battleface custom building for **partners** and their **customers**

Distribution:
Direct

Distribution: **Groups**

By **customizing plans**, groups get everything they need **without paying** for coverage they don't

Because a group plan for humanitarian activities in Nairobi doesn't have the same needs as a business project in Bangladesh, **we gather information about group destinations, demographics, activities and specific needs.**

At **battleface** we customize and develop plans specifically for groups of people who travel, live and work internationally.
