Fuel theft and poor controls

What customers say

[Wex, Fleetcor]:

Wade B

★☆☆☆☆

Worst banking experience I've ever had. If you can avoid using this service you will save yourself a lot of headaches.

Sara Bear

★☆☆☆☆

My company has been in business 21 years, this year, I am responsible for the company's AP and AR. WEX is BY FAR the most infuriating, frustrating, shady, illegal, gouging, unethical biller of any of the 200 or so payments that I deal with, per month.

Jennifer K

★☆☆☆☆

These people refuse to help us with some fraudulent charges. Everyone we have tried to speak to is super wishy washy. I have never seen a company lack so much in customer service and communication. I would give zero stars ifI could. When you call them with a problem, they treat you like you are the problem and I disagree with these practices and need something done.

Maria Kirk

★☆☆☆☆

In her 35 years running a small business, Maria Kirk dealt with only one company that made her physically ill: fuel-card provider Fleetcor Technologies Inc. and the thousands of dollars in fees it charged.

FTC Sues FleetCor and Its CEO for Fleecing Small Businesses With Mystery Fuel Card Fees

August 11, 2021

Files administrative complaint aimed at recouping hundreds of millions lost by customers lured by false promises of fuel savings

The Federal Trade Commission has filed an administrative complaint against FleetCor and its CEO, Ronald Clarke, for charging customers hundreds of millions of dollars in mystery fees associated with fuel cards. FleetCor, marketing under the "Fuelman" brand name and through co-branded cards with businesses around the country, falsely told its business customers that they would save money, be protected from unauthorized charges, and have no set-up, transaction, or membership fees. In reality, according to FleetCor's own records, customers generally

Next up: AtoB Payroll Card

Payroll softwares have limited use within the trucking industry as they don't support *mileage based payments* which most drivers are paid by.

	gusto / ADP	AtoB
Hourly Pay	✓	✓
Fixed Pay	✓	✓
Mileage based pay	✗	✓

How do we do this?

Telematics integration

All trucks in the US are connected to ELD devices since 2016

AtoB's integration with ELD devices enables mileage-based payments.

Next up: AtoB Payroll Card

Growth of payroll products for drivers

2022: Payroll Products for **10M+ underbanked** local & OTR truck drivers

Early Wage Access
getting a portion of their earnings as soon as they complete trips

Debit Card
with free withdrawals at ATMs to make cash access faster

FDIC Insured checking & savings account
with no high or hidden fees, to build loyalty

Smart saving tools
with no high or hidden fees, to to help budget and plan financially

Next up: International expansion

Canada

Launching Canada to cater to fleets that do cross-border shipments between the US and Canada

Europe

Launch in the largest fleet card market globally with higher reporting needs for fleets along with greater need for fuel efficiency

Q1 2022

Q2 2022

Q4 2022

Mexico

Launching Mexico in Q2 2022 to complete the North American mega region and be a universal provider of fleet card services to fleets operating across North America

NAFTA

Launch Mexico and Canada to ensure we cater to all cross-border fleets in North America which drive a big chunk of freight

No Forex Fees

Remove unnecessary forex fees and other hidden fees with cross border card transactions

Europe

EU is the most highly-regulated region, having the highest reporting requirements along with higher fuel and payroll prices, which leads to an enhanced need for fuel efficiency

Next up: Buy Now, Pay Later

PAY IT | PLAN IT

Maintenance Purchases
can go up to $10,000 for a single repair for a truck and contribute to ~13% of the overall cost structure of running a truck. These are big cash flow blows for a company that occur multiple times during a given year.

TirePurchases
add up very fast to the bills of a trucking company with a single tire costing $500 and lasting around a year's time. 18-Wheelers can spend $9K+/Year

Insurance Purchases
can cost $10K+ for a truck for a given year and is discounted for an annual payment.

