

casai

What is Casai?

Casai is a hospitality concept designed for the nomadic generation. We curate beautiful apartments that merge the design and comforts of a boutique hotel with the technology of a Silicon Valley home and the local ambiance of a vacation rental.

casai

Casai is for every type of stay. But Casai is also...

Your corporate sanctuary

Look forward to business travel. Our fully-equipped executive suites, located in Latin America's business hubs, are the perfect place to get work done by day and recharge at night.

Casai Requirements: Studios-1BR, located in business hubs

Your urban retreat

Traveling like a local doesn't have to mean sacrificing the comforts of a 5-star hotel. Stay in curated apartments while receiving the guaranteed consistency and personalized service you deserve.

Casai Requirements: Eclectic neighborhoods, 1-2 bedrooms

Your extended stay

Every Casai is custom designed and equipped to feel like home. With fully-equipped spaces and minimal paperwork, you can rest assured knowing everything's been taken care of.

Casai Requirements: Spacious 2-3 bedrooms, located in business hubs

Why?

The global number of short-term apartment rentals is larger than the leading hotel chains combined, and it continues to grow.

Comforts of home
Apartments often provide plenty of space, furnishings and amenities that travelers are used to enjoying at home.

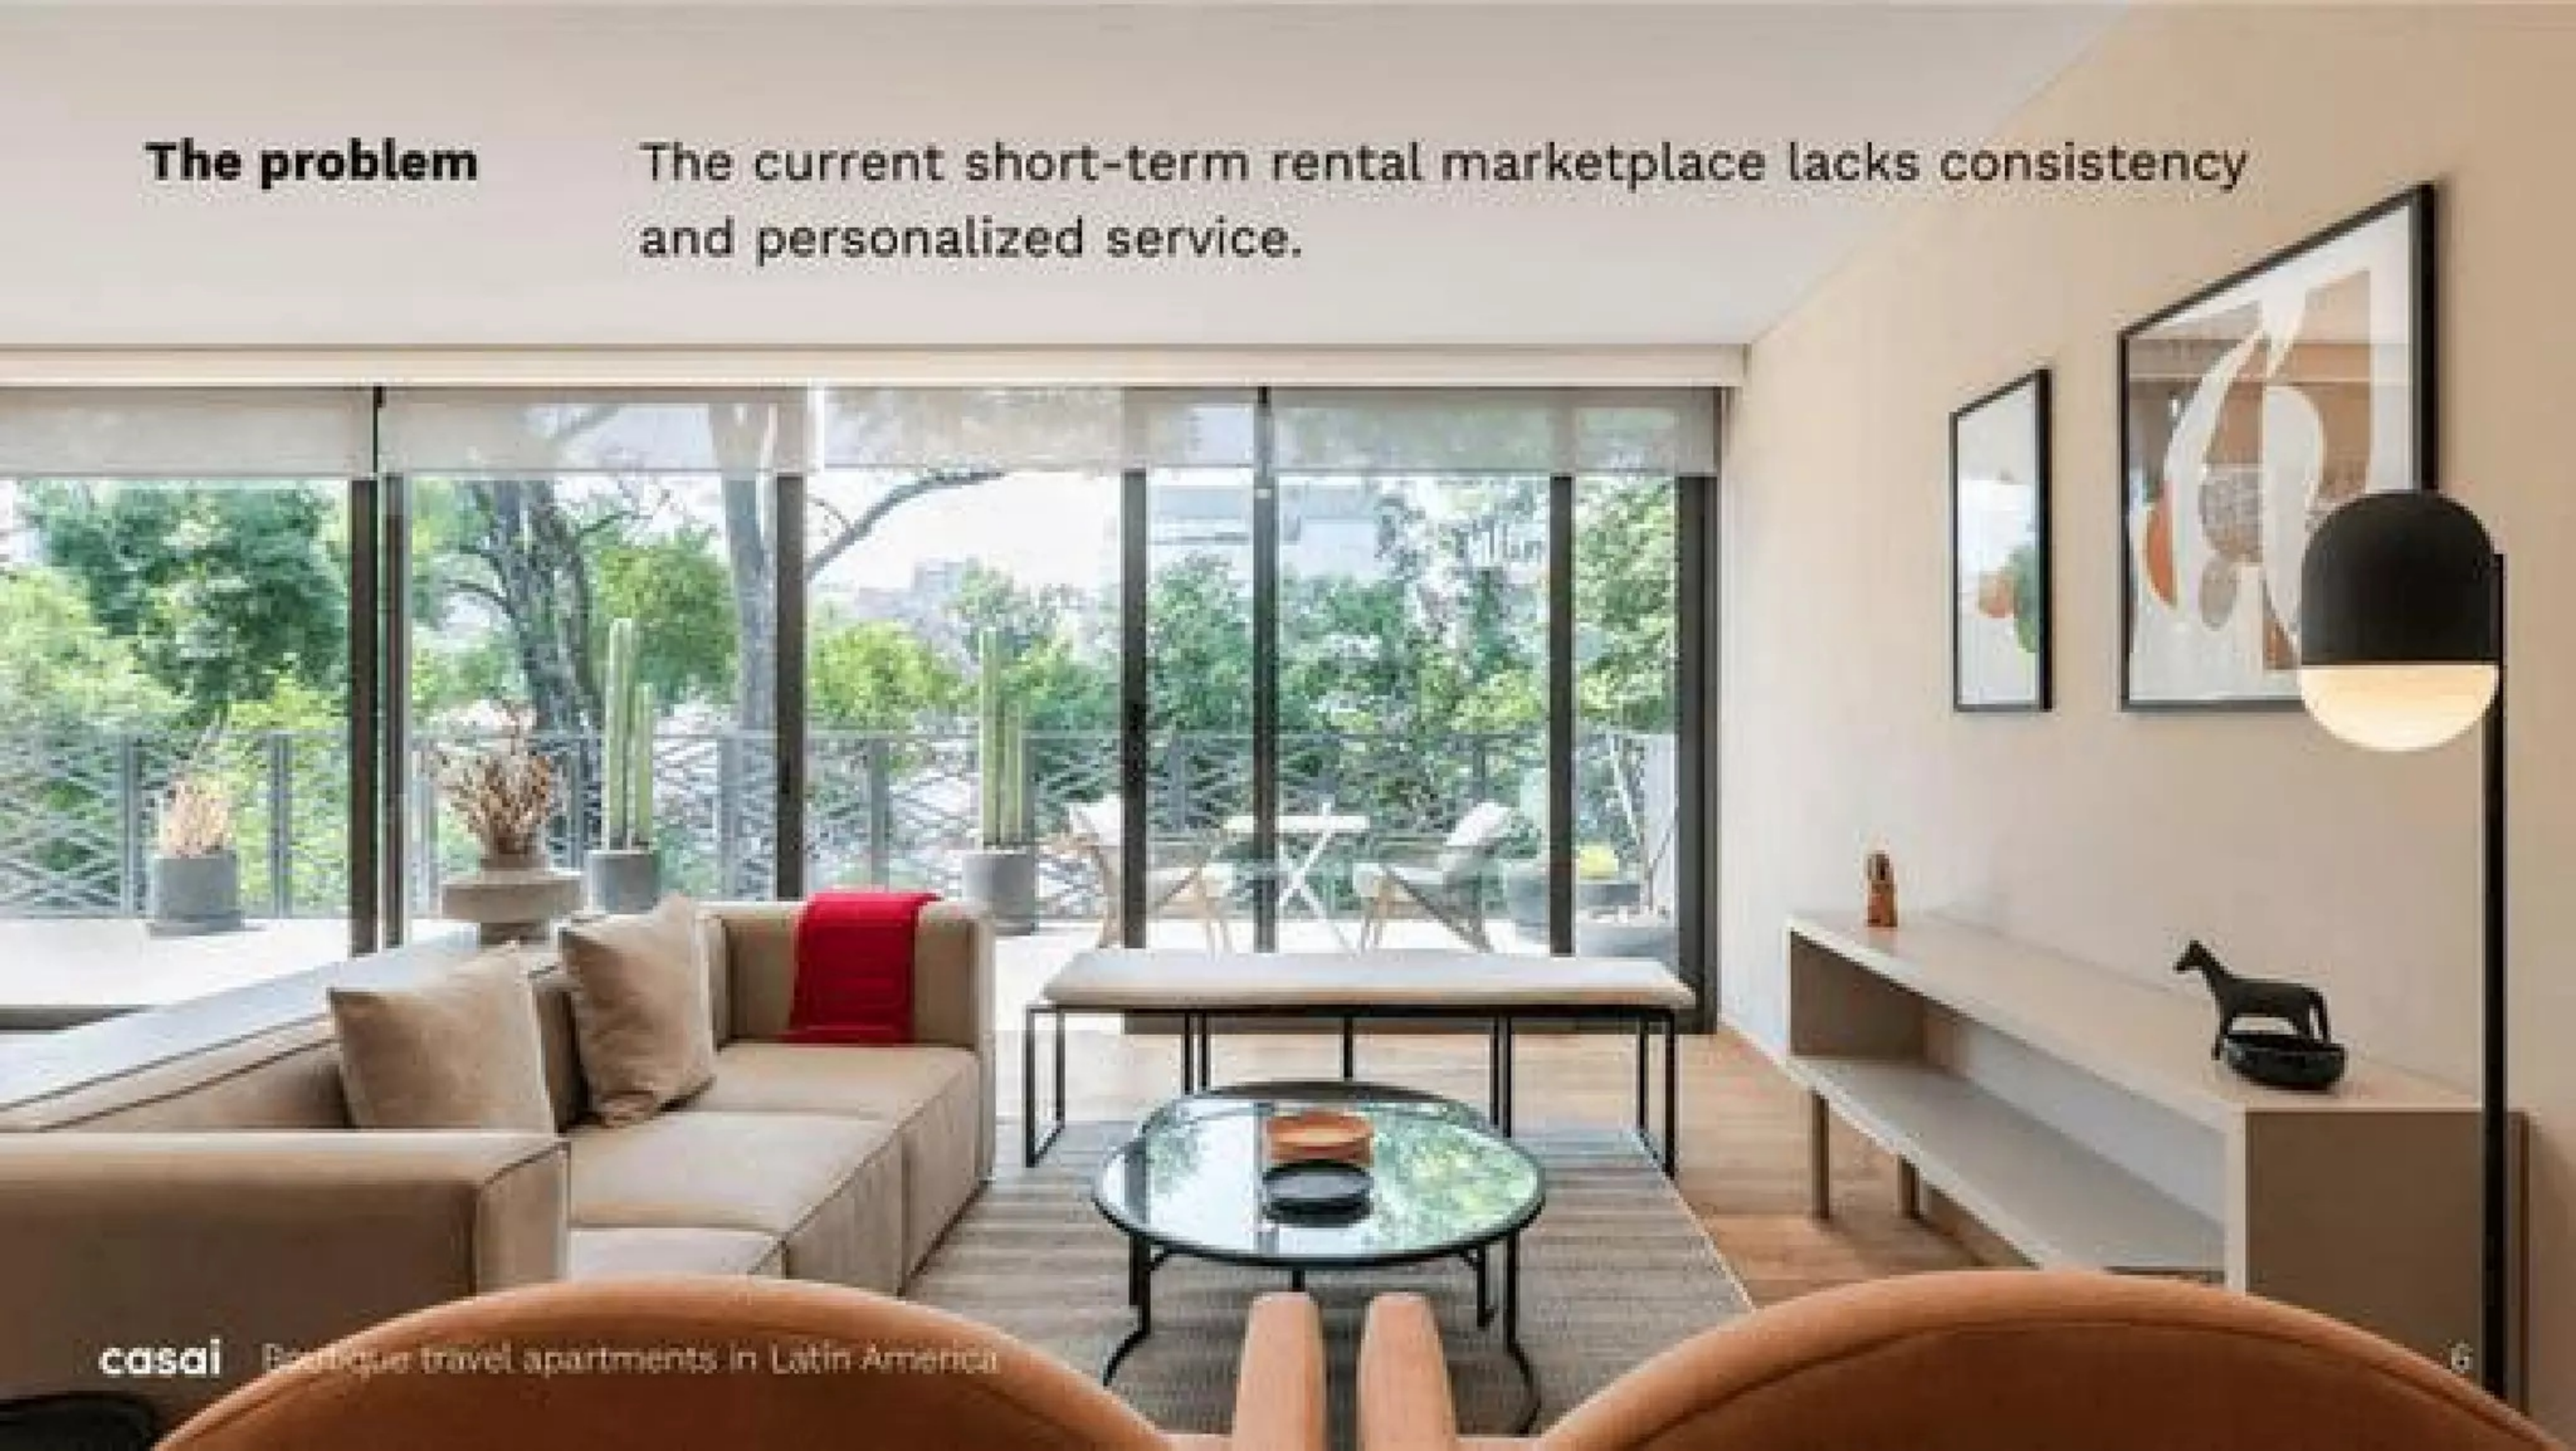

Live like a local
Staying in a home-like environment allows travellers to live a more authentic travel experience than a hotel.

Quality is key
Travelers agree that apartments should meet at least the same standards as a hotel room: fast wifi, modern furnishings and cleanliness.

The problem

The current short-term rental marketplace lacks consistency and personalized service.

The solution

Casai pairs the best parts of local experiences with the consistency of luxury accommodation.

The solution

Casai stands out as the best modern solution when compared to market alternatives.

- Access our guide of off-the-beaten path recommendations

Casai Interior Design:

Where luxury meets locality

Cultural sustainability is at the forefront of everything we do. Even down to our design.

Our in-house interior design team works closely with local artists and craftspeople to create beautiful spaces that aesthetically speak the local language.

Casai Interior Design:

The Casai Gallery project invites local artists to showcase and sell their art in our apartments

Casai provides artists with an art plaque & QR code - facilitating the buying process.
