A new way
to age at home

The ageing tsunami

65+ yrs population will double over next 20 years, reaching 2bn

Elderly care consumes 60% of the healthcare costs today

Our **vision** is a world in which we can all **age vibrantly** and **with confidence**

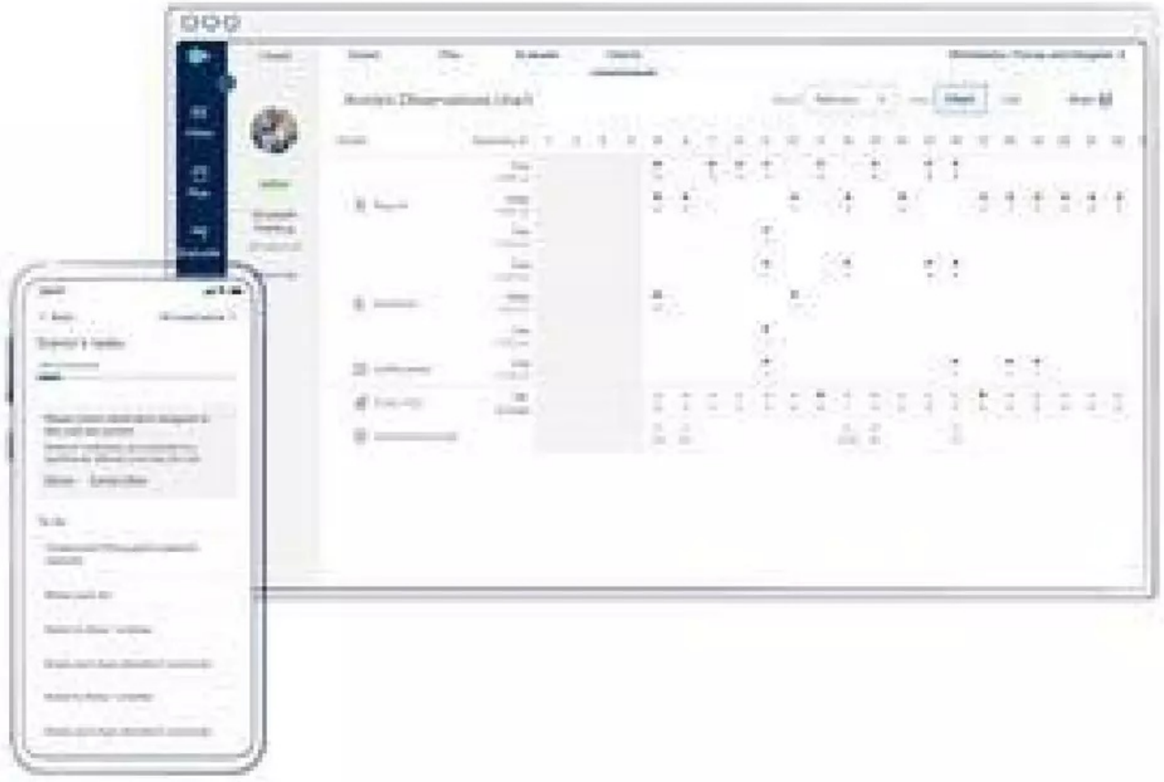

Home care is the future, but it's broken

- **Standard & reactive**
- **Uncoordinated**
- **Inefficient** (70% ops on paper)
  - Care delivery
  - Back office operations
  - Matching
  - Compliance
  - Carers recruitment/retention

birdie
