Starting with a Corporate Credit Card…

Addressable Annual Card Revenue Opportunity

BREX

Initial Focus on Technology Companies

1. **Underwriting Arbitrage**
   Cash-rich companies early in their lifecycle, legacy companies won't extend credit

2. **Big Spenders**
   Relatively high proportion of expenses on card (SaaS, Servers, Ads)

3. **Early Adopters**
   Focused on high quality technology, integration as well as T&E pain points

4. **High growth / LTV**
   Negative churn

5. **Concentrated**
   Large cities within networked ecosystems
