The problem

A crushing provider shortage is at the root of health system challenges

© Bright.md 2020

Healthcare's crushing problem

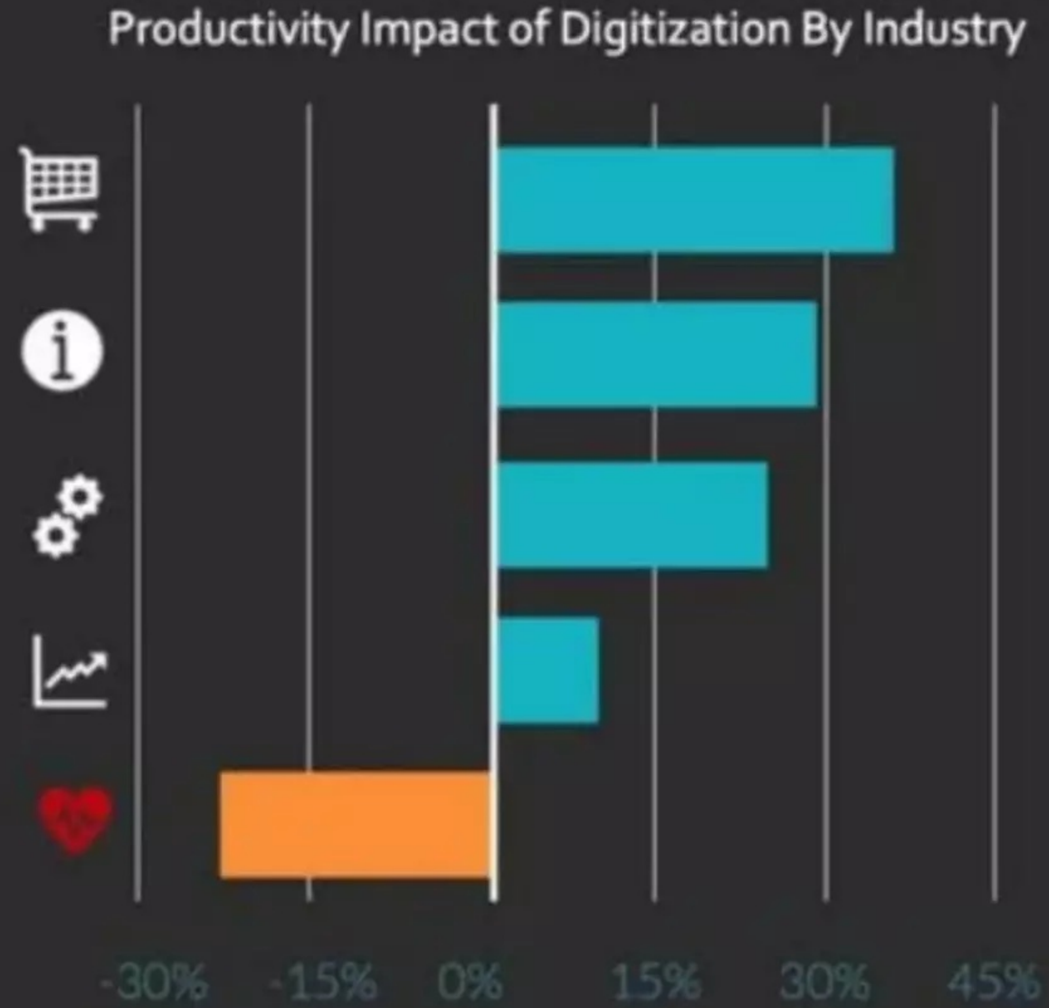

Currently a 15% shortfall of PCP capacity, and getting worse every year

EMR's don't help

Unlike every other major industry, productivity in healthcare has been *negatively* impacted by digitization

Source: Brookings Institute, WSJ

“Telehealth” does not help

According to the Advisory Board, video visits take about the same amount of clinician time as in-person visits.

Why We are Special: SmartExam™

Patient ~ 10 minutes | *Clinician < 2 minutes* | *SmartExam Automates 90% of the work*

Patient takes a SmartExam on a smartphone or computer

SmartExam processes interview and generates a provisional diagnosis, treatment plan and chart note that the physician reviews and signs off

SmartExam sends interview back into the EMR as a separate encounter, completes billing, ordering, & sends AVS to patient

