20 doctors participating. Patients were asked to complete an Ada assessment while they waited to see a GP, with:

- **97%** of patients found Ada easy to use
- **86%** would use Ada again
- **15%** wouldn't have attended the clinic if they had used Ada beforehand - would have self-cared at home or visited the pharmacy instead.

"The real benefit of Ada is in empowering patients and keeping them away from the clinic in the first place"
–NHS GP

Ada's clinical leadership stands out from competitors

Ada's leading coverage, accuracy, and advice safety as a differentiator

99% condition coverage, highest among competitors

71% accuracy similar to GPs, twice as high as competitor avg

97% advice safety, on par with doctors

Patients love us and experts respect us

We are the most popular symptom assessment app

Consumers' endorsement

> *It took my doctor 12 years to diagnose my rare disease. Ada figured it out within minutes*

> *Described my symptoms which took doctors a year to diagnose... This app gave the same diagnosis in 5 minutes*

> *This app diagnosed me properly on the first round of questioning. A diagnosis that took me 5 years, 40 doctors / specialists, 23 painful / invasive tests, and thousands of dollars to get*

> *Saved my life... I was struck with a deadly issue and Ada helped me identify it and go to the hospital as soon as possible. I'm now writing this from the hospital bed after my surgery to thank the makers and properly show my admiration and appreciation for what you've done. Well deserved N°1 spot in medical apps, everyone should have it installed*

4.7 / 5.0
270,000+ in-app ratings

Medical experts' endorsement

> *"Babylon have some bells & whistles that make it look pretty impressive and cool. Most of that stuff you can do pretty easily. But I worry a little bit about [illegible] Ada [illegible]*
>
> *I haven't seen them invest that heavily on that side of it, whereas Ada has invested very heavily on that side"*
>
> *"I'm very impressed with what Ada have done, I think that within their company, they're very, very heavy on the clinical side"*
>
> *They have a lot of clinical resources and individuals providing guidance into the science & technology behind the scenes that are accurately assessing these symptoms, asking the right questions, etc"*
>
> *– Clinical team from US telemedicine company*

> *"The real benefit of Ada is in empowering patients and keeping them away [illegible] in the first place"*
>
> *"I personally agree with Ada's diagnoses and triage advice"*
>
> *"Patients are nearly all enjoying using Ada and find it useful"*
>
> *– GP Feedback*
