AppBind

Why *force* customers to buy their own SaaS?

Sign up with email and password

And pay by credit card

sunir@appbind.com

AppBind

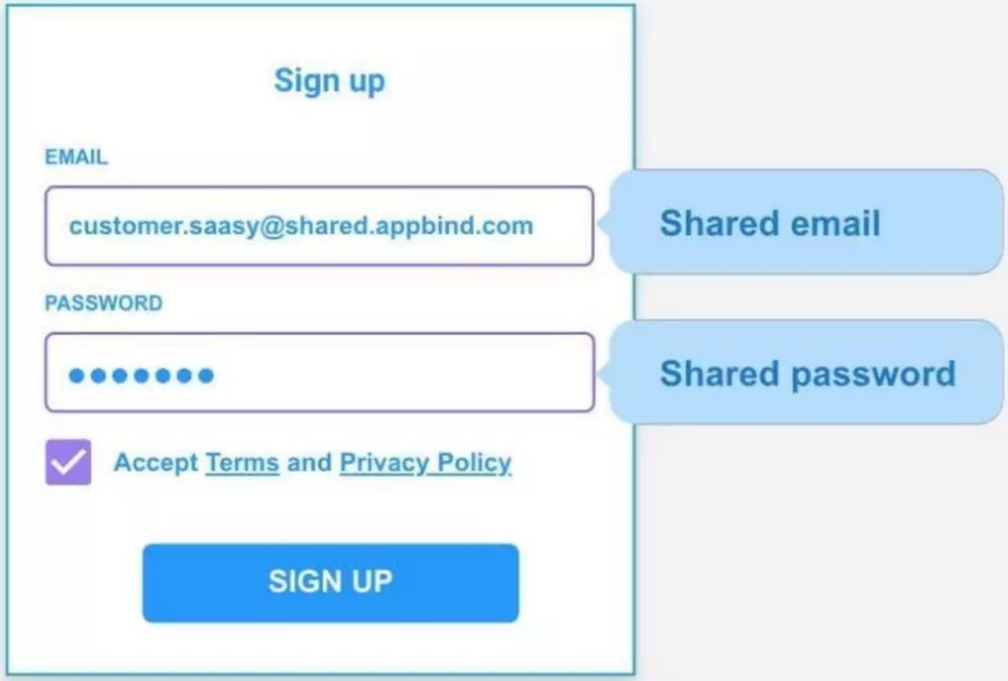

“We were moving away from reselling because of the manpower it required to manage billing. **AppBind lets us automate this away and actually resell more software**.”

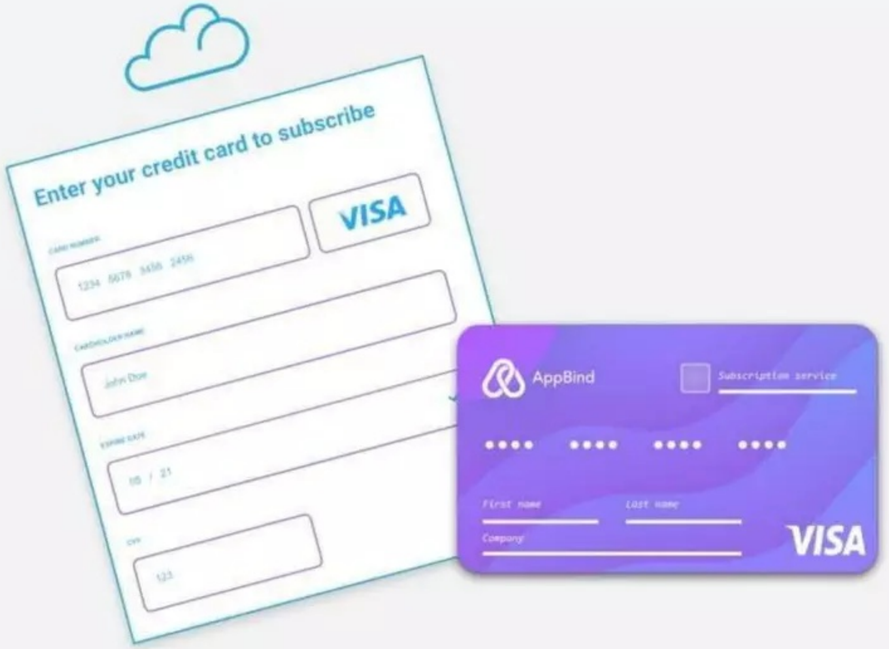

— Cameron Martinez, Lvrg.it

sunir@appbind.com

AppBind

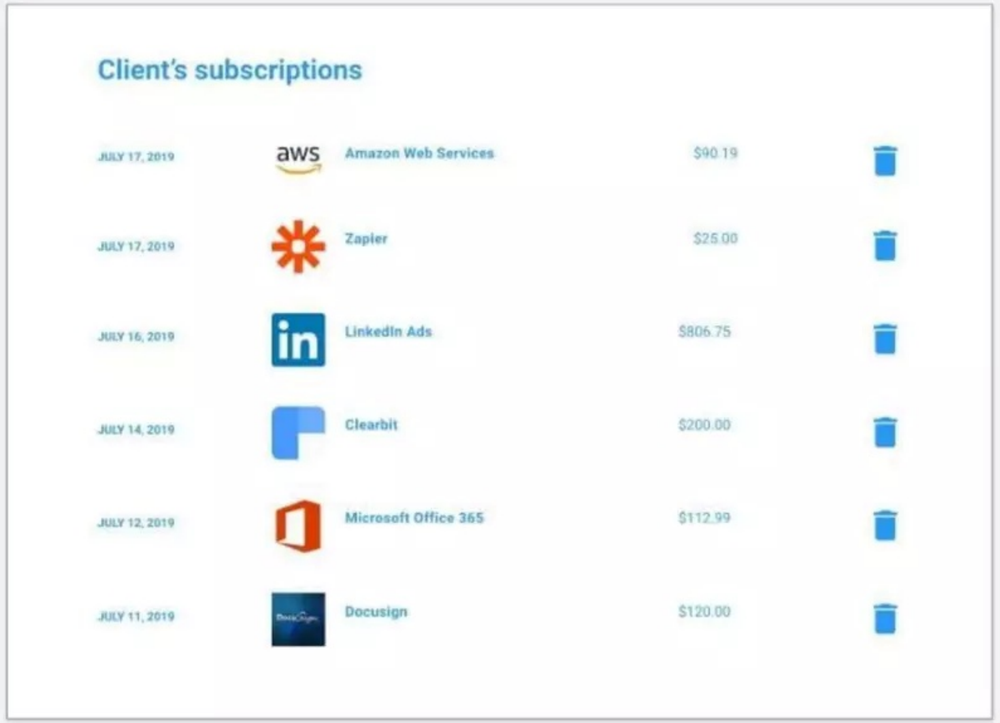

AppBind creates a new virtual email and password shared with the customer.

AppBind creates a virtual credit card that expenses the customer automatically.

sunir@appbind.com

AppBind

All customer's subscriptions managed in one place.

Subscriptions are automatically expensed—plus markups!