The Patient Experience

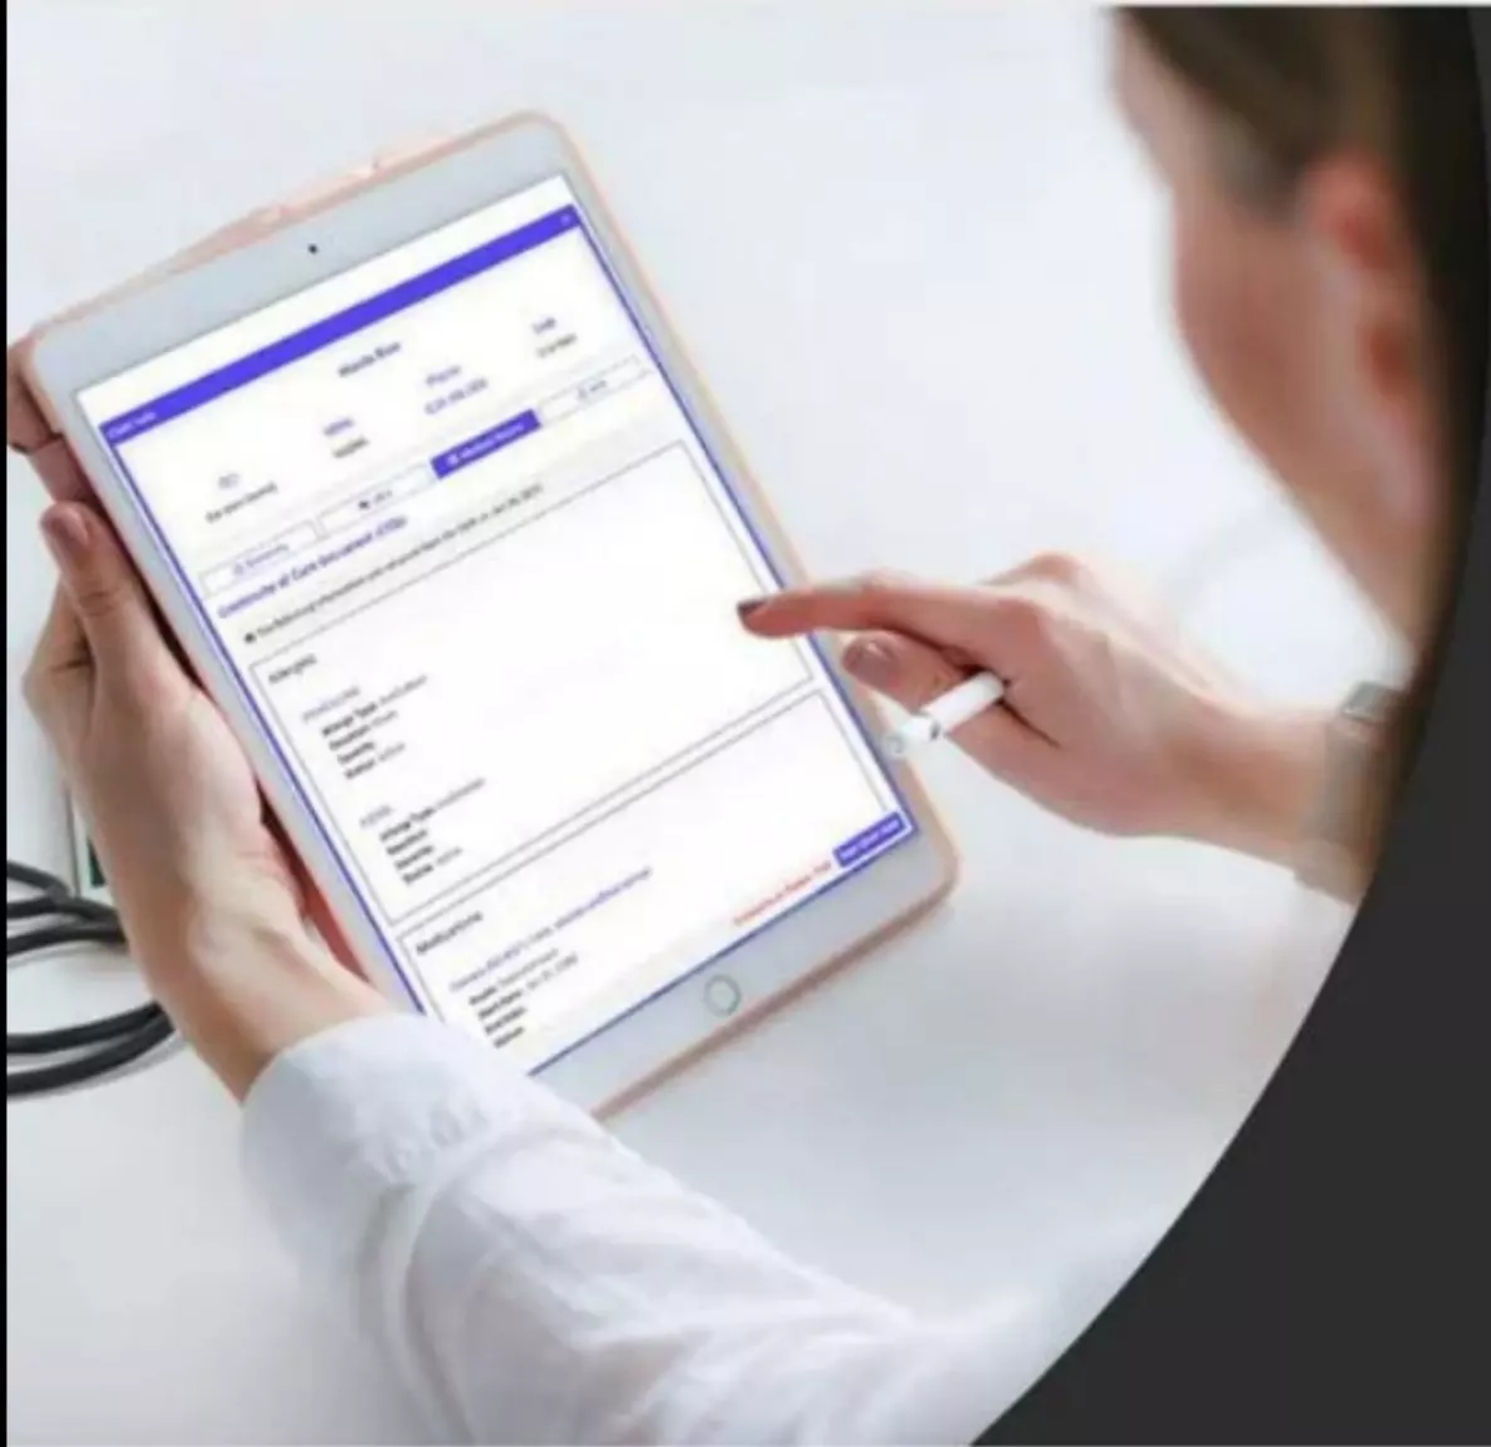

- Eligibility check
- EHR Review
- Online Clinical Interview
- Personalized Diagnosis & Treatment
- Rx if needed
- Referrals
- Educational Materials
- Work excuse notes

The Clinician Experience

- Alert that patient is in queue
- In app-EHR Review
- Results of clinical interview
- Differential diagnosis & treatment plan
- Chart-ready SOAP note
- Rx if needed
- AVS
- Billing file

Accolades from Patients & Providers

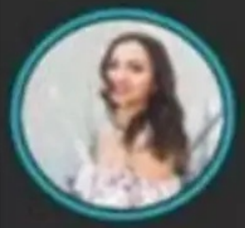

"Awesome! Convenient! Thorough!"

"Much better than going in person and waiting in an urgent care."

"It is entirely consistent, and more thorough than I would be. Lowers the variability...."

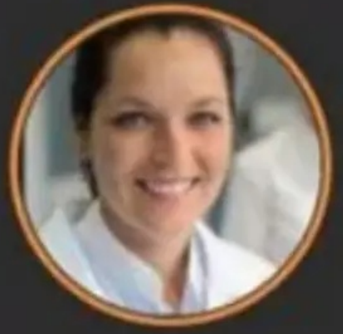

"Ease of use, the fact that I didn't have to wait in ER to get meds for a UTI. Or even wait till the morning to call my doctors office to see if I can get in at some point today. Got the meds last night and I am already feeling a lot better. "

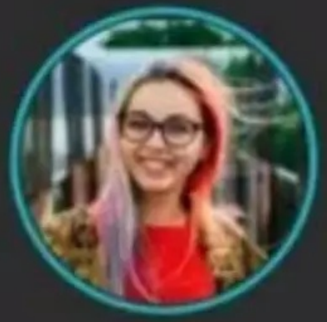

"Quick, convenient, easy access to care for patient; As a provider I like the HPI/ROS entered by patient, and auto generated note."

"Automatically picks diagnosis and treatment, and I can easily change this if needed."

"Love the ease of accessing the program anywhere you are."

"The most comprehensive history I could possibly ask for."

"My husband went to Minute Clinic around the same time I started SmartExam. It took him 3 hours. It took me 15 minutes, complete to prescriptions sent to pharmacy!"

CHILMARK NAMES BRIGHT.MD VENDOR TO WATCH

"The U.S. primary care system no longer meets the needs of its patients or providers," the report notes. "New technological approaches combined with the drive to move care to lower cost settings are creating care models that better meet patient needs and are accessible on demand."

—Chilmark Research, November 2019