PAY IT | PLAN IT

4-12 Week Payment Terms
Allowing logistics companies to split their bill into 4-12 weekly installments to ease out the cash flows pains caused by repair purchases

0% Interest Rate
Companies can avail this option for purchases over $500 in non fuel for a small fee and no interest rates

Same Rewards
Companies earn the same rewards as a purchase where they pay it all upfront making 'Plan It' their go to option

Product roadmap and TAM

Fleet card

for fuel, maintenance, tolls, and related expenses

Payrollcard

with mileage-based payroll for fleets and earned wage access for drivers

Buy now, pay later

providing financing options for large maintenance expenses

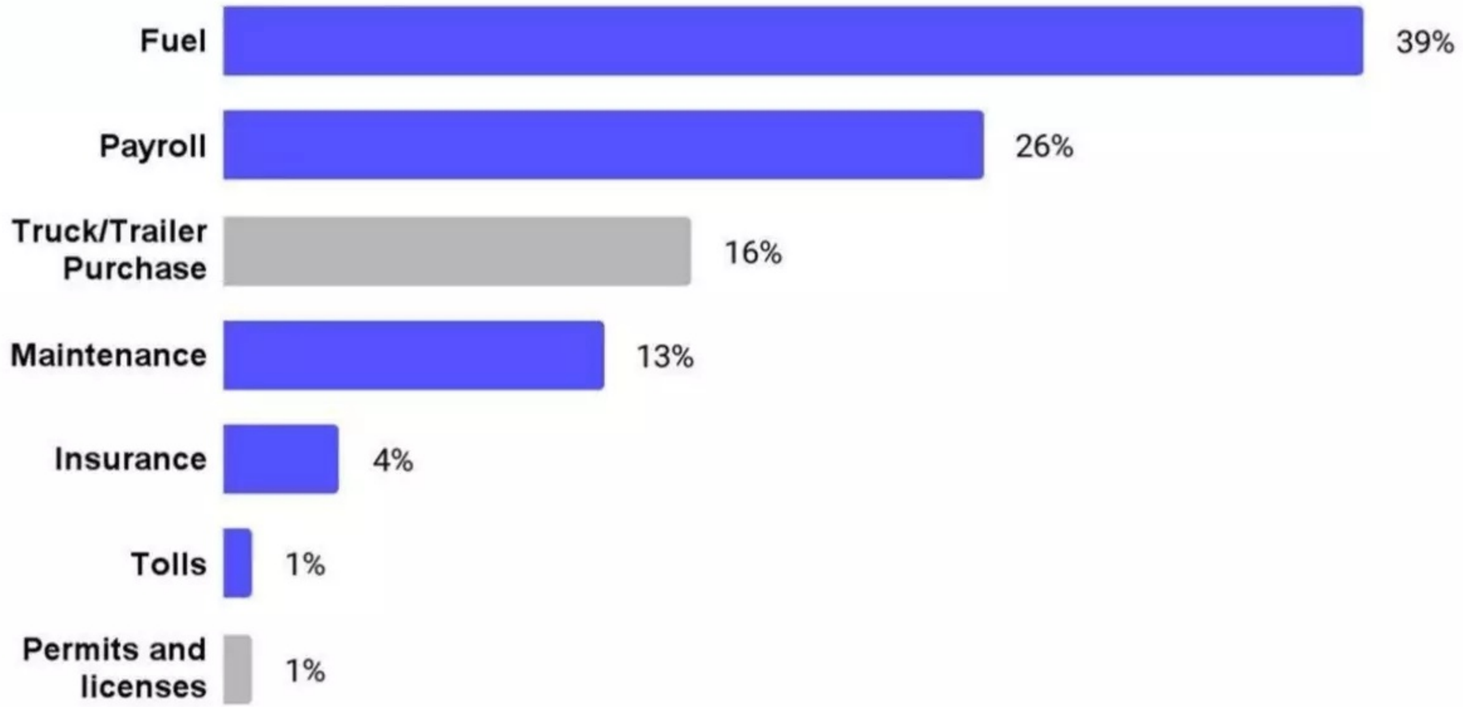

International expansion

starting with Canada and Mexico

Capturing a greater share of spend

$60K-120K

Annual spend per OTR truck in US
