amazon Google ORACLE Microsoft

We share the attributes of the Leaders in DevOps

- ✔ **Product-led** growth
- ✔ **Developer First** brand
- ✔ On the path to **Category Leadership**

Like Atlassian is to plan and GitHub is to code, BrowserStack is to test!

We've built a unified platform for Testing

USE CASES

Compatibility | Visual | Functional | Accessibility | Usability | Performance | Security | Regression | Acceptance

MANUAL TESTING

Live | App Live | SpeedLab

AUTOMATED TESTING

Automate | App Automate | Percy

PLATFORM

Automation Frameworks | Enterprise Features | SSO | Integrations | Adaptive Streaming | DevTools | AI/ML

INFRA

15 Global Data Centers | 10,000 Real Devices | 2,500 UI combinations

Our Products

Web testing

Live

Interactive cross browser testing

Automate

Automated web testing

Percy

Visual testing and review

Mobile Application testing

App Live

Interactive mobile app testing

App Automate

Automated mobile app testing

Free Tools

Screenshots

Test cross-browser compatibility of your website

Responsive

Test how responsive your website design is across devices

SpeedLab

Test your website speed across browsers and devices
